Hello Sir,

As discussed with you today on the call. I am sharing a brief proposal and details about the Coding Ninjas programs herein this mail.

Coding Ninjas is the leading ed-tech startup and has upskilled more than **60,000+ students** so far. We have collaborated with various Colleges and Universities of high repute all over India including but not limited to **NIT AP, NIT Warangal, IIT Palakad, IIT Jammu, JNTU**. This has helped both the College Administration and the students by providing an online solution to all the technical skills needed for the Industry.

We have received very positive feedback from the students and which is why the college administration has shown faith in our online teaching model.

Under this partnership, we will be offering our foundation **courses worth INR 5000, free-of-cost** to the engineering students of your esteemed organization.

You can choose between any or both of these two courses:

1. Complete Hands-on **Java Training Program**
2. Complete Hands-on **Python Training Program**

Benefits of the proposed free foundation course

- Strong Logical Thinking
- Hands-on practical learning with projects and 100+ coding problems
- Command on implementations and converting logic into code
- The course is meant to build a strong coding foundation that helps students build confidence and will allow them to move to advance level coding
- The course can be completed in 1-2 months depending on student availability.

Doubt Support

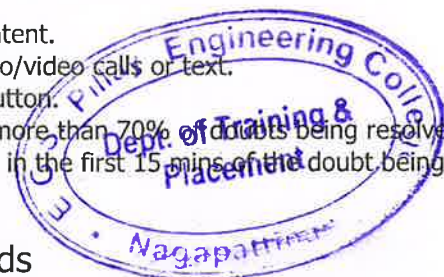

We have developed very scalable solution using which we are able to solve 4000+ doubts every single day with the help of 500+ Teaching Assistants on the platform itself with an average rating of 4.8 out of 5.

1. Students can raise doubts right on the platform on specific content.
2. Mentors can resolve doubts on the platform itself through audio/video calls or text.
3. Students can share their coding screens by simply clicking a button.
4. The maximum wait time for support on doubt is 2 hours with more than 70% of doubts being resolved in the first 40 mins and more than 30% of doubts being resolved in the first 15 mins of the doubt being raised.

Monitoring Dashboards

We will share dashboards with the college management & faculties to regularly track the progress of students. Faculties can track performance across:

1. Attendance of students.
2. Activity in the batches.
3. The number of problems solved.
4. Percentage of course completed.

5. The number of doubts raised/resolved.

And much more

Dear Dr. Chandrasekar

It was a pleasure to have spoken to you. I appreciate Mr. Arifeen's effort and time in getting us introduced.

As a follow up to our discussion over the phone, I hereby like to introduce you Dr. Subbiah who heads Thinklabz. Thinklabz is part our group which was created primarily to provide trained resource in the Data Science Domain for our group companies. In addition, we would be happy to partner with institution to train and or create AI and Data Science curriculum based "Centre of Excellence"

Dear Dr. Subbiah,

I had a good discussion with Dr. Chandrasekar who is the CEO of EGS Pillay Group of Institution which has various colleges from Autonomous Engineering college, Arts & Science and Pharmacy College to just name a few. I believe EGS is looking to strike the right Industry /Institution partnership with organization that would have specific core-competency. Think Labz and Vere Technology are ideally suited to provide the necessary

Partnership for creating AI and Data Science related curriculum that would pave the way for a "Centre of Excellence" in the AI and Data Science space.

Additional long term agenda for the relationship would also include Training, Hiring and Module development for our products.

I suggest that we quickly agree on a quick introductory Google meet so we can put forth each other's proposition at a high level and get it started from there and see what are the next steps to achieve our common agenda.

Can we do this google meet post lunch coming Monday IST around 2 pm or please suggest alternative time but needs to be post lunch IST please.

Regards,

Abdul Rahman Shroff

2. SEUSL is a government university located in Sri Lanka, and provides university-education and trainings at national level in the areas of engineering, applied sciences, information technology, business management.
3. The Parties now recognizing the benefits to their respective institutions from the establishment of international links enter into this Memorandum of Understanding ("MOU"). The aim of this MOU is to promote academic and educational exchange between two institutions.
4. The Parties wish to enter into a series of discussions for the mutual benefit of both Parties, and for purposes more particularly set forth herein.

The Parties hereby mutually agree to the following:

1. Scope of Understanding:

The provisions stated in this MOU are statements of intention only. This is not a binding agreement between the Parties (save for the confidentiality provisions below), and no such agreement shall exist until both Parties have negotiated, prepared and executed a separate individual written agreement establishing the binding obligations of the Parties and approved by each Party's Board of Directors / Governing Authority in relation to specific objectives stated below.

[Handwritten signature]

This MOU is intended to establish a basis upon which E.G.S.P.G.O.I and SEUSL may explore areas for co-operation in the development and promotion of both academic research and enhancing the educational opportunities for students. The Parties believe that such endeavours would be in the interest of both Parties, academic and general community at large. In this regard, the Parties agree to discuss and explore the following objectives for mutual benefits:

A) Scope of Agreement

 - ii. The MOU shall be subjected to periodic review by both the institutions
 - iii. Financial matters including travel are subject to individual negotiation
 - iv. The host institution agrees to assist in housing, arranging work space, library and other technical facilities.
- 1.2. Specific activities or projects based on this MOU will be separately negotiated and will be subject to further agreement detailing the parties' responsibilities, obligations and conditions relating to each activity or project.
- 1.3. This MOU shall be officially executed in three (3) copies in English.

2. Contact Persons:

SEUSL hereby appoints Prof. M.M.M. Najim (Vice-Chancellor) and E.G.S.P.G.O.I hereby appoints (Prof. V. Sivaraman, Director, Industry Institute Relations) to co-ordinate and oversees all discussions between the Parties pursuant to this MOU.

3. Mutual Expense and Reliance:

Each Party will be responsible for its own expenses during the discussions in connection with this MOU, and all discussions shall be done in good faith for the mutual benefit of both Parties involved. Any action taken in reliance on the understanding expressed in this MOU shall be at the Parties' own risk.

4. Confidentiality:

- a) All information exchanged between Parties in connection with this MOU or during discussions preceding this MOU and relating to this MOU or to any matter contemplated by this MOU, and any discussions held between the Parties are CONFIDENTIAL to them and may not be disclosed to any third party during the period of this MOU or anytime thereafter except:

- i) with the written consent of the other Party;
 - ii) if required by law to be disclosed;
 - iii) in connection with legal proceedings by authority of a court of competent jurisdiction; or
 - iv) if the information is or becomes generally and publicly available but not as a result of breach by either Party and/or the employees of its respective subsidiaries, parent or related companies as aforesaid, of its obligations under this MOU.
- b) Disclosure of confidential information to the employees of either Party's subsidiary, parent or related companies is permitted provided it is necessary for the purposes of performing that Party's obligations under this MOU. Notwithstanding the aforesaid, the Party receiving any information shall ensure that any of its employees to whom information is disclosed by the Party disclosing pursuant to this MOU shall undertake to observe the confidentiality undertakings in this MOU. The Party receiving the information shall protect all confidential information of the disclosing Party using not less than the standard of care in which it treats its own confidential information (but no less than a reasonable care in the circumstances) and shall ensure that the information is stored and handled in such a way as to prevent unauthorised disclosure.
- c) The obligation of confidentiality herein shall survive the termination of this MOU and remain binding on the Parties without limitation of time.

5. Termination:

This MOU is for duration of five (5) years from the date of this agreement. However, either Party may immediately terminate or extend this MOU for any reason by providing notice in writing at least six (6) months prior to the expiration of this period to the other Party.

6. No Legal Obligations:

The Parties agree that provisions contained in this MOU are not binding and do not create any legal obligations between the Parties, save for the confidentiality provisions in this MOU.

7. Relationship of the Parties:

The Parties herein are independent entity. This MOU does not create any agency, company, partnership, joint venture or any other business relationship between the Parties.

8. Limitation of Liability:

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding ('MOU') is executed on 19th Oct, 2020, at EGS Campus, Nagapattinam
AND BETWEEN

SOLVERMINDS Solutions & Technologies Pvt. Ltd, a Company incorporated under the provisions of Companies Act, 1956 and having its registered office at Plot 2B-4, 7th Cross Street, SIPCOT IT Park, OMR, Siruseri, Chennai, 603 103 Tamil Nadu, India represented by its authorized signatory Ravishanker Kannan Head-Talent Acquisition, hereinafter referred to as 'SVM' on the ONE PART (which expression whenever used shall mean and include its successors, administrators and assigns),

AND

Private and confidential – MOU between SVM and EGS Campus

EGS Pillay Engineering College, Old, Nagore Main Rd, Thethi village, Nagore, Nagapattinam, Tamil Nadu 611002. represented by its authorized signatory Shri S. Parameswaran
Hereinafter referred to as 'Institution' on the OTHER PART (which expression, whenever used, shall mean and include its successors, administrators and assigns).

(SVM and Institution are individually referred to as 'Party' and collectively referred to as 'Parties').

WHEREAS SVM is a global information technology services company and provides IT and business consulting, application support and maintenance, development, systems integration, and managed services to its customers.

AND WHEREAS Institution is a premier educational institute in the country and provides a high quality educational experience to students in a diverse learning environment. From classrooms and laboratories to playgrounds and campus hostels, all the facilities and amenities provided to meet the world-class standards

The Institution has evolved a comprehensive student-centric learning approach consisting of several stages, designed to add significant values to the learner's understanding in an integrated manner, covering relevant knowledge, practical skills, and positive attitudes.

AND WHEREAS Institution, to enrich practical skills and impart industry-relevant course curriculum to students of all engineering disciplines in the field of Information Technology(IT), has approached SVM for forging an industry-institute academic alliance with the intent to facilitate and train Institution's students and faculty on Development / Testing by utilizing SVM's relevant experience and by deputing SVM's representatives from time to time at the Institution with the object of providing exposure to SVM's Faculty and students to current industrial needs and requirements.

AND WHEREAS SVM, with a bona fide and non-commercial intention of serving the purpose of education and making the students more exposure to the present industrial needs and requirements thereby reducing the cost and time involved in training and making them skill-based personnel after graduation, has accepted the request of Institution.

Accordingly, the Parties have decided to reduce into writing their mutual representations and understanding as stated hereunder:

NOW THIS MOU WITNESSETH AS FOLLOWS:

According to the foregoing covenants, the Parties hereby agree and the state as follows;

1. That the Parties on this day have executed this MOU intending to enhance the quality of the educational experience for students and training of faculty of Institution and also for industry-institute collaboration between the Parties for mutual benefit and pursuant thereto the Parties agreed for:

- (a) SVM may as mutually agreed from time to time, provide Institution with certain material and access to the Development / Testing library and collaterals and the Institution shall use the materials and access to the Development / Testing library under the guidance of SVM and only for this MOU.
- (b) If requested by SVM, the Institution will nominate two or three faculty members for undergoing the Trainer program at SVM's office at Chennai for two weeks. The faculty, after completion of training, will be allowed to train a certain number of students as agreed upon in writing from time to time.
- (c) The final year students to be trained will be pre-selected by SVM (hereinafter referred to as the 'Pre-selected Students').
- (d) The course will be imparted for the duration specified by SVM as an additional training program. This program will be run during the pre-final semester of the graduation course being offered by the Institution for the Pre-selected students.

- (e) The Institution is not allowed to charge the Pre-selected Students any fee for this course. If it is found that Institution has charged fees for this program from students, SVM will have the right to immediately terminate this MOU and stop all association with the Institution.
- (f) The Institution is not allowed to train any other students according to this MOU other than the Pre-selected Students by SVM.
- (g) SVM shall retain the right of first refusal for making employment offers on completion of their graduation from the pool of Pre-selected Students. This is however not applied for the students who are not pre-selected by SVM or have not been made part of the training program under this MOU.
- (h) Pre-selected students who undergo this program as part of their pre-final semester may also be given an internship opportunity by SVM either in its office or through virtual mode.
- (i) The Institution will at its own cost establish a lab with the specified infrastructure requirements of SVM and will use the lab for imparting the course/training under this MOU. This lab will be used as a first preference for the purpose stated above.

2. The MOU shall be valid for Two (2) years from the date of execution. The Parties shall be at full liberty to terminate the MOU at any time by issuing a prior notice of fifteen (15) days. The Parties shall make reasonable efforts for the performance of the MOU and shall in good faith cooperate with each other in duly performing the obligation agreed upon. The Parties herein have agreed to perform various obligations with a voluntary service motive and there is no monetary obligation/consideration involved herein between the Parties. Under no circumstances, SVM shall be treated as the vendor, contractor, and agent of the Institution (or vice-versa).

3. The Institution shall have to bear all expenses towards providing infrastructure, network and internet access, and the other facilities required for the education and training. The Institution will not use the material or access to the Development / Testing library for any other use other than the above-mentioned process. Training of the faculty members or more number of students than agreed or using licenses for any other commercial/non-commercial purposes will be a

breach of this MOU and such use may attract legal action along with immediate termination of the MOU.

