Date: 04 May 2021

Name of the Student: Dhanush Karthick S

Name of the College: KSR College of Engineering

Letter of Intent to Hire

This letter is evidence that you have successfully completed our selection process for the "Trainee" role,

With reference to your participation in the on campus hire process, and subsequent interview you had with us, we are happy to extend an **Intent to hire letter**.

The offer Letter will be issued after your successful completion of your academic coursework in compliance with our recruitment criteria of **80% in 10th Std, 12th Std and UG score without history or standing arrears**. Employment is subject to you being medically fit, and subject to satisfactory references, background verifications.

We will be issuing the offer letter at the time of Joining.

The DOJ is subject to business requirement and market conditions. Your Joining batch and the date will be communicated by Human Resource Department separately.

Upon joining you will be on probation period for **6 months** during this period you will undergo various classroom and On-Job-Training. Your monthly stipend for the **first 3 months** will be **Rs. 15,000/-** (Rupees Fifteen Thousand Only) and from **4th month** onwards the stipend will be **Rs. 20,000/-** (Rupees Twenty Thousand Only). Probation confirmation will be on the 7th Month and it will be based on your performance in the continuous assessments during the training period. After successful review and completion of probation, your salary from **7th month** onwards will fall under **Rs. 6,50,000** (Rupees Six Lakhs Fifty Thousand Only) Annual CTC. The details are enclosed in the annexure.

Letter of Intent (LOI)

Superset ID: 1096826

November 02, 2021

Dear Vergin Santhiya Gnanaselan,

This LOI refers to your application for employment with Cognizant Technology Solutions India Private Limited ("**Cognizant**") and subsequent discussions. Basis the information and representation provided by you, we are pleased to inform you that we have found you suitable for the role you applied and your designation will be **Programmer Analyst Trainee**. Upon final scrutiny, a formal Offer Letter with the compensation, terms and conditions, rules, regulations & policies ("Employment Agreement") will be issued.

Your annual total remuneration will be **INR 401,988/-**. This includes an annual incentive target of **INR 22,500/-**. This amount may vary depending on individual and Cognizant's performance. You are also eligible for an One-time Skill Bonus* of **INR 25,000/-**. The detailed information on compensation and benefits will be provided in your Offer Letter.

***One-time Skill Bonus** will be based on the technical competency demonstrated thru skill based assessment, Interview and GenC Training post joining/Internship.

This LOI expresses only our intent to enter into a definitive Employment Agreement, subject to completion of all hiring formalities and procedures. This document does not confer any rights or obligations upon you and Cognizant, and as such does not constitute any contractually binding relationship between you and Cognizant.

This LOI from Cognizant is valid for 3 weeks from the date of the LOI. Hence, you are requested to accept or decline the LOI within 3 weeks from the date of the LOI. In case we do not receive any response from your end within the aforementioned time period, this LOI shall stand withdrawn, and will be considered as void. Any extension to the LOI validity will be at the sole discretion of Cognizant. Please note that this LOI is not deemed to be considered for purposes of joining Cognizant. For all onboarding formalities, the definitive Employment Agreement is required.

Mr. Kannan P
K.S.R College of Engineering

Dear Kannan,

SUB: Our offer for the position of Trainee

We are happy to let you know that we are impressed with your credentials and welcome you to the Aspire family. We are certain that you would play a vital role in our growth and success and you will be a valuable addition to our talented team of ASPIRIANS.

You will be inducted as a “**Trainee**”. Your initial training will be done virtually if the Covid situation continues and your initial training with the Talent Nurturing team and the department specific training will be for a maximum duration of three months. Post training you will be deputed to any one of our Practices and location, once the situation becomes normal, you will be deputed to work from any of our offices in India. The salary during training will be **Rs.15,000 per month** which will be prorated based on your training duration. At the end of training period, a formal evaluation of your performance will be made.

On successful completion of the training, your total Cost-to-Company (CTC) will be revised to **Rs.3.60 Lakhs Per Annum**. You will also be eligible for a stipend of **Rs.25,000** and this stipend will be payable after completing one month of your service with us and will get credited along with your salary for the consecutive payroll cycle. All remuneration payable to you will be subject to income tax deduction at source and to any other statutory deductions that may be applicable.