4. The Institution shall indemnify, defend and hold SVM, its subsidiaries and affiliates thereof and their respective officers, directors, agents and employees, harmless from and against all claims, damages, liabilities, costs, losses and expenses, including reasonable attorneys' fees and expenses incurred, related to or arising from: (i) bodily injury or damage to property incurred from or in connection with the performance of Institution under this MOU; (ii) any claim by or against SVM arising out of a breach by the Institution of any obligations (including, without limitation, any warranty, confidentiality, intellectual property, assignment obligations) under this Agreement; (iii) the infringement, misappropriation or a claim of infringement or misappropriation of any patent, copyright, trademark or other proprietary or intellectual property right of a third party; (iv) the acts, omissions, negligence or misconduct of the Institution or its students, officers, directors, agents, representatives, assigns, personnel and employees; (v) any claims by the students or third parties against SVM related to this MOU.

1. PREAMBLE

E.G.S Pillay Engineering College, Old Nagore Road, Nagapattinam District – 611 002 offers Under Graduate Programmes and Post Graduate Programmes in the Engineering stream. The Institute is promoting research activities apart from imparting quality education to students from across the nation. E.G.S Pillay Engineering College is deeply concerned with the commitment of quality education by creating and promoting interaction with industries and research organizations to provide up to date training and knowledge to the faculty and students.

NI has worked with engineers and scientists to provide answers to the most challenging questions. Through these pursuits, NI customers have brought hundreds of thousands of products to market, overcome innumerable technological roadblocks, and engineered a better life for us all. NI works with the innovators of the world to develop smarter products and technologies. In this example, see how FireFly Equipment used the NI CompactRIO platform to save hundreds of thousands of dollars in development time and simplify the complexity of an extremely advanced smart machine. NI provides its customers with powerful, intuitive technology to create systems that improve the world and address the engineering challenges of today, as well as those yet to come.

This MOU is a document between both the organizations to work together for the welfare of students without any financial commitment on either side as mentioned below:

1. Party 1 can make use of the laboratory and library facilities of party 2 for their R &D and testing works on mutual consultation.
2. Party 1 can send their staff as delegates to attend conferences/ symposium, workshop etc. including video conferences conducted by party 2, at the college, free of any registration fee.
3. Party 1 can assign hardware and software projects, relevant to their industry, suitable to the final year BE students to carry out the same in the industry / institution as part of the academic requirements of the students, on mutual consultation and guide the students as project guides /co – guides.
4. Party 1 can request party 2 to impart training, including induction and orientation training to the newly recruited engineers / technical staff of party 1 to update them with the latest techniques, on mutual consultation without any financial commitment to party 2.
5. Party 2 can request party 1 to permit the students and staff of the college i.e. party 2 to visit the industry of party 1/ to undergo practical training in the industry of party 1 for short periods, on mutual consultation, for the growth of students without any financial commitment to party 1.
6. Party 2 can request party 1 to send resource persons to give special lectures for the benefit of the students and faculty on mutual consultation depending on their availability and vice – versa.
7. Party 2 can request party 1 to permit the students and staffs of the college i.e party 2 to execute any research oriented project and also consultancy work, for the growth of students and staff members.

MEMORANDUM OF UNDERSTANDING
BETWEEN
PRINCIPAL - E.G.S PILLAY ENGINEERING COLLEGE
(AUTONOMOUS)
AND
INDIGUARD SYSTEMS PRIVATE LIMITED

1. PREAMBLE

Embedded System has revolutionized the modern world and is expected to bring in sweeping changes in a host of human activities in the future. Embedded System is now an indispensable tool in every business industry, trade, commercial enterprise and educational institutions. E.G.S Pillay Engineering College envisions achieving rural upliftment through imparting high quality technical education. The college situated in Nagapattinam District, Tamil Nadu.

IndiGuard Systems Private Limited hereinafter referred "INDIGUARD" is a leading integrated Manufacturer and supplier of Embedded Systems Development Boards for various platforms and services in the field of Embedded Systems Engineering. Having its head office at No:3/365, West Street, Kollangarai, Thanjavur (Tamilnadu) - 614904.

E.G.S PILLAY ENGINEERING COLLEGE and INDIGUARD have endeavored to work together in the area of embedded system. The main aim is to spread proficiency in technology and also provide an industry experience among students of E.G.S PILLAY ENGINEERING COLLEGE.

2. SCOPE

The global demand for semiconductors is expected to remain robust in coming years due to an increase in demand for consumer electronics. This rapid growth has opened a range of career opportunities in the embedded design industry. Number of multinational and Indian chip design firms present in India—the vast pool of talent and growing domestic market has helped the country emerge as an important centre for chip design. Last few years, the industry witnessed major investments in the country in R&D, an indicator of India's potential with respect to the talent available. A country traditionally acknowledged for its software development capabilities is now exhibiting its competency in the chip design industry. Indian engineers have carved a niche for themselves by making significant contributions to the development of cutting-edge technology. India, with capabilities in very large scale integration (VLSI) design and software development, has potentially captured a larger share of the market by focusing on these markets. It is no wonder that almost all of the top 10 semiconductor vendors have established design centers in India. This has also contributed to the growth of the electronic design automation (EDA) industry in India. Leading Indian IT companies are also setting up product engineering and design services, partnering with global chip majors. Today's engineers, therefore, have immense opportunities in hardware and embedded design, developing integrated circuits (ICs); field-programmable gate arrays (FPGAs) and systems-on-chips (SoCs), apart from typical software development opportunities.

This being a niche field, companies are increasingly looking for professionals with hands-on experience in digital application specific integrated circuit (ASIC) design, physical design, mixed signal IC design, verilog, VHDL or VHSIC, VLSI design, circuit design and simulations, micro-controllers, digital PCB design and routing. However, the Indian Semiconductor Association (ISA) estimates that engineering colleges are meeting only 20 per cent of the industry demand for chip design engineers. Organizations spend a year and a half shaping young graduates even as the courses in our educational institutions are not relevant to the industry. Both industry and academia would benefit if institutes introduce a competent courseware and the industry gets involved in imparting professional training in institutes

In order to achieve this objective, INDIGUARD and E.G.S PILLAY ENGINEERING COLLEGE have decided to enter into a Memorandum of Understanding (MoU) as per the mutually agreed terms and conditions.

3. STRUCTURE

The MoU is planned to provide a platform to IndiGuard., work with E.G.S PILLAY Engineering College.

The Scopes of MoU

IIP aims at effective, frequent and mutually beneficial interactions with Industry and establishing and exploring links with industries for the development of the Institute.
Advantages of IIP

1. Industry-Institute by interaction programs.
2. Training and placement of students in Industries.
3. To conduct Industrial Training and Industrial Visits for the students and faculty.
4. Offering industry oriented projects to the final year students in the campus.
5. Organizing seminars, symposiums, exhibitions and workshops.
6. Knowledge and Technology transfer including providing hardware kits/modules along with necessary softwares.
7. Publishing and issuing technical bulletins/newsletters and course material with latest technological developments.
8. Collaborating with other societies (National and International) having similar objectives.
9. Conducting Industrial and Technical Exhibitions.
10. Organizing guest lectures on latest technological advancements, evaluation of project work, and workshops from industrial experts in the Institute
11. To arrange short-term programmes

3.1 Validity of the agreement

This arrangement shall remain in force for a period of five years from the date of acceptance by E.G.S PILLAY ENGINEERING COLLEGE and can be terminated by giving a written notice period of three months by either party.

4. FORCE MAJEURE

In the event of non-fulfillment of the terms and conditions of this MoU to any reason of force majored viz., war, riots, earthquakes and natural calamities neither the E.G.S PILLAY ENGINEERING COLLEGE and IndiGuard., shall be held responsible for any

loss of consequential losses.

5. ARBITRATION

Parties to the agreement shall settle any dispute arising with regard to any of this MoU through mutual consultations. In case the settlement is not arrived at, the dispute(s) will come under the purview of the Arbitration and Conciliation Act, 1996 and the venue of arbitration shall be within Tamilnadu.

6. ANY OTHER MATTER

Any lack of understanding to the spirit and implementation of this MoU will be resolved by mutual consultation by the Managing Director of IndiGuard or his designated nominee representative of IndiGuard and The Chairman, E.G.S PILLAY ENGINEERING COLLEGE, or his designated nominee of E.G.S PILLAY ENGINEERING COLLEGE.

7. ON – CAMPUS TRAINING PROGRAM

As an extension of MOU with E.G.S PILLAY ENGINEERING COLLEGE, INDIGUARD Shall Provide On – campus training program for the students with following terms and conditions.

- a. IndiGuard Shall provide the necessary qualified and experienced technical personals and other hardware and software at the college premises for Training.
- b. Students of Final Year, Third year and Second Year from EEE branch shall be the participants of the Training program.
- c. IndiGuard shall provide the Training Program for Embedded System Design and Foundational Electronics with PCB Fabrication at the agreed course fee of Rs.3000 and Rs 2000 per student for Final Year, Third Year and Second Year Students respectively.
- d. The course shall be conducted for Six days.
- e. Students shall be trained for designing a Mini project at the end of the training.

Introduction of EGS Pillay Engineering College

E.G.S. Pillay Engineering College is a self - financing educational institution situated in Nagapattinam, Nagapattinam District. EGSPEC is the vision of Chevalier. Dr.G.S.Pillay, whose determination and dynamism made possible the realization of this institution of excellence.

Established in the year 1995 with 3 courses CSE, Mechanical and Chemical, affiliated to Bharathidasan University. (First in Nagapattinam district). Established by the G.S. Pillay & Sons Charitable and Educational Trust, Nagapattinam. Affiliated to Anna University, Chennai in the year 2002.

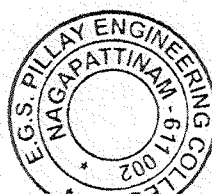

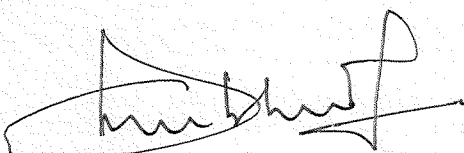

UGC Recognized institution under 2(f) and 12(B). Recognized Research Centre for Mechanical Engineering, EEE, ECE, CSE and Civil Departments by Anna University, Chennai for doing Ph.D./M.S.(By Research). Nodal Centre for QIC of Anna University, Chennai Associate Member of ICTACT, Govt. of Tamilnadu for Industry Institute Interaction

Autonomous status from 2017 onwards approved by UGC and Anna University, Chennai

Introduction of Amphisoft Technologies

Amphisoft Technologies is a private organization started by a set of learning science researchers who have developed a thorough understanding of academics, corporate training, and learning.

Amphisoft empowers corporate organizations and academic institutions with technology-enhanced learning tools to facilitate comprehensive learning and development. We provide technology services to incorporate Micro-Learning, Micro

Teaching, Collaborative Learning, Game Based Learning, Second Life Based Learning Models, Learning Measurement, and Learner Classification into your college.

Objectives of Amphisoft

- Revolutionizing Engineering and Technology Education / Training through innovative Technology Enabled Learning (TEL) models.
- Rejuvenating Engineering and Technology learning through activity-based courses which are auto-evaluated
- Creating Academic Corporate Transparency through TEL platforms with fool proof HR filters for effective hiring.

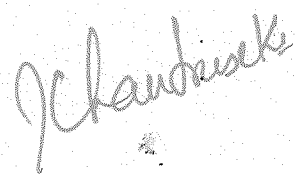

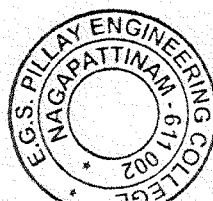

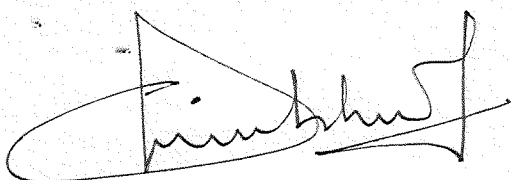

Terms & Conditions:

1. Nature of Relationship

- a. This MoU is for collaboration between both parties, for mutual benefit, for many purposes set out in the "Purpose/Scope of Collaboration" below to enhance the quality of the educational experience for the overall transformation of students/faculty of the College.

Dear Sir,

It was a pleasure connecting with you and the faculty members. We appreciate you having taken out time.

Please find attached the presentation which we had discussed, for your kind perusal. Also please find below the following:

1. Student Experience Demo Video
2. Faculty Experience Demo Video
3. Security Features of Olympus
4. Answers to questions asked by respected faculty members: Link

Please let us know if there are any other queries or concerns which we can address.

Request you to please suggest if we can set up the trial and kick-start the engagement. We will then get you in touch with the Program team who will set up the platform for your college and will ensure you can seamlessly start using the platform.

Dear Sir/Madam

Covid-19 has transformed education, perhaps forever. Teachers and students are faced with the new reality that classroom based teaching might not be available for a long time to come and education will have to shift online.

Teaching online effectively while ensuring that students have great learning outcomes is not easy. This is more challenging than merely having a video conferencing software connecting teachers and students.