Your commencement of employment with us is contingent upon your acceptance of this offer and our terms of employment (Annexure 1). We once again welcome you to share a challenging and mutually rewarding experience at Aspire. Please return the duplicate of this letter duly signed by you.

For Aspire Systems (India) Private Limited

Deepika E
B.E. Computer Science & Engineering
KSR College of Engineering, Tiruchengode

Dear Deepika E,

Further to our Letter of Intent / Offer for the position of Programmer Analyst Trainee / Programmer Analyst aligned to the hiring category and in response to your subsequent confirmation for Internship Program with us, we are pleased to offer you an Internship with us for a **period of 3 to 6 months**, starting Dec 2021.

During this period, you will be provided with a stipend of INR 12,000 per month equated to the planned duration of the Internship curriculum and will be paid only subject to successful completion of milestones as defined in the curriculum prior to the monthly stipend processing window for a given month based on your performance and attendance.

Actual commencement of Internship dates and duration would be shortly communicated to you and the internship would be based on the business demand aligned to your skill tracks.

Though Cognizant Internship being a pre-requisite skill and capability development program, it does not guarantee employment. However, the successful completion of internship will form a critical part of your employment with Cognizant if an opportunity arises in future.

You will undergo a learning curriculum as per the learning track assigned to you. The learning path will include in-depth sessions, hands on exercise and project work. There will also be series of webinars, quizzes, SME interactions, mentor connects, code challenges, assessments etc. to accelerate your learning. The outcome during Internship would be monitored through formal evaluations.

Prior to joining on the rolls of Cognizant, you must have successfully completed the prescribed Internship program. In the event of unsatisfactory Internship, Cognizant reserves rights at its sole discretion to revoke its employment offer.

Please also note that:

- The Internship timings would be for 9 hours per day from Monday through Friday aligned to the working timings followed in Cognizant
- Interns are covered under Cognizant's calendar holidays of the respective location of internship and you would need to adhere with minimum attendance requirements. Prior approvals are must towards any unavoidable leave or break requests during the program.
- There would be zero tolerance to plagiarisms and misconduct during the internship. Any such incident reported will lead to immediate cancellation of internship without any notice.
- You would be required to ensure timely completion and submission of assignments, project work and preparation required prior to the sessions.
- You may be required, to travel to other locations within India if there is a business need as per your internship program
- Cognizant reserves rights regarding IT infra as applicable and access to information and material of Cognizant during the internship period and may modify or amend the Cognizant GenC program terms and conditions from time to time
- Stipend payment will be done for the prescribed Internship Curriculum period only and no additional payment will be done for any delay in completion.
- Attendance and successful completion of Milestone(s) are the eligible factors for processing stipend payment and tenure spent will not guarantee your monthly stipend payment.

11-Apr-2022

Dear Hari Krishnan A,
B.E., Computer Science & Engineering
KSR College of Engineering, Tiruchengode

Candidate ID – 19729685

Thank you for exploring career opportunities with **Cognizant Technology Solutions India Private Limited ("Cognizant")**. You have successfully cleared our initial selection process and we are pleased to make you an offer of employment. This offer is based on your profile and performance in the selection process.

You have been selected for the position of **Programmer Analyst Trainee**.

During your probation period of 12 months, which includes your training program, you will be entitled to an Annual Total Remuneration (ATR) of INR **401,988/-**. This includes an annual target incentive of INR **22,500/-** as well as Cognizant's contribution of INR **19,500/-** towards benefits such as Medical, Accident and Life Insurance. The incentive amount may vary, depending on Cognizant's performance and your performance. The other details about your compensation are detailed in **Compensation and Benefits**. Your compensation is highly confidential and if the need arises, you may discuss it only with your Manager.

On successful completion of the probation period, clearing the required training assessments and subject to you being part of a delivery project, your Annual Total Remuneration (ATR) would stand revised to INR **450,500/-**. This includes an annual target incentive of INR **22,500/-** as well as Cognizant's contribution of INR **19,500/-** towards benefits such as Medical, Accident and Life Insurance, as applicable.

Your appointment will be governed by the terms and conditions of employment as presented in **Employment Agreement**. You will also be governed by the other rules, regulations and practices in vogue and those that may change from time to time. Your compensation is highly confidential and if the need arises, you may discuss it only with your Manager.

This offer of employment is subject to your fulfillment of other pre-requirements as detailed in this letter and other communications shared with you.

Please note:

1. This appointment is subject to satisfactory background verification including professional reference checks and you securing a minimum of **60%** aggregate (all subjects taken into consideration) with no standing arrears in your Graduation/Post-Graduation.

This offer from Cognizant is valid for 15 days and hence you are expected to accept or decline the offer through the company's online portal within this time-period. In case we do not receive any response from you within this time-period, this Offer shall stand withdrawn and will be considered as void. Any extension to the offer validity will be at the sole discretion of Cognizant

2. Prior to commencing employment with Cognizant you must provide Cognizant with evidence of your right to work in India and other such documents as Cognizant may request.

3. Prior to joining Cognizant, you must successfully complete the prescribed Internship or Continuous Skill Development (CSD) program (if offered to you) as detailed below:

At Cognizant, we invest in skill and capability development of our campus selects even before they join us. This is through Cognizant Internship and Continuous Skill Development (CSD) program. These programs

BHARATH R

**8/124 THOPPUKADU, GURUSAMYPALAYAM, RASIPURAM (TK),
NAMAkkAL
, India.**

Dear BHARATH R,

Welcome to Mphasis. It gives me great pleasure to invite you to join the family of Mphasis.

We are pleased to offer you the position of a Associate Software Engineer, in **Band 5 and Level 2** with our organisation. The gross compensation will be **INR 4,00,000/-** (Four Lakhs **rupees only**) per annum.

You are required to sign a training bond and agreement for **INR 1,00,000/- (Rupees One Lakh Only)** for a period of 24 months. This bond is applicable from your date of joining the company. The bond for the complete amount of **INR 1,00,000/- (Rupees One Lakh Only)** would be recovered if you resigned within 24 months.

At Mphasis we believe we have a historic opportunity of building a global world class company. We also believe we are very unique in several ways - our equal strengths in Applications, BPO and ITO; being a flat, open and communicative organization; our ethos that encourages, promotes and rewards empowerment; initiative; flawless execution and leadership. In return, we promise to provide you a platform to grow and fulfill your personal and professional goals. We look for professionals like you who would partner the future growth of the Organization. We are confident that with your skills, competencies and capabilities you would be a valuable addition to the team.

This offer of employment is contingent upon you fulfilling the background verification process that the organization will conduct.

We look forward to you joining us on June 24, 2022 at Pune. The reporting time is **9:00 AM**. You endorse your acceptance by duly signing the duplicate copy of this letter on all sheets at the bottom right corner and return to the undersigned by either mailing it or handing it over to us on the date of your joining.

Provisional Letter of Employment

Dear **Harini Ravichandran,**

Thank you for the keen interest you have shown in **KANINI Software Solutions** (a fully owned Subsidiary of KANINI Software Solutions Inc, USA). Consequent to your application and the subsequent discussions you had with us, we are pleased to offer you a Provisional appointment for the position of **Trainee Engineer**. A detailed offer letter showing all the terms of your employment will be provided up on your acceptance of this provisional appointment and completion of pre-employment activities.

Your annual cost to the company would be **INR 4,00,000**. A breakup of this would be provided along with your offer letter.

This offer is contingent upon the successful completion of a background check, verification of education, acceptance and signing of the employment agreement. Prior to your first day of employment, you will need to complete the "onboarding process" in a Workday. We will keep you informed about your joining date through email upon completion of pre-employment activities.

We would appreciate your confirmed acceptance of this offer in the enclosed format.

Looking forward to your joining with our "Winning Team".

With best wishes,

Yours sincerely,

For **KANINI Software Solutions,**

Indu Mohan

Intent to Offer

Dear Periya A

Syntellect ID: ASBE20145509

Congratulations!

We are pleased to record this intent to offer for the position **Associate Consultant (GCM 1)** with Syntel Private Limited ("Company").