Great Learning's Olympus Digital Campus is an end to end solution, which enables educators to effectively move their teaching online. By taking care of responsibilities like planning and publishing course schedules, distributing course content, conducting live classes, monitoring attendance, giving assignments and quizzes, conducting proctored exams and much more, Olympus Digital Campus helps teachers devote their time and effort towards teaching without worrying about how the administrative tasks are done.

We invite you to Join us for an interactive online discussion and demonstration on **Teaching Online Effectively with Olympus Digital Campus**. As part of the session, we will cover:

- How can teachers deliver a high quality learning experience online?
- A live demonstration of the Olympus Digital Campus solution:
 - Witness the experience that students and teachers will have while using Olympus Digital Campus.
 - See first hand how Olympus Digital Campus will help teachers deliver a seamless experience as they move from classroom to online based teaching.
- How to get started with a free trial of Olympus Digital Campus?
- Questions from the audience
- And more...

Dear Professor,

You have been a valuable partner with Infosys as part of Campus Connect. You have supported in considerable adoption of the Infosys Springboard platform to your students, faculty members and in your curriculum through the courses, learning paths and certifications offered. We are appreciative of your support and present to you a small token of our appreciation through this mail.

We bring to you **Google Career Certification** from Infosys Springboard and Coursera. Through this, identified faculty members from your institution would be able to complete the courses and take up certification. This will help them get ready for industry-recognized skills and enhance their employability.

A brief on the certification:

- Designed by Google. Recognised by Industry Experts
- Hone digital skills for in-demand jobs
- Practice based
- Learn anytime, anywhere

The learners would require to complete the pre-requisite courses, attend necessary activities, complete the coursework/assignment and practice rigorously to successfully clear the certification.

The certification details are given below:

Certification area	Link for information on the certification	Description	Certificate: On successful completion

#EmbraceEquity

International Women's Day 2023

Equity goes beyond genders, geographies and social strata. Equity is the means to achieve equality.

This March, make your stand and pledge to embrace equity. Here are two activities to help you:

Blog contest

Choice of topics:

1. Embracing equity is the right thing to do
2. The woman who I admire the most

Guidelines:

- Word limit: 500 words
- Post on Infosys Springboard Blogs from March 1 to 31, 2023

Criteria for evaluation:

- Adherence to topic
- Clarity and simplicity
- Content freshness
- Engaging writing style
- Attention to spellings, grammar
- Give credits where credits are due

Strike the #EmbraceEquity Pose

Click a photograph of yourself, just like the pictures in this email. Post it on your social media handles with the **hashtags:**

Respected Sir/Madam,

Greetings from Infosys!

Thank you for sparing time to attend SPoC's Meet event on Sep 2022. Appreciate your enthusiastic participation.

Here are the key points discussed in the meeting:

Goals: Institutions can encourage the students to setup goals in the Infosys Springboard platform to complete courses and certifications.

Certifications: Institutions can encourage the students to take up the certifications to improve their digital skills. [Click here](#) to find more information about the Certifications.

Academic Curriculum Integration with Infosys Springboard: Institutions can make use of the courses / contents available on the Infosys Springboard as part of their academics for additional learning. Reach out to your regional anchor for more details. Infosys Springboard courses may be suggested as MOOC courses and choice based credit courses.

Industry Ready Roles: Institutions can encourage the students to take up the courses which have been aligned to the skills required by the IT industry. [Click Here](#) to find more information.

Choice Based Credit System: Institutions can use the choice based courses / certifications to their students as part of assessment/assignment components, credits for self-paced learning etc. [Click Here](#) to find more information.

Virtual Roadshows: Virtual session for students to demonstrate the Infosys Springboard platform are in-progress. You may contact your regional Anchors to conduct the Infosys Springboard briefing session for your Students.

Dear Professor,

Infosys Springboard invites you to a training series on Metaverse environment, by experts from Epic Games and Green Rain Studios. The sessions, spread across four weeks, will guide you to create environments for Metaverse applications.

Please extend this invitation to all your students (within India) who would like to expand their knowledge about the Metaverse environment too.

Note: To enroll for the series, one has to have an account on Infosys Springboard and then book a seat.

You may also float the enclosed messages over WhatsApp or other media to your student groups.

Learn how to use Unreal Engine and be ready for the metaverse revolution. In this hands-on bootcamp, you will be taught how to build beautiful environments for metaverse applications. Industry experts from Epic Games and Green Rain Studios will lead this 4-part bootcamp that will span over 12 hours of instructor-led training.

Infosys Springboard Schools' Conclave 2022: An Invitation!

1 message

Infosys Springboard <springboard@infosys.com>

Fri, Apr 1, 2022 at 10:39 AM

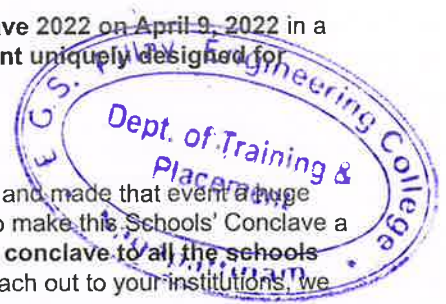

Dear Sir/ Madam,

Thank you for your association with Infosys Springboard and for your continuous support in utilizing it for the benefit of your students and faculty.

Infosys Springboard is gaining momentum and it is because of your support and encouragement that today, we have over 18 lakhs of registered learners from all over India! We have a well nurtured and strong industry academia partnership with your esteemed institution through our Campus Connect association. We hope to expand and build a similar bond with schools and other academic institutions.

Infosys Springboard is conducting **Infosys Springboard Schools' Conclave 2022** on April 9, 2022 in a hybrid mode i.e., on campus and a virtual meet. It is **the first flagship event uniquely designed for school faculty** pan India, enabling them to get digitally savvy.

As you have supported us in our Infosys Campus Connect Conclave 2021 and made that event a huge success by your valuable presence, we request your support once again to make this Schools' Conclave a huge success too! **We request you to share the information about this conclave to all the schools that are associated with your group of institutions.** To enable you to reach out to your institutions, we have attached an open invitation mailer and WhatsApp creatives that you can use.

The last date for accepting registrations from School faculty is April 5, 2022. For on campus registration, only two school teaching faculty members per institution are permitted on a first-come-first-serve basis. We look forward to your support once again.

For any queries related to this conclave, reach us at Springboard-support@infosys.com.

Regards,

We hope to expand and build a similar bond with schools and other academic institutions.

Infosys Springboard is conducting **Infosys Springboard Schools' Conclave 2022 on April 9, 2022** in a hybrid mode i.e., on campus and a virtual meet. It is **the first flagship event uniquely designed for school faculty** pan India, enabling them to get digitally savvy.

As you have supported us in our Infosys Campus Connect Conclave 2021 and made that event a huge success by your valuable presence, we request your support once again to make this Schools' Conclave a huge success too! **We request you to share the information about this conclave to all the schools that are associated with your group of institutions.** To enable you to reach out to your institutions, we have attached an open invitation mailer and WhatsApp creatives that you can use.

The last date for accepting registrations from School faculty is April 5, 2022. For on campus registration, only two school teaching faculty members per institution are permitted on a first-come-first-serve basis. **We look forward to your support once again.**

For any queries related to this conclave, reach us at Springboard-support@infosys.com.

Dear Professor,

Infosys Springboard invites you to a training series on Metaverse environment, by experts from Epic Games and Green Rain Studios. The sessions, spread across four weeks, will guide you to create environments for Metaverse applications.

Please extend this invitation to all your students (within India) who would like to expand their knowledge about the Metaverse environment too.

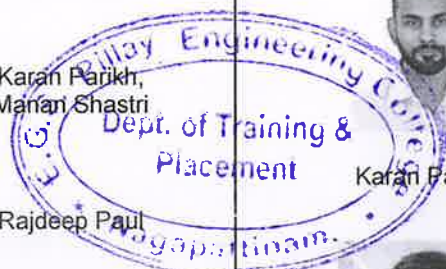

Note: To enroll for the series, one has to have an account on Infosys Springboard and then book a seat.

You may also float the enclosed messages over WhatsApp or other media to your student groups.

Learn how to use Unreal Engine and be ready for the metaverse revolution. In this hands-on bootcamp, you will be taught how to build beautiful environments for metaverse applications. Industry experts from Epic Games and Green Rain Studios will lead this 4-part bootcamp that will span over 12 hours of instructor-led training.

Agenda			Speakers

Hello Sir,

As discussed with you today on the call. I am sharing a brief proposal and details about the Coding Ninjas programs herein this mail.

Coding Ninjas is the leading ed-tech startup and has upskilled more than **60,000+ students** so far. We have collaborated with various Colleges and Universities of high repute all over India including but not limited to **NIT AP, NIT Warangal, IIT Palakad, IIT Jammu, JNTU**. This has helped both the College Administration and the students by providing an online solution to all the technical skills needed for the Industry.

We have received very positive feedback from the students and which is why the college administration has shown faith in our online teaching model.

Under this partnership, we will be offering our foundation **courses worth INR 5000, free-of-cost** to the engineering students of your esteemed organization.

You can choose between any or both of these two courses:

1. Complete Hands-on **Java Training Program**
2. Complete Hands-on **Python Training Program**

Benefits of the proposed free foundation course

- Strong Logical Thinking
- Hands-on practical learning with projects and 100+ coding problems
- Command on implementations and converting logic into code
- The course is meant to build a strong coding foundation that helps students build confidence and will allow them to move to advance level coding
- The course can be completed in 1-2 months depending on student availability.

Doubt Support

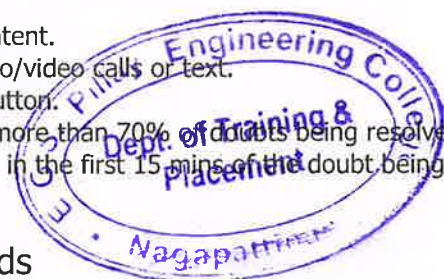

We have developed very scalable solution using which we are able to solve 4000+ doubts every single day with the help of 500+ Teaching Assistants on the platform itself with an average rating of 4.8 out of 5.

1. Students can raise doubts right on the platform on specific content.
2. Mentors can resolve doubts on the platform itself through audio/video calls or text.
3. Students can share their coding screens by simply clicking a button.
4. The maximum wait time for support on doubt is 2 hours with more than 70% of doubts being resolved in the first 40 mins and more than 30% of doubts being resolved in the first 15 mins of the doubt being raised.

Monitoring Dashboards

We will share dashboards with the college management & faculties to regularly track the progress of students. Faculties can track performance across:

1. Attendance of students.
2. Activity in the batches.
3. The number of problems solved.
4. Percentage of course completed.

5. The number of doubts raised/resolved.

And much more

Dear Sir/Madam,

Greetings from E.G.S Pillay Engineering College (Autonomous) (www.egspec.org).

We value and cherish relationship with **WAHIMI!!**.

We would like to profusely thank you for considering our request to conduct campus recruitment drive in **Person at College Premises** and recruiting **5** of our student (s) from **2022 batch**.

We are also happy to state that we have completed 25 years and are stepping into the **25th year (Silver Jubilee)** successfully. You are a great source of strength and support for the growth of our institution over the past years. At this juncture, we commit to prepare the next batch of students even better, to have an increased number of recruits in the next year.

Thanking you and look forward to your continued support and guidance for our institution.

Thanks and Regards

Dear Dr. Chandrasekar

It was a pleasure to have spoken to you. I appreciate Mr. Arifeen's effort and time in getting us introduced.

As a follow up to our discussion over the phone, I hereby like to introduce you Dr. Subbiah who heads Thinklabz . Thinklabz is part our group which was created primarily to provide trained resource in the Data Science Domain for our group companies. In addition, we would be happy to partner with institution to train and or create AI and Data Science curriculum based "Centre of Excellence"

Dear Dr. Subbiah,

I had a good discussion with Dr. Chandrasekar who is the CEO of EGS Pillay Group of Institution which has various colleges from Autonomous Engineering college , Arts & Science and Pharmacy College to just name a few. I believe EGS is looking to strike the right Industry /Institution partnership with organization that would have specific core-competency. Think Labz and Vere Technology are ideally suited to provide the necessary

Partnership for creating AI and Data Science related curriculum that would pave the way for a "Centre of Excellence " in the AI and Data Science space.

Additional long term agenda for the relationship would also include Training, Hiring and Module development for our products.

I suggest that we quickly agree on a quick introductory Google meet so we can put forth each other's proposition at a high level and get it started from there and see what are the next steps to achieve our common agenda.

Can we do this google meet post lunch coming Monday IST around 2 pm or please suggest alternative time but needs to be post lunch IST please.

Abdul Rahman Shroff

2. SEUSL is a government university located in Sri Lanka, and provides university-education and trainings at national level in the areas of engineering, applied sciences, information technology, business management.
3. The Parties now recognizing the benefits to their respective institutions from the establishment of international links enter into this Memorandum of Understanding ("MOU"). The aim of this MOU is to promote academic and educational exchange between two institutions.
4. The Parties wish to enter into a series of discussions for the mutual benefit of both Parties, and for purposes more particularly set forth herein.

The Parties hereby mutually agree to the following:

1. Scope of Understanding:

The provisions stated in this MOU are statements of intention only. This is not a binding agreement between the Parties (save for the confidentiality provisions below), and no such agreement shall exist until both Parties have negotiated, prepared and executed a separate individual written agreement establishing the binding obligations of the Parties and approved by each Party's Board of Directors / Governing Authority in relation to specific objectives stated below.

[Handwritten signature]

This MOU is intended to establish a basis upon which E.G.S.P.G.O.I and SEUSL may explore areas for co-operation in the development and promotion of both academic research and enhancing the educational opportunities for students. The Parties believe that such endeavours would be in the interest of both Parties, academic and general community at large. In this regard, the Parties agree to discuss and explore the following objectives for mutual benefits:

A) Scope of Agreement

- i. Conducting joint research and development project
- ii. Organizing conferences and workshops
- iii. Exchange of invitation to professors, researchers, students for conferences, seminar, workshops, lab visits and short term projects

B) Responsibilities of the Parties

- i. Both sides will circulate essential information in timely manner
 - ii. The MOU shall be subjected to periodic review by both the institutions
 - iii. Financial matters including travel are subject to individual negotiation
 - iv. The host institution agrees to assist in housing, arranging work space, library and other technical facilities.
- 1.2. Specific activities or projects based on this MOU will be separately negotiated and will be subject to further agreement detailing the parties' responsibilities, obligations and conditions relating to each activity or project.
- 1.3. This MOU shall be officially executed in three (3) copies in English.

2. Contact Persons:

SEUSL hereby appoints Prof. M.M.M. Najim (Vice-Chancellor) and E.G.S.P.G.O.I hereby appoints (Prof. V. Sivaraman, Director, Industry Institute Relations) to co-ordinate and oversees all discussions between the Parties pursuant to this MOU.

3. Mutual Expense and Reliance:

Each Party will be responsible for its own expenses during the discussions in connection with this MOU, and all discussions shall be done in good faith for the mutual benefit of both Parties involved. Any action taken in reliance on the understanding expressed in this MOU shall be at the Parties' own risk.

4. Confidentiality:

- a) All information exchanged between Parties in connection with this MOU or during discussions preceding this MOU and relating to this MOU or to any matter contemplated by this MOU, and any discussions held between the Parties are CONFIDENTIAL to them and may not be disclosed to any third party during the period of this MOU or anytime thereafter except:

- i) with the written consent of the other Party;
 - ii) if required by law to be disclosed;
 - iii) in connection with legal proceedings by authority of a court of competent jurisdiction; or
 - iv) if the information is or becomes generally and publicly available but not as a result of breach by either Party and/or the employees of its respective subsidiaries, parent or related companies as aforesaid, of its obligations under this MOU.
- b) Disclosure of confidential information to the employees of either Party's subsidiary, parent or related companies is permitted provided it is necessary for the purposes of performing that Party's obligations under this MOU. Notwithstanding the aforesaid, the Party receiving any information shall ensure that any of its employees to whom information is disclosed by the Party disclosing pursuant to this MOU shall undertake to observe the confidentiality undertakings in this MOU. The Party receiving the information shall protect all confidential information of the disclosing Party using not less than the standard of care in which it treats its own confidential information (but no less than a reasonable care in the circumstances) and shall ensure that the information is stored and handled in such a way as to prevent unauthorised disclosure.
- c) The obligation of confidentiality herein shall survive the termination of this MOU and remain binding on the Parties without limitation of time.

5. Termination:

This MOU is for duration of five (5) years from the date of this agreement. However, either Party may immediately terminate or extend this MOU for any reason by providing notice in writing at least six (6) months prior to the expiration of this period to the other Party.

6. No Legal Obligations:

The Parties agree that provisions contained in this MOU are not binding and do not create any legal obligations between the Parties, save for the confidentiality provisions in this MOU.

7. Relationship of the Parties:

The Parties herein are independent entity. This MOU does not create any agency, company, partnership, joint venture or any other business relationship between the Parties.

8. Limitation of Liability:

In no event shall either Party be liable to the other for any damages whatsoever including, without limitation, direct, indirect, speculative, incidental, special or consequential damages in connection with performance under this MOU.

[Handwritten mark]

[Handwritten mark]

9. Modifications:

No variations, modification or alteration of any provisions of this MOU shall be effective unless made with the prior written agreement of the Parties.

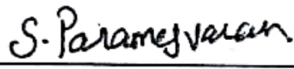

10. Governing Law and Jurisdiction:

This MOU and any final agreement entered pursuant to this MOU shall be governed by and construed in accordance with the laws of India. Any dispute controversy or claim arising out of or relating to this MOU or breach, termination or invalidity thereof, shall be decide and finally resolved by arbitration between two universities. The language to be used in the arbitration will be English.

The Parties believe that such endeavours would be in the interest of both Parties and of Malaysia's business, academic and general

community at large. In this regard, the Parties agree to discuss and explore the following objectives for mutual benefits:

A) Scope of agreement

- i. Conducting joint research and development project
- ii. Organizing conferences and workshops
- iii. Exchange of invitation to professors, researchers, students for conferences, seminar, workshops, lab visits and short term projects
- iv. Exchange of teaching materials and scientific publications
- v. Encourage students and faculties to spend period of time in the host university.

B) Responsibilities of the Institutions

- i. Both sides will circulate essential information in timely manner
- ii. The MOU shall be subjected to periodic review by both the institutions
- iii. Financial matters including travel are subject to individual negotiation
- iv. The host institution agrees to assist in housing, arranging work space, library and other technical facilities.

1.2. Specific activities or projects based on this MOU will be separately negotiated and will be subject to further agreement detailing the parties' responsibilities, obligations and conditions relating to each activity or project.

1.3. This MOU shall be officially executed in three (3) copies in English.

2. **Contact Persons:** MMU hereby appoints Ir. Dr. Wong Wai Kit and E.G.S.P.G.O.I hereby appoints (Prof.V. Sivaraman, Director, Industry Institute Relations) to co-ordinate and oversees all discussions between the Parties pursuant to this MOU.

3. **Mutual Expense and Reliance:** Each Party will be responsible for its own expenses during the discussions in connection with this MOU, and all discussions shall be done in good faith for the mutual benefit of both Parties involved. Any action taken in reliance on the understanding expressed in this MOU shall be at the Parties' own risk.

4. **Confidentiality:**

a) All information exchanged between Parties in connection with this MOU or during discussions preceding this MOU and relating to this MOU or to any matter contemplated by this MOU, and any discussions held between the Parties are CONFIDENTIAL to them and may not be disclosed to any third party during the period of this MOU or anytime thereafter except:

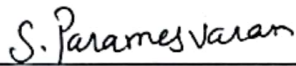

- i) with the written consent of the other Party;
- ii) if required by law to be disclosed;
- iii) in connection with legal proceedings by authority of a court of competent jurisdiction; or
- iv) if the information is or becomes generally and publicly available but not as a result of breach by either Party and/or the employees of its respective subsidiaries, parent or related companies as aforesaid, of its obligations under this MOU.

- b) Disclosure of confidential information to the employees of either Party's subsidiary, parent or related companies is permitted provided it is necessary for the purposes of performing that Party's obligations under this MOU. Notwithstanding the aforesaid, the Party receiving any information shall ensure that any of its employees to whom information is disclosed by the Party disclosing pursuant to this MOU shall undertake to observe the confidentiality undertakings in this MOU. The Party receiving the information shall protect all confidential information of the disclosing Party using not less than the standard of care in which it treats its own confidential information (but no less than a reasonable care in the circumstances) and shall ensure that the information is stored and handled in such a way as to prevent unauthorised disclosure.
- c) The obligation of confidentiality herein shall survive the termination of this MOU and remain binding on the Parties without limitation of time.
5. **Termination:** This MOU is for duration of five (5) years from the date of this agreement. However, either Party may immediately terminate or extend this MOU for any reason by providing notice in writing at least six (6) months prior to the expiration of this period to the other Party.
6. **No Legal Obligations:** The Parties agree that provisions contained in this MOU are not binding and do not create any legal obligations between the Parties, save for the confidentiality provisions in this MOU.
7. **Relationship of the Parties:** The Parties herein are independent entity. This MOU does not create any agency, company, partnership, joint venture or any other business relationship between the Parties.
8. **Limitation of Liability:** In no event shall either Party be liable to the other for any damages whatsoever including, without limitation, direct, indirect, speculative, incidental, special or consequential damages in connection with performance under this MOU.
9. **Modifications:** No variations, modification or alteration of any provisions of this MOU shall be effective unless made with the prior written agreement of the Parties.
10. **Governing Law and Jurisdiction:** This MOU and any final agreement entered pursuant to this MOU shall be governed by and construed in accordance with the laws of Malaysia. Any dispute controversy or claim arising out of or relating to this MOU or breach, termination or invalidity thereof, shall be decide and finally resolved by arbitration between two universities. The language to be used in the arbitration will be English.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding ('MOU') is executed on 19th Oct, 2020, at EGS Campus, Nagapattinam
AND BETWEEN

SOLVERMINDS Solutions & Technologies Pvt. Ltd, a Company incorporated under the provisions of Companies Act, 1956 and having its registered office at Plot 2B-4, 7th Cross Street, SIPCOT IT Park, OMR, Siruseri, Chennai, 603 103 Tamil Nadu, India represented by its authorized signatory Ravishanker Kannan Head-Talent Acquisition, hereinafter referred to as 'SVM' on the ONE PART (which expression whenever used shall mean and include its successors, administrators and assigns),

AND

Private and confidential – MOU between SVM and EGS Campus

EGS Pillay Engineering College, Old, Nagore Main Rd, Thethi village, Nagore, Nagapattinam, Tamil Nadu 611002. represented by its authorized signatory Shri S. Parameswaran
Hereinafter referred to as 'Institution' on the OTHER PART (which expression, whenever used, shall mean and include its successors, administrators and assigns).

(SVM and Institution are individually referred to as 'Party' and collectively referred to as 'Parties').

WHEREAS SVM is a global information technology services company and provides IT and business consulting, application support and maintenance, development, systems integration, and managed services to its customers.

AND WHEREAS Institution is a premier educational institute in the country and provides a high quality educational experience to students in a diverse learning environment. From classrooms and laboratories to playgrounds and campus hostels, all the facilities and amenities provided to meet the world-class standards

The Institution has evolved a comprehensive student-centric learning approach consisting of several stages, designed to add significant values to the learner's understanding in an integrated manner, covering relevant knowledge, practical skills, and positive attitudes.

AND WHEREAS Institution, to enrich practical skills and impart industry-relevant course curriculum to students of all engineering disciplines in the field of Information Technology(IT), has approached SVM for forging an industry-institute academic alliance with the intent to facilitate and train Institution's students and faculty on Development / Testing by utilizing SVM's relevant experience and by deputing SVM's representatives from time to time at the Institution with the object of providing exposure to SVM's Faculty and students to current industrial needs and requirements.

AND WHEREAS SVM, with a bona fide and non-commercial intention of serving the purpose of education and making the students more exposure to the present industrial needs and requirements thereby reducing the cost and time involved in training and making them skill-based personnel after graduation, has accepted the request of Institution.

Accordingly, the Parties have decided to reduce into writing their mutual representations and understanding as stated hereunder:

NOW THIS MOU WITNESSETH AS FOLLOWS:

According to the foregoing covenants, the Parties hereby agree and the state as follows;

1. That the Parties on this day have executed this MOU intending to enhance the quality of the educational experience for students and training of faculty of Institution and also for industry-institute collaboration between the Parties for mutual benefit and pursuant thereto the Parties agreed for:

- (a) SVM may as mutually agreed from time to time, provide Institution with certain material and access to the Development / Testing library and collaterals and the Institution shall use the materials and access to the Development / Testing library under the guidance of SVM and only for this MOU.
- (b) If requested by SVM, the Institution will nominate two or three faculty members for undergoing the Trainer program at SVM's office at Chennai for two weeks. The faculty, after completion of training, will be allowed to train a certain number of students as agreed upon in writing from time to time.
- (c) The final year students to be trained will be pre-selected by SVM (hereinafter referred to as the 'Pre-selected Students').
- (d) The course will be imparted for the duration specified by SVM as an additional training program. This program will be run during the pre-final semester of the graduation course being offered by the Institution for the Pre-selected students.

- (e) The Institution is not allowed to charge the Pre-selected Students any fee for this course. If it is found that Institution has charged fees for this program from students, SVM will have the right to immediately terminate this MOU and stop all association with the Institution.
- (f) The Institution is not allowed to train any other students according to this MOU other than the Pre-selected Students by SVM.
- (g) SVM shall retain the right of first refusal for making employment offers on completion of their graduation from the pool of Pre-selected Students. This is however not applied for the students who are not pre-selected by SVM or have not been made part of the training program under this MOU.
- (h) Pre-selected students who undergo this program as part of their pre-final semester may also be given an internship opportunity by SVM either in its office or through virtual mode.
- (i) The Institution will at its own cost establish a lab with the specified infrastructure requirements of SVM and will use the lab for imparting the course/training under this MOU. This lab will be used as a first preference for the purpose stated above.