Upon your acceptance of this Intent to offer and subject to you meeting all the applicable requirements under this Intent to offer, we will share a definitive offer letter, which will outline the specific employment terms and conditions. Please note that, unless you receive a offer letter this Intent to offer is merely to record the intended offer of employment and it shall not be construed as an employment with company nor it will be a legally binding offer/contract of employment.

The contents of this Intent to Offer are strictly confidential between you and the Company. Please treat this Intent to Offer and the contents hereof as personal and confidential.

This Offer of Intent is valid subject to:

- a) Your successful completion of the **Graduate/Diploma/Post-Graduate** program within the stipulated period of 8 semesters / 6 semesters as the case may be, with a minimum percentage of **60%** and no standing backlogs
- b) You successfully clearing the medical test if the company so desires and you being found and remaining medically (both physically and mentally) fit
- c) You producing all the relevant documents pertaining to your education, identity, residence etc. as required by the Company

The Company shall conduct a background verification of all records/ references provided by you. Your employment with the Company will be subject to your background check records being clear, satisfactory, and free from ambiguity and in accordance with the policies of the Company prevalent from time to time. The Company reserves the right to ask you to furnish additional documentation or supporting information in this regard, as and when considered necessary. In case your background verification process is not completed within the company specified timeline, intimated to you via email, your selection would be deemed to be canceled.

This Offer of Intent is also contingent upon us working to determine an appropriate start date for your employment. The training is for a period of one (1) year, or any other period as the Company deems necessary, from the date of commencement of your service and you will be required to sign a separate agreement, by way of which you agree to remain in the employment of the Company during such period of training, and for a period of one year thereafter (hereinafter referred to as "the period"). Such agreement will also form part of your employment terms with the Company.

You will be continuously assessed during your training. If you do not complete the class room/on job training to our satisfaction, your appointment stands cancelled. That the intent of on-boarding will automatically expire if the candidate fails to respond to this Letter of Intent in writing/e-mail on or before the end of **5 days** from date of its issuance.

EMPLOYMENT LETTER

Dear Ashokkumar Palanisamy ,

On behalf of Altimetrik India Private Limited, we are pleased to offer you the position of “**Associate Engineer – Product and Platform Engineering**”. Attached are the specific terms and conditions of your employment – please read these important details carefully, including your compensation and benefits.

- 1. Date of Employment:** Your employment will be effective on your date of joining, which shall be not be later than **16th August 2022**. Please contact us immediately if you require an alternative joining date. In the event you fail to join us on or before **16th August 2022**, this offer for employment will stands withdrawn without any further obligation from our side.
- 2. Emoluments:** Your per annum cost to the Company is **INR 5,50,008/-** the breakup of which is shown in Annexure - I. Your remuneration is strictly confidential and we expect you to treat this information and any changes made therein from time to time as Personal and Confidential. Unless otherwise provided by Company, your salary shall be paid monthly. The total amount paid will be your salary less any statutory, standard, permissible or elected deductions or set-offs applicable to your employment. In addition to your salary, you may receive other benefits, as applicable under the Company's benefits or similar policies. Company may, upon notice to you, at any time and in its sole discretion amend, suspend, vary and modify any of the terms and conditions of these benefits and/or policies. The compensation and/or benefits offered to you by the Company may be pro-rated depending on your effective start or effective termination date. In case you have any queries in this regard, you may discuss the matter with your reporting manager.
- 3. Designation:** Company reserves the right to alter your designation as it shall from time to time determine, in accordance with Company's policy.
- 4. Posting and Period of Employment:** Your services are transferable and you may be assigned to any office of the Company or to any subsidiary or associate company, whether now existing or still to be formed whether in India or abroad. You may also be deputed to any of our customer's locations. Such transfer/deputation will be in accordance with the Company's rules being in force at the time.
- 5. Duties:** The roles, responsibilities and duties appropriate to your employment, will be specified by Company from time to time. Company may at any time, in its sole discretion, upon notice to you, alter or otherwise modify these roles, responsibilities and duties. Further, at any time, you may be required to provide services, directly or indirectly, to Company, contractors and clients. You will be required to report to any reporting manager at the discretion of the Company. During your service with the Company, you are expected to devote your whole time and attention to the Company's affairs and refrain from directly or indirectly engaging in any other employment or business in any role or capacity.