2. The MOU shall be valid for Two (2) years from the date of execution. The Parties shall be at full liberty to terminate the MOU at any time by issuing a prior notice of fifteen (15) days. The Parties shall make reasonable efforts for the performance of the MOU and shall in good faith cooperate with each other in duly performing the obligation agreed upon. The Parties herein have agreed to perform various obligations with a voluntary service motive and there is no monetary obligation/consideration involved herein between the Parties. Under no circumstances, SVM shall be treated as the vendor, contractor, and agent of the Institution (or vice-versa).

3. The Institution shall have to bear all expenses towards providing infrastructure, network and internet access, and the other facilities required for the education and training. The Institution will not use the material or access to the Development / Testing library for any other use other than the above-mentioned process. Training of the faculty members or more number of students than agreed or using licenses for any other commercial/non-commercial purposes will be a

breach of this MOU and such use may attract legal action along with immediate termination of the MOU.

4. The Institution shall indemnify, defend and hold SVM, its subsidiaries and affiliates thereof and their respective officers, directors, agents and employees, harmless from and against all claims, damages, liabilities, costs, losses and expenses, including reasonable attorneys' fees and expenses incurred, related to or arising from: (i) bodily injury or damage to property incurred from or in connection with the performance of Institution under this MOU; (ii) any claim by or against SVM arising out of a breach by the Institution of any obligations (including, without limitation, any warranty, confidentiality, intellectual property, assignment obligations) under this Agreement; (iii) the infringement, misappropriation or a claim of infringement or misappropriation of any patent, copyright, trademark or other proprietary or intellectual property right of a third party; (iv) the acts, omissions, negligence or misconduct of the Institution or its students, officers, directors, agents, representatives, assigns, personnel and employees; (v) any claims by the students or third parties against SVM related to this MOU.

5. SVM may also provide the Institution with publicity material such as handouts, information brochures, and posters, and the Institution shall return any such materials, to SVM on the termination or expiry of this MOU, or as and when requested to do so by SVM.

6. Except for collaboration related to Development / Testing practice, the Institution is not barred from having collaborations with other organizations. Except as expressly stated in this MOU, there shall be no obligation on any Party to compensate the other in any manner or any claim. For initiatives that are planned for the Development / Testing domain, the Institution can invite guest speakers with prior approval from SVM. Any other event in this domain will be conducted in collaboration with SVM.

7. The Parties shall independently meet their expenditure incurred by the respective Parties in performing their part of obligations agreed herein.

8. The Parties shall respect the intellectual property of the other Party and third parties and shall not use the trade name, trademark, copyright, patent, symbol, or designation belonging to the other Party without prior approval and permission. No Party shall claim itself as an agent or representative of the other Party or create any liability for the other Party.

9. The Parties shall maintain the confidentiality of all information, course materials, plans, discussions, strategies, data, or any material which shall be deemed to be confidential.
10. IN NO EVENT SHALL (A) EITHER PARTY IS LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, WHETHER IN CONTRACT, WARRANTY OR TORT, INCLUDING WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFITS, REVENUE, DATA, COVER, LOSS OF OR INTERRUPTION OF BUSINESS OF CUSTOMER OR ANY OTHER PARTY ARISING OUT OF OR IN CONNECTION WITH THE DELIVERY, USE OR PERFORMANCE OF THE SERVICES, THE DELIVERABLES, ANY SOFTWARE OR ANY OTHER MATERIALS OR ITEMS, EVEN IF THAT PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR EVEN IF SUCH DAMAGES ARE REASONABLY FORESEEABLE, AND (B) SVM'S AGGREGATE LIABILITY ARISING OUT OF THIS MOU FOR ANY CLAIM OR CLAIMS EXCEED INR 1000.
11. The Parties represent that they have the full power and authority to enter into this MOU in general and none of the objects stipulated herein are against public policy.
12. The Parties shall designate their respective representatives who shall be the primary point of contact on behalf of that Party.
13. Neither of the Parties shall use the name of the other Party in any advertisement nor make any public announcement without the prior written approval of the other Party.
14. SVM will be provided the dream slot during the campus placements by the Institution, which will be finalized based on mutual discussion and agreement.
15. SVM may or may not at its discretion to visit the campus for placements and either Party shall not make any claims on each other in this regard.
16. The Parties may negotiate amendments to this MOU, if necessary, to meet the evolving requirements. Any amendment and / or modifications to the MOU will require written approval from both Parties.

IN WRITTEN WHEREOF both Parties put their hard seal on the day, month and year stated hereinabove;

AND

E.G.S Pillay Engineering College, Old Nagore Road, Nagapattinam District – 611 002, hereinafter called the party of the second part represented by Dr.S.Ramabalan, Principal, E.G.S Pillay Engineering College hereinafter called the party of the second part.

1. PREAMBLE

E.G.S Pillay Engineering College, Old Nagore Road, Nagapattinam District – 611 002 offers Under Graduate Programmes and Post Graduate Programmes in the Engineering stream. The Institute is promoting research activities apart from imparting quality education to students from across the nation. E.G.S Pillay Engineering College is deeply concerned with the commitment of quality education by creating and promoting interaction with industries and research organizations to provide up to date training and knowledge to the faculty and students.

NI has worked with engineers and scientists to provide answers to the most challenging questions. Through these pursuits, NI customers have brought hundreds of thousands of products to market, overcome innumerable technological roadblocks, and engineered a better life for us all. NI works with the innovators of the world to develop smarter products and technologies. In this example, see how FireFly Equipment used the NI CompactRIO platform to save hundreds of thousands of dollars in development time and simplify the complexity of an extremely advanced smart machine. NI provides its customers with powerful, intuitive technology to create systems that improve the world and address the engineering challenges of today, as well as those yet to come.

2. PURPOSE

The purpose of the memorandum of understanding is to ensure Research and Development co-operation between E.G.S Pillay Engineering College and NI, Bangalore is to share the knowledge and skills available in both organizations. This Memorandum of Understanding will also take up joint Consulting and Projects to the institution.

2.1. Training

NI, Bangalore will offer Industrial Visits, Inplant training, Internships and project training for the students of Bachelors of Engineering (Electrical & Electronics Engineering) of E.G.S Pillay Engineering College. The charges for the training will be mutually decided by both the parties at early once. Two staff members will be trained for every year from VI Microsystems, Chennai on the above said trainings.

Three days of free training will be provided at the site of NI, Bangalore for the outgoing students of E.G.S Pillay Engineering College on the latest technologies available in project hardwares. The students should obtain a bonafide certificate from the college for availing this offer.

2.2. Sponsored Projects

Apart from providing training to the students, NI, Bangalore shall sponsor projects like designing of electrical drives, embedded systems etc., to the Department of Electrical & Electronics Engineering, E.G.S Pillay Engineering College based on the research requirements of

B. S. Pillay
19/6/12

NI, Bangalore. The cost will be decided at the time of project being sponsored by both the parties.

2.3. Projects

NI, Bangalore shall offer research projects to the Under Graduate and Post Graduate students of E.G.S Pillay Engineering College for a period agreed upon every year. Designated technical personal from NI, Bangalore and E.G.S Pillay Engineering College, shall guide their research projects as and when required.

2.4. Research

E.G.S Pillay Engineering College shall take the skills, expertise from NI, Bangalore Technologies if necessary for carrying out various technical requirements while implementing state of art technology projects in the E.G.S Pillay Engineering College campus. The cost of consultation will be decided based on R&D Projects taken up from the external agencies or the development of new state-of-art technology missions. The cost of consultation can be decided at the time of work or project being taken mutually by both the parties and in consultation with Principal, E.G.S Pillay Engineering College.

2.5. Miscellaneous

In addition to the tasks discussed above the collaboration shall also include the following.

- A. Interaction with working groups of the industry so as to increase the student's as well as staff knowledge and skill level.
- B. Offering technical expert lectures from one side to the other.

[Handwritten Signature]
19/6/12

C. Offering valuable inputs to the institution as a feedback from the Industrial sector in respect of latest technological development in the area of interaction.

D. Offering guidance for suitable placement for students.

E. The Technologies and Products developed by NI, Bangalore, will be provided at concessional rates for educational purpose as mutually agreed upon by both the parties.

3. EXCHANGE OF INFORMATION AND DOCUMENTS

E.G.S Pillay Engineering College and NI, Bangalore shall arrange for the exchange of information and documents concerning matters of common interest.

4. TECHNICAL CO-OPERATION

Whenever desirable, E.G.S Pillay Engineering College and NI, Bangalore may seek each other's technical co-operation with a view to promoting the development of collaborative activities in field of common interest.

5. AMENDMENTS

Both parties may request the present Memorandum of Understanding be amended. Any such amendments shall be adopted by mutual consent. Whenever required an exchange of letters will detail the implementation of the article.

B. S. Balasubramanian

MEMORANDUM OF UNDERSTANDING
BETWEEN

PRINCIPAL - E.G.S PILLAY ENGINEERING COLLEGE
(AUTONOMOUS)

AND

INDIGUARD SYSTEMS PRIVATE LIMITED

1. PREAMBLE

Embedded System has revolutionized the modern world and is expected to bring in sweeping changes in a host of human activities in the future. Embedded System is now an indispensable tool in every business industry, trade, commercial enterprise and educational institutions. E.G.S Pillay Engineering College envisions achieving rural upliftment through imparting high quality technical education. The college situated in Nagapattinam District, Tamil Nadu.

IndiGuard Systems Private Limited hereinafter referred "INDIGUARD" is a leading integrated Manufacturer and supplier of Embedded Systems Development Boards for various platforms and services in the field of Embedded Systems Engineering. Having its head office at No:3/365, West Street, Kollangarai, Thanjavur (Tamilnadu) - 614904.

E.G.S PILLAY ENGINEERING COLLEGE and INDIGUARD have endeavored to work together in the area of embedded system. The main aim is to spread proficiency in technology and also provide an industry experience among students of E.G.S PILLAY ENGINEERING COLLEGE.

2. SCOPE

The global demand for semiconductors is expected to remain robust in coming years due to an increase in demand for consumer electronics. This rapid growth has opened a range of career opportunities in the embedded design industry. Number of multinational and Indian chip design firms present in India—the vast pool of talent and growing domestic market has helped the country emerge as an important centre for chip design. Last few years, the industry witnessed major investments in the country in R&D, an indicator of India's potential with respect to the talent available. A country traditionally acknowledged for its software development capabilities is now exhibiting its competency in the chip design industry. Indian engineers have carved a niche for themselves by making significant contributions to the development of cutting-edge technology. India, with capabilities in very large scale integration (VLSI) design and software development, has potentially captured a larger share of the market by focusing on these markets. It is no wonder that almost all of the top 10 semiconductor vendors have established design centers in India. This has also contributed to the growth of the electronic design automation (EDA) industry in India. Leading Indian IT companies are also setting up product engineering and design services, partnering with global chip majors. Today's engineers, therefore, have immense opportunities in hardware and embedded design, developing integrated circuits (ICs); field-programmable gate arrays (FPGAs) and systems-on-chips (SoCs), apart from typical software development opportunities.

This being a niche field, companies are increasingly looking for professionals with hands-on experience in digital application specific integrated circuit (ASIC) design, physical design, mixed signal IC design, verilog, VHDL or VHSIC, VLSI design, circuit design and simulations, micro-controllers, digital PCB design and routing. However, the Indian Semiconductor Association (ISA) estimates that engineering colleges are meeting only 20 per cent of the industry demand for chip design engineers. Organizations spend a year and a half shaping young graduates even as the courses in our educational institutions are not relevant to the industry. Both industry and academia would benefit if institutes introduce a competent courseware and the industry gets involved in imparting professional training in institutes

In order to achieve this objective, INDIGUARD and E.G.S PILLAY ENGINEERING COLLEGE have decided to enter into a Memorandum of Understanding (MoU) as per the mutually agreed terms and conditions.

3. STRUCTURE

The MoU is planned to provide a platform to IndiGuard., work with E.G.S PILLAY Engineering College.

The Scopes of MoU

IIP aims at effective, frequent and mutually beneficial interactions with Industry and establishing and exploring links with industries for the development of the Institute.
Advantages of IIP

1. Industry-Institute by interaction programs.
2. Training and placement of students in Industries.
3. To conduct Industrial Training and Industrial Visits for the students and faculty.
4. Offering industry oriented projects to the final year students in the campus.
5. Organizing seminars, symposiums, exhibitions and workshops.
6. Knowledge and Technology transfer including providing hardware kits/modules along with necessary softwares.
7. Publishing and issuing technical bulletins/newsletters and course material with latest technological developments.
8. Collaborating with other societies (National and International) having similar objectives.
9. Conducting Industrial and Technical Exhibitions.
10. Organizing guest lectures on latest technological advancements, evaluation of project work, and workshops from industrial experts in the Institute
11. To arrange short-term programmes

3.1 Validity of the agreement

This arrangement shall remain in force for a period of five years from the date of acceptance by E.G.S PILLAY ENGINEERING COLLEGE and can be terminated by giving a written notice period of three months by either party.