Sasmitha K
B.E. Computer Science & Engineering
KSR College of Engineering, Tiruchengode

Dear Sasmitha K,

Further to our Letter of Intent / Offer for the position of Programmer Analyst Trainee / Programmer Analyst aligned to the hiring category and in response to your subsequent confirmation for Internship Program with us, we are pleased to offer you an Internship with us for a **period of 3 to 6 months**, starting Dec 2021.

During this period, you will be provided with a stipend of INR 12,000 per month equated to the planned duration of the Internship curriculum and will be paid only subject to successful completion of milestones as defined in the curriculum prior to the monthly stipend processing window for a given month based on your performance and attendance.

Actual commencement of Internship dates and duration would be shortly communicated to you and the internship would be based on the business demand aligned to your skill tracks.

Though Cognizant Internship being a pre-requisite skill and capability development program, it does not guarantee employment. However, the successful completion of internship will form a critical part of your employment with Cognizant if an opportunity arises in future.

You will undergo a learning curriculum as per the learning track assigned to you. The learning path will include in-depth sessions, hands on exercise and project work. There will also be series of webinars, quizzes, SME interactions, mentor connects, code challenges, assessments etc. to accelerate your learning. The outcome during Internship would be monitored through formal evaluations.

Prior to joining on the rolls of Cognizant, you must have successfully completed the prescribed Internship program. In the event of unsatisfactory Internship, Cognizant reserves rights at its sole discretion to revoke its employment offer.

Please also note that:

- The Internship timings would be for 9 hours per day from Monday through Friday aligned to the working timings followed in Cognizant
- Interns are covered under Cognizant's calendar holidays of the respective location of internship and you would need to adhere with minimum attendance requirements. Prior approvals are must towards any unavoidable leave or break requests during the program.
- There would be zero tolerance to plagiarisms and misconduct during the internship. Any such incident reported will lead to immediate cancellation of internship without any notice.
- You would be required to ensure timely completion and submission of assignments, project work and preparation required prior to the sessions.
- You may be required, to travel to other locations within India if there is a business need as per your internship program
- Cognizant reserves rights regarding IT infra as applicable and access to information and material of Cognizant during the internship period and may modify or amend the Cognizant GenC program terms and conditions from time to time
- Stipend payment will be done for the prescribed Internship Curriculum period only and no additional payment will be done for any delay in completion.
- Attendance and successful completion of Milestone(s) are the eligible factors for processing stipend payment and tenure spent will not guarantee your monthly stipend payment.

Invite for Internship

Dear **ROSHAN B**
No:51 ,Mumbai Southern Roadways
Poonamallee,Chennai-600056

It gives us immense pleasure in inviting you for Internship training with Temenos India (P) Ltd in response to the recommendation placed before the organization by your institution. Internship training is one of the ways in which Temenos contributes to the cause of professional education by providing students an opportunity to receive on the job training with us.

1. **Stipend:** You will be paid INR **15000** per month as a stipend during internship training.
2. **Date of Joining:** **March 18, 2022 (MM/DD/YYYY)**
3. **Termination:** Fifteen Days' notice must be given should either party wish to terminate/discontinue the internship program. However, any misdemeanor or misconduct on the part of the Intern will justify immediate dismissal without notice.
4. **Training Hours:** 8 hours per day, 5 days per week (Mon to Fri). Working hours may be subject to change following business requirements.
5. **Place of work:** **Chennai**, India. You may however be required to take up assignments with subsidiaries of the group and/or our clients, which may include travel within India.
6. **Vacation:** You will be eligible for one day leave per month during the internship. Apart from this you will also be entitled to statutory public holidays announced by Temenos India.
7. **Confidentiality/ Non-Disclosure:** All matters, information or work undertaken by you in the course of your employment are confidential and you shall not release to third parties or make known any such matters, information or work without the prior written consent of the company.
8. **Training:** You will be provided adequate classroom training and the duration of training would be purely based on the business requirement. During the Internship period, if your performance is found to be unsatisfactory or if it does not meet the prescribed criteria, your training can be terminated by the Company with one week notice.

On conversion to Temenos employment, you need to sign the Training Agreement, which stipulates a condition that you have

Internship Letter

December 03, 2021

Dear Arthi,

Subject – Internship Letter.