4. FORCE MAJEURE

MEMORANDUM OF UNDERSTANDING
BETWEEN
PRINCIPAL - E.G.S PILLAY ENGINEERING COLLEGE
(AUTONOMOUS)
AND
INTERLOGICX EMBEDDED SOLUTIONS

1. PREAMBLE

Embedded System has revolutionized the modern world and is expected to bring in sweeping changes in a host of human activities in the future. Embedded System is now an indispensable tool in every business industry, trade, commercial enterprise and educational institutions.

E.G.S Pillay Engineering College envisions achieving rural upliftment through imparting high quality technical education. The college situated in Nagapattinam District, Tamil Nadu.

Interlogicx Embedded solutions hereinafter referred "INTERLOGICX" is a leading integrated Manufacturer and supplier of Embedded Systems Development Boards for various platforms and services in the field of Embedded Systems Engineering. Having its head office at No:33, ECR Main Road, Chinnakalpet, Puducherry (Pondicherry) - 605014.

E.G.S PILLAY ENGINEERING COLLEGE and **INTERLOGICX** have endeavored to work together in the area of embedded system. The main aim is to spread proficiency in technology and also provide an industry experience among students of **E.G.S PILLAY ENGINEERING COLLEGE**.

2. SCOPE

The global demand for semiconductors is expected to remain robust in coming years due to an increase in demand for consumer electronics. This rapid growth has opened a range of career opportunities in the embedded design industry. Number of multinational and Indian chip design firms present in India—the vast pool of talent and growing domestic market has helped the country emerge as an important centre for chip design. Last few years, the industry witnessed major investments in the country in R&D, an indicator of India's potential with respect to the talent available. A country traditionally acknowledged for its software development capabilities is now exhibiting its competency in the chip design industry. Indian engineers have carved a niche for themselves by making significant contributions to the development of cutting-edge technology. India, with capabilities in very large scale integration (VLSI) design and software development, has potentially captured a larger share of the market by focusing on these markets. It is no wonder that almost all of the top 10 semiconductor vendors have established design centers in India. This has also contributed to the growth of the electronic design automation (EDA) industry in India. Leading Indian IT companies are also setting up product engineering and design services, partnering with global chip majors. Today's engineers, therefore, have immense opportunities in hardware and embedded design, developing integrated circuits (ICs); field-programmable gate arrays (FPGAs) and systems-on-chips (SoCs), apart from typical software development opportunities.

This being a niche field, companies are increasingly looking for professionals with hands-on experience in digital application specific integrated circuit (ASIC) design, physical design, mixed signal IC design, verilog, VHDL or VHSIC, VLSI design, circuit design and simulations, micro-controllers, digital PCB design and routing. However, the Indian Semiconductor Association (ISA) estimates that engineering colleges are meeting only 20 per cent of the industry demand for chip design engineers.

Organizations spend a year and a half shaping young graduates even as the courses in our educational institutions are not relevant to the industry. Both industry and academia would benefit if institutes introduce a competent courseware and the industry gets involved in imparting professional training in institutes

In order to achieve this objective, INTERLOGICX and E.G.S PILLAY ENGINEERING COLLEGE have decided to enter into a Memorandum of Understanding (MoU) as per the mutually agreed terms and conditions.

3. STRUCTURE

The MoU is planned to provide a platform to Interlogicx., work with E.G.S PILLAY Engineering College.

The Scopes of MoU

IIP aims at effective, frequent and mutually beneficial interactions with Industry and establishing and exploring links with industries for the development of the Institute. Advantages of IIP

1. Industry-Institute by interaction programs.
2. Training and placement of students in Industries.
3. To conduct Industrial Training and Industrial Visits for the students and faculty.
4. Offering industry oriented projects to the final year students in the campus.
5. Organizing seminars, symposiums, exhibitions and workshops.
6. Knowledge and Technology transfer including providing hardware kits/modules along with necessary softwares to Embedded System Lab.
7. Publishing and issuing technical bulletins/newsletters and course material with latest technological developments.
8. Collaborating with other societies (National and International) having similar objectives.
9. Conducting Industrial and Technical Exhibitions.
10. Organizing guest lectures on latest technological advancements, evaluation of project work, and workshops from industrial experts in the Institute
11. To arrange short-term programmes

3.1 Validity of the agreement

This arrangement shall remain in force for a period of five years from the date of acceptance by E.G.S PILLAY ENGINEERING COLLEGE and can be terminated by giving a written notice period of three months by either party.

4. FORCE MAJEURE

In the event of non-fulfillment of the terms and conditions of this MoU to any reason of force majored viz., war, riots, earthquakes and natural calamities neither the E.G.S PILLAY ENGINEERING COLLEGE and **Interlogicx**., shall be held responsible for any loss or consequential losses.

5. ARBITRATION

Parties to the agreement shall settle any dispute arising with regard to any of this MoU through mutual consultations. In case the settlement is not arrived at, the dispute(s) will come under the purview of the Arbitration and Conciliation Act, 1996 and the venue of arbitration shall be within Tamilnadu.

6. ANY OTHER MATTER

Any lack of understanding to the spirit and implementation of this MoU will be resolved by mutual consultation by the Managing Director of **Interlogicx** or his designated nominee representative of Interlogicx and The Chairman, E.G.S PILLAY ENGINEERING COLLEGE, or his designated nominee of E.G.S PILLAY ENGINEERING COLLEGE.

7. ON – CAMPUS TRAINING PROGRAM

As an extension of MOU with E.G.S PILLAY ENGINEERING COLLEGE, INTERLOGICX Shall Provide On – campus training program for the students with following terms and conditions.

- a. Interlogicx Shall provide the necessary qualified and experienced technical personals and other hardware and software at the college premises for Training.
- b. Students of Final Year, Third year and Second Year from EEE branch shall be the participants of the Training program.

Introduction of EGS Pillay Engineering College

E.G.S. Pillay Engineering College is a self - financing educational institution situated in Nagapattinam, Nagapattinam District. EGSPEC is the vision of Chevalier. Dr.G.S.Pillay, whose determination and dynamism made possible the realization of this institution of excellence.

Established in the year 1995 with 3 courses CSE, Mechanical and Chemical, affiliated to Bharathidasan University. (First in Nagapattinam district). Established by the G.S. Pillay & Sons Charitable and Educational Trust, Nagapattinam. Affiliated to Anna University, Chennai in the year 2002.

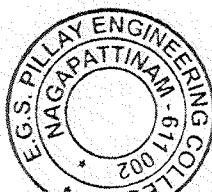

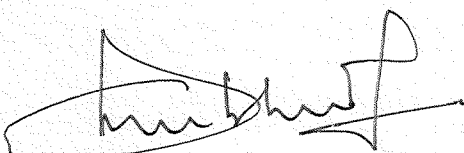

UGC Recognized institution under 2(f) and 12(B). Recognized Research Centre for Mechanical Engineering, EEE, ECE, CSE and Civil Departments by Anna University, Chennai for doing Ph.D./M.S.(By Research). Nodal Centre for QIC of Anna University, Chennai Associate Member of ICTACT, Govt. of Tamilnadu for Industry Institute Interaction

Autonomous status from 2017 onwards approved by UGC and Anna University, Chennai

Introduction of Amphisoft Technologies

Amphisoft Technologies is a private organization started by a set of learning science researchers who have developed a thorough understanding of academics, corporate training, and learning.

Amphisoft empowers corporate organizations and academic institutions with technology-enhanced learning tools to facilitate comprehensive learning and development. We provide technology services to incorporate Micro-Learning, Micro

Teaching, Collaborative Learning, Game Based Learning, Second Life Based Learning Models, Learning Measurement, and Learner Classification into your college.

Objectives of Amphisoft

- Revolutionizing Engineering and Technology Education / Training through innovative Technology Enabled Learning (TEL) models.
- Rejuvenating Engineering and Technology learning through activity-based courses which are auto-evaluated
- Creating Academic Corporate Transparency through TEL platforms with fool proof HR filters for effective hiring.

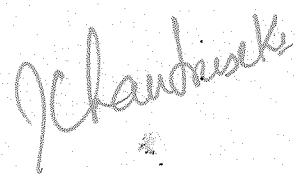

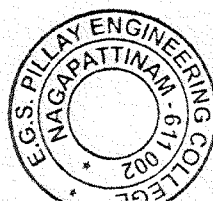

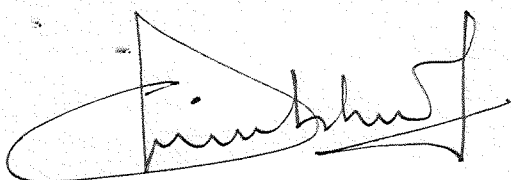

Terms & Conditions:

1. Nature of Relationship

- a. This MoU is for collaboration between both parties, for mutual benefit, for many purposes set out in the "Purpose/Scope of Collaboration" below to enhance the quality of the educational experience for the overall transformation of students/faculty of the College.

WHEREAS

- Garuda Aerospace with an objective of bringing industry interface to students of **E.G.S. Pillay Engineering College**
- Garuda Aerospace Pvt Ltd, India's Drone Unicorn start-up is shaping the drone ecosystem in India by pioneering applications in multiple domains using drones. We are India's largest Agriculture Drone fleet owner with a thirst to provide newer solutions for multiple challenge statements with drones as a platform for the solution.
- Garuda Aerospace is willing to participate in an arrangement with Institution for providing Industry Interface to the students of the Institution as preferred partner.
- This MOU provides for Garuda Aerospace and Institution to come together for mutually beneficial cooperation on Industry Interface of Drones as mentioned below;

NOW THEREFORE THIS MOU WITNESSETH AS FOLLOWS:

1. Objectives:

The objective of this MOU is to combine and synergize the expertise of Garuda Aerospace and Institution. Both the parties shall commit the necessary resources in pursuance of the objectives and formulate necessary action plan to fulfill the objectives. Both the parties undertake to work with each other in a seamless and transparent manner in the spirit of mutuality and partnership.

2. Areas of Cooperation:

This MOU addresses mutual cooperation in the following areas:

1. To provide lecture sessions by experts, for 30 hours per academic year, for the students of two batches as per the program.
2. To facilitate site visit for observation. This is specific to the students who enroll in the course. The batch size shall be limited to 20 students. The travel, accommodation & miscellaneous expenses for the visit shall be the scope of the Institution. Garuda Aerospace is willing to do two batches per academic year.
3. To impart training in Garuda Aerospace Offices for a period of 30 hours. Note: The selection & finalization of the Garuda Aerospace office where the student undergoes pilot & Administrative training will be decided by Garuda Aerospace.
4. To provide inputs to enhance the curriculum and be an advisory from the capacity of an industry expert in Aeronautical field (Drones).

5. To setup a Lab and Centre of Excellence where the enrolled students could practically learn about the UAV's with the original equipment's and practices their piloting with the stimulators and dummy drones. The students could excel in the UAV industry with the industrial knowledge that would be beneficial to their aeronautical career.

6. Once the students are completed and certified with the course, if they are eligible to be a part of Garuda Aerospace Private Limited team as an employee, he/she will be hired to the team as per their interest and capabilities.

3. Non-Exclusivity:

The cooperation/understanding contemplated herein is not exclusive and GARUDA AEROSPACE /Institution shall be free to enter into similar arrangements with any other party also.

4. Exercising Authority:

Both GARUDA AEROSPACE and Institution will nominate and inform to each other names of two specific representatives to act as the exercising authorities, for operating the various provisions of this MOU on behalf of their respective organizations. All formal communications will be exchanged only through these nominated representatives.

5. Validity of this MOU

This MOU shall be valid for a period of 3 years initially from the date of signing, after which it can be renewed by mutual agreement between the parties. Either party during its currency can also terminate this MOU by giving a notice of one month on the other. On termination, each party shall return to the other party all such documents and reference material as may have been borrowed for the purpose of fulfilling the work under this MOU. This MOU shall also stand terminated if a court of competent jurisdiction declares either of the parties as insolvent. Any termination as per this clause shall not affect the antecedent liabilities of the parties prior to the termination including completion of all assignments that have been agreed prior to such termination.

6. Confidentiality:

In the course of fulfilling the mutual responsibilities under this MOU, there will be a sharing of information of confidential nature. Both parties hereby agree to maintain such information relating to methods, trade secrets, products, services, processes, techniques and other proprietary information in strict confidence and not divulge these to any third party without the express consent of the other party except as may be necessary in the course of fulfilling mutual responsibilities in this MOU. This clause of confidentiality shall extend to the parties employees and associate / Subsidiary Companies / Concerns.