Congratulations and Welcome to Ivy!

We are pleased to offer you an internship opportunity at Ivy Mobility Solutions Pvt Ltd, Chennai for a period of Six months (**14th Dec 2021 – 14th Jun 2022**). You will be working as an intern trainee in software Development team and will be paid stipend of **INR 15,000/- per month**, which would be paid after deductions of all applicable taxes.

We would also like to confirm that your performance will be evaluated on completion of Six months of internship, and you will be offered full time opportunity if your performance meets expectations and production of the degree completion certificate. You will be paid **INR 4,00,000/- per annum** as compensation as a full-time employee, a detailed compensation structure shall be provided at the time of issuing the offer letter.

During your term of internship, you will have access to company confidential information, and you would be handling sensitive information which will be limited to the product. You acknowledge and recognize that all confidential information is available to you, and you are expected not to divulge or pass over the same to anyone.

During this term If you are found non-performer, prohibited conduct, any Ivy policy violation your services may be terminated without notice. You will be responsible for safekeeping of company property and return in good condition which may be in your use or custody.

During the period of internship, you will be provided suitable training by the Company to equip yourselves to deal with the job for which you have been offered a position. The training and employment terms would also be governed by the following apart from the regular employment terms.

- a) Training would cover:
- a. Technology training specific to the area you would be working, this would involve internal trainers.
 - b. Mentorship by Senior Associates of the company investing significant time to ensure that you are trained well to deliver on the Job.
 - c. Such a training program which extends between 4 to 6 months will involve a significant investment by the Company and we intend to protect the interests of the company by means of the below:

Letter of Intent ("LOI")

Dear BALAMURUGAN C,

With reference to your interview conducted by us, we are pleased to inform that you have been shortlisted for the position of **Analyst** and **A4** with **Capgemini Technology Services India Limited** (hereinafter referred to as "Capgemini").

In this regard, we are proposing compensation package and benefits, the details of which are set forth in **Annexure 1** to this letter.

The final Employment Offer Letter shall be subject to your successful completion of all curricular requirements as laid down by the University/ Institute for award of the degree/ diploma and the minimum passing percentage/ grade/ rank/ class as determined by Capgemini.

The location of your initial reporting and training and the date of your joining would be communicated to you in due course of time post successful completion of your pre-joining trainings and final semester degree/ diploma examination.

The date of joining and the location of posting will be purely based on business requirements of Capgemini. Capgemini solely reserves the right to make any changes to the date of joining and the location of posting during the course of your training and employment with Capgemini.

Upon accepting this LOI, you will be provided access to the ADAPT (Accelerated Digital Aid for Pre-onboarding Talent) eLearning platform which allows you to learn and master the concepts and skills required to be industry ready. The learning will be a self-paced journey inclusive of assignments, assessments and webinars as deemed appropriate by Capgemini and the successful completion of the same is a prerequisite for joining Capgemini.

It is very essential that you effectively leverage this platform to complete the courses and clear the assignments and assessments. The progress made by you in this learning journey would not only help you in getting on-boarded on priority but also help you to be trained for advanced skills relevant to your career at Capgemini. We also encourage you to learn beyond the prescribed course curriculum and acquire industry recognized certifications to accelerate your career in this competitive industry.

PRIVATE AND CONFIDENTIAL

June 24, 2022

GURU VIGNESH K

**445, Vanniyar Nagar, Alagapuram periyapudur
Salem
, India.**

Dear GURU VIGNESH K,

Welcome to Mphasis. It gives me great pleasure to invite you to join the family of Mphasis.

We are pleased to offer you the position of a Associate Software Engineer, in **Band 5** and **Level 2** with our organisation. The gross compensation will be **INR 4,00,000/-** (Four Lakhs **rupees only**) per annum.

You are required to sign a training bond and agreement for **INR 1,00,000/- (Rupees One Lakh Only)** for a period of 24 months. This bond is applicable from your date of joining the company. The bond for the complete amount of **INR 1,00,000/- (Rupees One Lakh Only)** would be recovered if you resigned within 24 months.