The parties each agree to refrain from distributing, disclosing or disseminating the Confidential Information of the other party and its affiliated entities which is disclosed to it and its affiliated entities in any manner to any person or entity except to the Recipient's employees, consultants and agents who have a need to know and who are obligated in a manner consistent with this MOU to maintain the confidentiality of such information.

Dear Dr.Chandru,

Pleasure connecting with you. Sharing an email with details of the initiative we have taken for the betterment of the student community considering these testing times. I'm sure students will find it very beneficial and will be able to upskill and be better prepared for the job market as well. This content can be shared with students of all semesters irrespective of streams as well as Faculty members. Please have a look and we would love to see good participation from an University of repute such as yours.

As universities and their students come to terms with the challenge posed by the COVID-19, we have launched the Great Learning Academy (GLA) and are offering it to our select partner universities for **FREE**. The GLA offers over **30 courses** spanning over 300 hours of learning at the beginner and intermediate levels in digital areas such as **Data Science, Artificial Intelligence, Machine Learning, Cloud Computing, Business, Digital Marketing, Big Data and business areas such as Finance and Marketing**. These courses are oriented towards practical problem solving and are derived from our premium, award winning post graduate programs currently being pursued by learners from over 70 countries worldwide.

This mail can be shared with students along with the Banner which has the link to the GL Academy website.

Dear Student,

Universities around the world have closed due to the coronavirus pandemic, classes have been called off and a lot of initiatives have come to a standstill. In this uncertain time, we urge you to avoid venturing out, pray for your well-being.

To minimize the impact on students, we have partnered with Great Learning to offer an exclusive opportunity to focus your energies towards learning and enhancing your skills. Enroll into these programs built in partnership with industry experts and tier-1 academic institutions - University of Texas Austin, Stanford, Purdue & Great Lakes Institute of Management.

Dear Sir,

Greetings from Olympus Digital Campus!

We, at Great Learning, are pleased to announce the launch of a new initiative 'Job Ready Program' exclusively for students of partner colleges, who have registered with Olympus Digital Campus. As part of this, students of 3rd and 4th Year will have access to courses on Job Preparation through the [Great Learning for College Students](#) page. The courses are designed in areas such as Soft Skills, Aptitude and Technical Skills (Data Analyst, Software Development) that are most sought after by recruiters.

The courses are organised through a series of live interactive classes that are conducted daily post college hours so that there is minimal disruption to the student schedule.

The classes for Live Courses are starting from Monday, 26th October. Here is the list of 4 Live Courses that students can enroll in and start learning.

Dear Sir/Madam

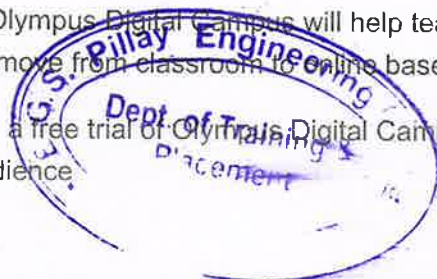

Covid-19 has transformed education, perhaps forever. Teachers and students are faced with the new reality that classroom based teaching might not be available for a long time to come and education will have to shift online.

Teaching online effectively while ensuring that students have great learning outcomes is not easy. This is more challenging than merely having a video conferencing software connecting teachers and students.

Great Learning's Olympus Digital Campus is an end to end solution, which enables educators to effectively move their teaching online. By taking care of responsibilities like planning and publishing course schedules, distributing course content, conducting live classes, monitoring attendance, giving assignments and quizzes, conducting proctored exams and much more, Olympus Digital Campus helps teachers devote their time and effort towards teaching without worrying about how the administrative tasks are done.

We invite you to Join us for an interactive online discussion and demonstration on **Teaching Online Effectively with Olympus Digital Campus**. As part of the session, we will cover:

- How can teachers deliver a high quality learning experience online?
- A live demonstration of the Olympus Digital Campus solution:
 - Witness the experience that students and teachers will have while using Olympus Digital Campus.
 - See first hand how Olympus Digital Campus will help teachers deliver a seamless experience as they move from classroom to online based teaching.
- How to get started with a free trial of Olympus Digital Campus?
- Questions from the audience
- And more...

each a "Party"; together "Parties"

1. Definitions:

- i. 'Personal data/Information' (hereinafter "PI") shall mean any information/data relating to an identified or identifiable natural person ('data subject'). For the purpose of this definition, PI may also include Sensitive Personal Information, as per Applicable Privacy Laws, including without limited to (i) a first name, last name or initials; (ii) a home or other physical address, including street name and name of city or town; (iii) an email address or other online contact information; (iv) a telephone number; (v) a social security number, tax ID number or other government-issued identifier; (vi) an Internet Protocol ("IP") address or host name that identifies an individual; (vii) a persistent identifier held in a "cookie" that is combined with other available data that identifies an individual; (viii) birth dates. (ix) Personally identifiable financial information, passport related details, (x) PHI (Protected Health Information) identifiers, racial or ethnic origin, political opinions, religious or philosophical beliefs, trade-union membership, health or sex life. Additionally, to the extent any other information (such as, but not necessarily limited to, IP addresses, other unique identifier, or biometric information) is associated or combined with PI, then such information also will be considered PI. PI may as well include information relating to legal entities, if so required by the applicable law.
- ii. 'Applicable Privacy Laws' refers to all laws, rules, regulations and standards that are designed to protect the privacy rights or privacy expectations of the Parties (the term includes all subsidiaries and affiliates of the Parties), their employees, clients and client - customers and any other thirdparty vendors.
- iii. 'Data Controller' or 'Controller' means the entity that determines the purposes and means of Processing of Personal Data, either alone or jointly with another entity.
- iv. 'Data Subject' means any individual whose Personal Information is collected, used and/or processed under this DPA for the business purpose(s) of the Parties. Explanation: list includes employees, clients, client customers, agents, contractors.
- v. 'Technical and Organizational Security Measures' means those measures aimed at protecting personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorized

disclosure or access, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing.

- vi. 'Personal Data' Breach" means a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to; personal data transmitted, stored or otherwise processed.
- vii. 'Processing' or any other derivative thereof, means any operation or set of operations performed upon PI, whether or not by automatic means, such as collection, recording, organization, structuring, storage, adaptation or alteration, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, blocking, erasure or destruction.

2. Processing of Personal Data

- i. The parties agree that in connection with the main service agreement (hereinafter "Agreement"), Partner and Infosys shall each act as a data controller with regard to use and processing of personal information for the purposes contemplated by the Agreement. The Parties shall each comply with Applicable Privacy Laws directly applicable to their respective use of each other's Personal Information, relating to the collection, use, processing, protection or disclosure of Personal Information, in the course of carrying out their respective obligations under this Agreement. Both Parties agree to negotiate in good faith to amend the DPA and the Agreement as necessary to address changes to Applicable Privacy Laws.
- ii. If Partner provides Infosys with Personal Information under this Agreement, Partner agrees to provide all relevant notices and obtain any consents required to share the information with Infosys and such notices and consents must sufficiently inform data subjects of the purposes for which personal information is collected.
- iii. The Partner agrees in respect of any such PI supplied to it by Infosys that it shall: (a) only act as necessary for the purpose of rendering services warranted by Infosys; (b) regarding the processing of such PI under this Agreement it shall ensure that appropriate technical and organizational measures shall be taken against unauthorized or unlawful processing of PI and against accidental loss or destruction of, or damage to, the personal data; and (c) comply with any reasonable request made by Infosys to ensure compliance with the measures contained in this Section. The Partner will not process, or refrain from processing, any act that puts Infosys in breach under the Applicable Privacy Laws and shall indemnify Infosys and its officers, directors and employees for any breach of any Applicable Privacy Laws, which renders Infosys liable for any costs, claims or expenses.
- iv. Nothing in this Agreement shall be deemed to prevent the Parties from taking steps it reasonably deems necessary to comply with the Applicable Privacy Laws.
- v. For the purposes of this DPA, "Applicable Privacy Laws" means all laws, codes, statutes, rules, and regulations with which each Party is legally obliged to comply during the term of this Agreement.

Dear Professor,

You have been a valuable partner with Infosys as part of Campus Connect. You have supported in considerable adoption of the Infosys Springboard platform to your students, faculty members and in your curriculum through the courses, learning paths and certifications offered. We are appreciative of your support and present to you a small token of our appreciation through this mail.

We bring to you **Google Career Certification** from Infosys Springboard and Coursera. Through this, identified faculty members from your institution would be able to complete the courses and take up certification. This will help them get ready for industry-recognized skills and enhance their employability.

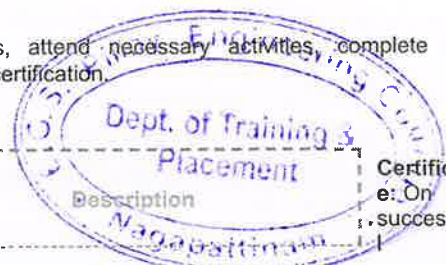

A brief on the certification:

The learners would require to complete the pre-requisite courses, attend necessary activities, complete the coursework/assignment and practice rigorously to successfully clear the certification.

The certification details are given below:

Certification area	Link for information on the certification	Description	Certificate: On successful completion

#EmbraceEquity

International Women's Day 2023

Equity goes beyond genders, geographies and social strata. Equity is the means to achieve equality.

This March, make your stand and pledge to embrace equity. Here are two activities to help you:

Blog contest

Choice of topics:

1. Embracing equity is the right thing to do
2. The woman who I admire the most

Guidelines:

- Word limit: 500 words
- Post on Infosys Springboard Blogs from March 1 to 31, 2023

Criteria for evaluation:

- Adherence to topic
- Clarity and simplicity
- Content freshness
- Engaging writing style
- Attention to spellings, grammar
- Give credits where credits are due

Strike the #EmbraceEquity Pose

Click a photograph of yourself, just like the pictures in this email. Post it on your social media handles with the **hashtags:**

#InfySpringboard, #EmbraceEquity, #IWD2023.

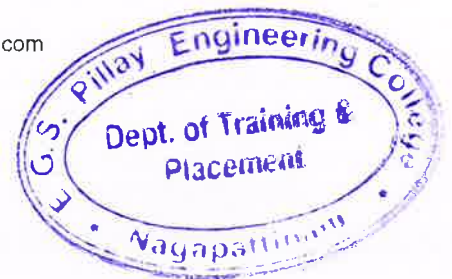

Tag Infosys Springboard too:

Infosys Springboard-Support <Springboard-support@infosys.com>

Mon, Oct 31, 2022 at 5:34 PM

Dear Professor,

Greetings!!

Infosys cordially invites you for a Faculty Enablement Program (FEP) on Artificial Intelligence using **Infosys Springboard** platform. This will be a rich blend of theory and hands on practice with enriched self-learning content on the platform.

The objective of the workshop is to upskill the faculty members of educational institutions on Artificial Intelligence, its applications and enable them to conduct these sessions for their students. They will also take up relevant certification to accredit their learning. This will benefit our faculty and student community by making them industry ready.

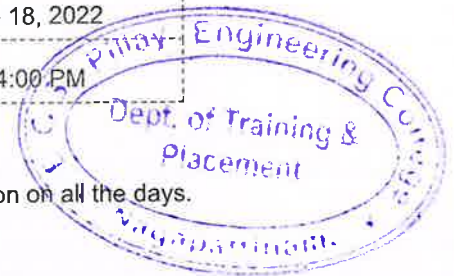

PROGRAM SCHEDULE

Dates	November 14 - 18, 2022
Timings	10:00 AM – 4:00 PM

Note: 2:30 PM – 4:00 PM is self-learning and hands on practice session on all the days.

Please identify **two faculty members** subject to the following eligibility criteria:

- Should be a permanent member of faculty of the CSE / IT / ISE / MCA departments with experience ranging from 2 to 15 years.

3/11/23, 9:33 PM

E.G.S. Pillay Engineering College Mail - Infosys Campus Connect | Invitation : Faculty Enablement Program (FEP) on Artificial Int...

- The faculty member should be interested in driving student certification programs at the institution.
- Faculty member should be registered on Infosys Springboard platform.

[Click here to nominate](#)

Kindly login to Infosys Springboard to nominate (If not registered please register on Infosys Springboard)

Last day to register for the workshop: Nov 9, 2022

Note:

- The FEP is certification based and successful completion of the relevant certification on Infosys Springboard will make the participants eligible to get the participation certificate.
- After the FEP we recommend that the faculty member must facilitate Artificial Intelligence in the institution for a batch of minimum 100 students and ensure that students complete the certification on Infosys Springboard in 30 days' time (latest by mid of Dec 2022).

Please feel free to reach out to us at Springboard-support@infosys.com with subject line "FEP series 2 – Artificial Intelligence" for any queries regarding registration.

Respected Sir/Madam,

Greetings from Infosys!

Thank you for sparing time to attend SPoC's Meet event on Sep 2022. Appreciate your enthusiastic participation.

Here are the key points discussed in the meeting:

Goals: Institutions can encourage the students to setup goals in the Infosys Springboard platform to complete courses and certifications.