At Mphasis we believe we have a historic opportunity of building a global world class company. We also believe we are very unique in several ways - our equal strengths in Applications, BPO and ITO; being a flat, open and communicative organization; our ethos that encourages, promotes and rewards empowerment; initiative; flawless execution and leadership. In return, we promise to provide you a platform to grow and fulfill your personal and professional goals. We look for professionals like you who would partner the future growth of the Organization. We are confident that with your skills, competencies and capabilities you would be a valuable addition to the team.

This offer of employment is contingent upon you fulfilling the background verification process that the organization will conduct.

We look forward to you joining us on June 24, 2022 at Pune. The reporting time is **9:00 AM**. You endorse your acceptance by duly signing the duplicate copy of this letter on all sheets at the bottom right corner and return to the undersigned by either mailing it or handing it over to us on the date of your joining.

Provisional Letter of Employment

Dear **Thanaraj Govindhan,**

Thank you for the keen interest you have shown in **KANINI Software Solutions** (a fully owned Subsidiary of KANINI Software Solutions Inc, USA). Consequent to your application and the subsequent discussions you had with us, we are pleased to offer you a Provisional appointment for the position of **Trainee Engineer**. A detailed offer letter showing all the terms of your employment will be provided up on your acceptance of this provisional appointment and completion of pre-employment activities.

Your annual cost to the company would be **INR 4,00,000**. A breakup of this would be provided along with your offer letter.

This offer is contingent upon the successful completion of a background check, verification of education, acceptance and signing of the employment agreement. Prior to your first day of employment, you will need to complete the "onboarding process" in a Workday. We will keep you informed about your joining date through email upon completion of pre-employment activities.

We would appreciate your confirmed acceptance of this offer in the enclosed format.

Looking forward to your joining with our "Winning Team".

With best wishes,

Yours sincerely,

For **KANINI Software Solutions,**

Indu Mohan
Assistant Manager - HR

TOP
FRESHERS

Dear D.Arun Prakash

Date : 3rd Dec 2021

Sub: Internship Cum Offer Letter

Thank you for exploring career opportunities with Topfreshers. You have successfully completed our selection process and we are pleased to make you an offer of employment. You have been selected for the position of Research Associate at Topfreshers Private Limited - Chennai. And your appointment will be governed by the terms and conditions presented below. Your Take home Salary will be Rs 7,000 P/M (Accommodation & Food will be Provided).

1. Place of Posting

You will be based at our office in Chennai. However, your services are transferable and you may be seconded or deputed to any operation under the management of Topfreshers, their parents, subsidiaries, affiliates or clients whether in India or abroad.

2. Probation Period

You will be on probation for a period of 6 months before the date of joining. The probationary period shall be extended to a maximum of 3 additional months before the date of joining, if the company feels necessary. During the probationary period we will evaluate your work, including your interaction with colleagues and customers (if applicable) to determine whether you are suitable for the position. If the probationary period is completed successfully, the notification will state that you are suitable for permanent employment. If it has not been executed successfully, necessary steps will be taken to inform you of the results and begin the termination process.

3. Notice Period

You may terminate your employment by giving Three months' notice in writing to the company, or by payment of Three months' base salary in lieu thereof. Company may terminate your employment by giving you one-month notice.

4. Miscellaneous Provisions

Arbitration: In case of any dispute between the parties arising under the Terms and Conditions of Employment or in any manner connected to it shall be settled through Arbitration under Indian Arbitration and Conciliation Act, 1996 by the sole Arbitrator to be appointed by the Topfreshers. The seat, or legal place, of arbitration shall be Chennai. The Arbitration award shall be final and binding upon the Parties.

You are requested to sign a copy of this letter and give it back to the company in token of acceptance of policy & procedures. Please note that the obligations under this letter of appointment starts immediately on you're signing and accepting the company's policy & procedures.

We look forward to welcoming you to Topfreshers

Yours sincerely,

Meyyappan Natarajan

Mr. Saravanan Venkatachalam
KSR College of Engineering,
Tiruchengode – 637215, Namakkal (Dist), Tamilnadu

Sub: Internship –reg

Dear Saravanan,

Think n Solutions takes pleasure in offering you internship at its development center located at HSR Layout, Bengaluru. This is an educational internship. Our goal is for you to learn more about software development.