Certifications: Institutions can encourage the students to take up the certifications to improve their digital skills. [Click here](#) to find more information about the Certifications.

Academic Curriculum Integration with Infosys Springboard: Institutions can make use of the courses / contents available on the Infosys Springboard as part of their academics for additional learning. Reach out to your regional anchor for more details. Infosys Springboard courses may be suggested as MOOC courses and choice based credit courses.

Industry Ready Roles: Institutions can encourage the students to take up the courses which have been aligned to the skills required by the IT industry. [Click Here](#) to find more information.

Choice Based Credit System: Institutions can use the choice based courses / certifications to their students as part of assessment/assignment components, credits for self-paced learning etc. [Click Here](#) to find more information.

Virtual Roadshows: Virtual session for students to demonstrate the Infosys Springboard platform are in-progress. You may contact your regional Anchors to conduct the Infosys Springboard briefing session for your Students.

Infosys Springboard Schools' Conclave 2022: An Invitation!

1 message

Infosys Springboard <springboard@infosys.com>

Fri, Apr 1, 2022 at 10:39 AM

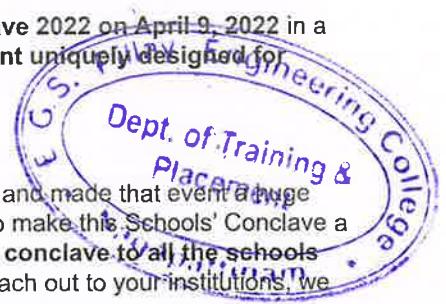

Dear Sir/ Madam,

Thank you for your association with Infosys Springboard and for your continuous support in utilizing it for the benefit of your students and faculty.

Infosys Springboard is gaining momentum and it is because of your support and encouragement that today, we have over 18 lakhs of registered learners from all over India! We have a well nurtured and strong industry academia partnership with your esteemed institution through our Campus Connect association. We hope to expand and build a similar bond with schools and other academic institutions.

Infosys Springboard is conducting **Infosys Springboard Schools' Conclave 2022** on April 9, 2022 in a hybrid mode i.e., on campus and a virtual meet. It is **the first flagship event uniquely designed for school faculty** pan India, enabling them to get digitally savvy.

As you have supported us in our Infosys Campus Connect Conclave 2021 and made that event a huge success by your valuable presence, we request your support once again to make this Schools' Conclave a huge success too! **We request you to share the information about this conclave to all the schools that are associated with your group of institutions.** To enable you to reach out to your institutions, we have attached an open invitation mailer and WhatsApp creatives that you can use.

The last date for accepting registrations from School faculty is April 5, 2022. For on campus registration, only two school teaching faculty members per institution are permitted on a first-come-first-serve basis. We look forward to your support once again.

For any queries related to this conclave, reach us at Springboard-support@infosys.com.

Fri, Apr 1, 2022 at 10:39 AM

Dear Sir/ Madam,

Thank you for your association with Infosys Springboard and for your continuous support in utilizing it for the benefit of your students and faculty.

Infosys Springboard is gaining momentum and it is because of your support and encouragement that today, we have over 18 lakhs of registered learners from all over India! We have a well nurtured and strong industry academia partnership with your esteemed institution through our Campus Connect association. We hope to expand and build a similar bond with schools and other academic institutions.

Infosys Springboard is conducting **Infosys Springboard Schools' Conclave 2022 on April 9, 2022** in a hybrid mode i.e., on campus and a virtual meet. It is **the first flagship event uniquely designed for school faculty** pan India, enabling them to get digitally savvy.

As you have supported us in our Infosys Campus Connect Conclave 2021 and made that event a huge success by your valuable presence, we request your support once again to make this Schools' Conclave a huge success too! **We request you to share the information about this conclave to all the schools that are associated with your group of institutions.** To enable you to reach out to your institutions, we have attached an open invitation mailer and WhatsApp creatives that you can use.

The last date for accepting registrations from School faculty is April 5, 2022. For on campus registration, only two school teaching faculty members per institution are permitted on a first-come-first-serve basis. **We look forward to your support once again.**

For any queries related to this conclave, reach us at Springboard-support@infosys.com.

Regards,

Dear Professor,

Greetings from Infosys! Hope you and your loved ones are doing well.

This is a gentle reminder for our off-campus recruitment drive for 2022, 2021, 2020 and 2019 batch students for Specialist Programmer and Digital Specialist Engineer roles. We need your support in spreading this message to the interested students. Here are more details about each role:

- **Specialist Programmer (SP):** An entry-level role in the Power Programmer stream at Infosys. Specialist Programmers are programming 'polyglots' who are experts in deep programming, full-stack capabilities, high complexity coding, developing rapid applications/platforms, and building technology-enabled solutions. The compensation for this role is INR 9.5 lakhs per annum.
- **Digital Specialist Engineer (DSE):** This role requires full stack capabilities and skills like analytics, artificial intelligence and automation, big data, cloud, cyber security, data consulting, and digital commerce, interaction, and marketing. Digital Specialist Engineers work across business units of Infosys on special projects to develop integrated applications and to bring agility in development with DevSecOps culture. The compensation for this role is INR 6.25 lakhs per annum.

The eligibility criteria for these roles has been shared below.

- **Year of graduation:** 2022, 2021, 2020 and 2019
- **Courses:** BE, BTech, ME, MTech, MCA, MSc (5 years integrated)
- **Branches:**
 - Computer Science Engineering
 - Electronics and Communication Engineering
 - Electrical and Electronics Engineering
 - Electronics and Telecommunication Engineering
 - Information Science & Engineering
 - Information Technology
 - Mathematics and Computing
- **Academic Criteria is attached.**

Interested candidates can apply for this drive by filling out the application form for Infosys Off-campus Recruitment Drive - SP and DSE by Sunday, 17 July, 2023.

MEMORANDUM OF UNDERSTANDING (MoU)

BETWEEN

**E.G.S. PILLAY ENGINEERING COLLEGE,
Nagapattinam, Tamilnadu**

AND

**ZAPHIRE INFORMATION TECHNOLOGY AND
SERVICES PRIVATE LIMITED**

MEMORANDUM OF UNDERSTANDING

This **Memorandum of Understanding** (hereinafter called as the 'MOU') is entered into on this the 4th DAY OF **April, 2022** by and between

E.G.S. Pillay Engineering College, Nagapattinam, Tamilnadu the First Party represented herein by its **Shri.S.Senthil Kumar**, Secretary, E.G.S. Pillay Engineering College, Nagapattinam, Tamilnadu. (hereinafter referred as '**First Party**', the institution which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

AND

ZAPHIRE INFORMATION TECHNOLOGY AND SERVICES PRIVATE LIMITED (U72900TN2021PTC140751) , **THE SECOND PARTY**, and represented herein by its **DIRECTOR DIVAN GAMALIEL**, (hereinafter referred to as "**Second Party**", company which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party') and

WHEREAS:

The First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities to benefit students and job seekers.

The Parties intend to cooperate within the area of Skill-Based Training and Placement Assistance and Internships.

Now, therefore, in consideration of the mutual promises set forth in this MoU, the parties hereto agree as follows:

1. SCOPE OF THE MOU

1.1 Co-operation and Collaboration: The students from the institution can play a key role in technological up-gradation, innovation, and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge and career prospects.

Placement of Trained Students: The Second Party will actively engage to help in the placement of the students of the First Party in suitable jobs and internships.

- 1.3 There is no financial commitment on the part of either party in the scope of these assisted placement initiatives offered by the Second Party. The placement assistance offered is subject to the following terms:
- 1.3.1 To be considered for placement assistance /Internship, students must be registered in the Zaphire platform.
- 1.3.2 Students must create a VIDEO resume using the available templates on the Zaphire app.
- 1.3.3 All VIDEO resumes must be in English, and meet the minimum quality criteria as ascertained and checked by Zaphire's representatives regarding aspects like completeness, the accuracy of the information, quality of audio and video etc.
- 1.3.4 Zaphire's computer algorithm and its representatives will screen and shortlist the students for various available opportunities based on skills, experience, job location, and any other fitment parameters necessary.
- 1.3.5 While the intent is to place as all qualified students as possible, there is no assurance from the Second Party on placement outcomes since this depends on a host of factors and fitment criteria.
- 1.3.6 If a student is successfully placed in a job/program/internship in which the client trains students / invest money in skill up-gradation but chooses to leave the job/program within 3 months from the start date for whatever reason OR is asked to leave for reasons of performance, conduct or any other reason, the First Party agrees to offer a suitable replacement candidate as soon as possible.

2. INTELLECTUAL PROPERTY

- 2.1 Nothing contained in this MOU shall, by express grant, implication, estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copyrights and designs) of the other Party.

3. VALIDITY

- 3.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period, both Parties will take effective steps for implementation of this MOU. Any act on the part of either party after termination of this Agreement by way of communication, correspondence, etc., shall not be construed as an extension of this MOU.

Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of termination, both parties must discharge their obligations as mutually discussed.

4. NON-CIRCUMVENTION

4.1 The First Party agrees not to engage with, directly or indirectly, the clients of the Second Party while the MOU is active.

5. RELATIONSHIP BETWEEN THE PARTIES

5.1 It is expressly agreed that First Party and Second Party are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

5.2 It is also agreed that the First Party agrees to have the Second Party use the logo and branding for marketing purposes on the website, brochures, social media, and other media events to help get the required visibility and exposure for the students.

First Party

MEMORANDUM OF UNDERSTANDING (MoU)

BETWEEN

**E.G.S. PILLAY ENGINEERING COLLEGE,
Nagapattinam, Tamilnadu**

AND

**ZAPHIRE INFORMATION TECHNOLOGY AND
SERVICES PRIVATE LIMITED**

MEMORANDUM OF UNDERSTANDING

This **Memorandum of Understanding** (hereinafter called as the 'MOU') is entered into on this the **4th DAY OF April, 2022** by and between

E.G.S. Pillay Engineering College, Nagapattinam, Tamilnadu the First Party represented herein by its **Shri.S.Senthil Kumar**, Secretary, E.G.S. Pillay Engineering College, Nagapattinam, Tamilnadu. (hereinafter referred as '**First Party**', the institution which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

AND

ZAPHIRE INFORMATION TECHNOLOGY AND SERVICES PRIVATE LIMITED (U72900TN2021PTC140751) , **THE SECOND PARTY**, and represented herein by its **DIRECTOR DIVAN GAMALIEL**, (hereinafter referred to as "**Second Party**", company which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party') and

WHEREAS:

The First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities to benefit students and job seekers.

The Parties intend to cooperate within the area of Skill-Based Training and Placement Assistance and Internships.

Now, therefore, in consideration of the mutual promises set forth in this MoU, the parties hereto agree as follows:

1. SCOPE OF THE MOU

1.1 Co-operation and Collaboration: The students from the institution can play a key role in technological up-gradation, innovation, and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge and career prospects.

Placement of Trained Students: The Second Party will actively engage to help in the placement of the students of the First Party in suitable jobs and internships.

- 1.3 There is no financial commitment on the part of either party in the scope of these assisted placement initiatives offered by the Second Party. The placement assistance offered is subject to the following terms:
- 1.3.1 To be considered for placement assistance /Internship, students must be registered in the Zaphire platform.
- 1.3.2 Students must create a VIDEO resume using the available templates on the Zaphire app.
- 1.3.3 All VIDEO resumes must be in English, and meet the minimum quality criteria as ascertained and checked by Zaphire's representatives regarding aspects like completeness, the accuracy of the information, quality of audio and video etc.
- 1.3.4 Zaphire's computer algorithm and its representatives will screen and shortlist the students for various available opportunities based on skills, experience, job location, and any other fitment parameters necessary.
- 1.3.5 While the intent is to place as all qualified students as possible, there is no assurance from the Second Party on placement outcomes since this depends on a host of factors and fitment criteria.
- 1.3.6 If a student is successfully placed in a job/program/internship in which the client trains students / invest money in skill up-gradation but chooses to leave the job/program within 3 months from the start date for whatever reason OR is asked to leave for reasons of performance, conduct or any other reason, the First Party agrees to offer a suitable replacement candidate as soon as possible.

2. INTELLECTUAL PROPERTY

- 2.1 Nothing contained in this MOU shall, by express grant, implication, estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copyrights and designs) of the other Party.

3. VALIDITY

- 3.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period, both Parties will take effective steps for implementation of this MOU. Any act on the part of either party after termination of this Agreement by way of communication, correspondence, etc., shall not be construed as an extension of this MOU.

Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of termination, both parties must discharge their obligations as mutually discussed.

4. NON-CIRCUMVENTION

4.1 The First Party agrees not to engage with, directly or indirectly, the clients of the Second Party while the MOU is active.

5. RELATIONSHIP BETWEEN THE PARTIES

5.1 It is expressly agreed that First Party and Second Party are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

5.2 It is also agreed that the First Party agrees to have the Second Party use the logo and branding for marketing purposes on the website, brochures, social media, and other media events to help get the required visibility and exposure for the students.