As we discussed, your internship is expected to last from **04 Apr 2022 to 30 Sep 2022**. However, at the sole discretion of the company, the duration of the internship may be extended or shortened with or without advance notice.

During internship you will not receive any salary, wages, or other compensation except stipend of ₹10,000/- per month. In addition, you will not be eligible for any benefits that the company offers its employees, including, but not limited to leave, health benefits. You understand that participation in the internship program is not an offer of employment, however based on your internship performance you will be hired on rolls or extension of your Internship maybe provided.

During your internship, you may have access to confidential, proprietary, and/or trade secret information belonging to the company. You agree that you will keep all of

Dear Bhupesh,

We are pleased to make an offer at Cratoflow LLC as **Product Engineer - Trainee**. We look forward to having you join us on or before 16th May 2022. Upon successful completion of the internship, you will be evaluated for an offer of full-time employment. You will be based out of our office premises in Chennai, India.

Below are the details about the offer:

- The internship would be mandatory for a period of six months at our office premises. The stipend during the internship would be Rs. 10,000/- per month (Rupees Ten Thousand only).
- During your internship program, you may have access to trade secrets and confidential business information belonging to the Company. By accepting this offer, you acknowledge that you must keep all of this information strictly confidential, and refrain from using it for your purposes or from disclosing it to anyone outside the Company.
- In addition, you agree that, upon conclusion of your engagement, you will immediately return to the Company all of its property, equipment, and documents, including electronically stored information. You will, therefore, be required to sign the "Non-Disclosure Agreement" of our company on the first day of training.

Please sign the copy of this letter indicating your acceptance of the above terms and conditions of this offer and return the same to us.

We congratulate you for being selected for this internship program and look forward to offering a long, fruitful, and rewarding career with us.

Yours sincerely,

Letter of Intent ("LOI")

Dear Srisaran.E ,

With reference to your interview conducted by us, we are pleased to inform that you have been shortlisted for the position of **Analyst and A4** with **Capgemini Technology Services India Limited** (hereinafter referred to as "Capgemini").

In this regard, we are proposing compensation package and benefits, the details of which are set forth in **Annexure 1** to this letter.

The final Employment Offer Letter shall be subject to your successful completion of all curricular requirements as laid down by the University/ Institute for award of the degree/ diploma and the minimum passing percentage/ grade/ rank/ class as determined by Capgemini.

The location of your initial reporting and training and the date of your joining would be communicated to you in due course of time post successful completion of your pre-joining trainings and final semester degree/ diploma examination.

The date of joining and the location of posting will be purely based on business requirements of Capgemini. Capgemini solely reserves the right to make any changes to the date of joining and the location of posting during the course of your training and employment with Capgemini.

Upon accepting this LOI, you will be provided access to the ADAPT (Accelerated Digital Aid for Pre-onboarding Talent) eLearning platform which allows you to learn and master the concepts and skills required to be industry ready. The learning will be a self-paced journey inclusive of assignments, assessments and webinars as deemed appropriate by Capgemini and the successful completion of the same is a prerequisite for joining Capgemini.

It is very essential that you effectively leverage this platform to complete the courses and clear the assignments and assessments. The progress made by you in this learning journey would not only help you in getting on-boarded on priority but also help you to be trained for advanced skills relevant to your career at Capgemini. We also encourage you to learn beyond the prescribed course curriculum and acquire industry recognized certifications to accelerate your career in this competitive industry.

Internship Letter

December 03, 2021

Dear, Priyadharshini,

Subject – Internship Letter.

Congratulations and Welcome to Ivy!

We are pleased to offer you an internship opportunity at Ivy Mobility Solutions Pvt Ltd, Chennai for a period of Six months (14th Dec 2021 – 14th Jun 2022). You will be working as an intern trainee in software Development team and will be paid stipend of INR 15,000/- per month, which would be paid after deductions of all applicable taxes.

We would also like to confirm that your performance will be evaluated on completion of Six months of internship, and you will be offered full time opportunity if your performance meets expectations and production of the degree completion certificate. You will be paid INR 4,00,000/- per annum as compensation as a full-time employee, a detailed compensation structure shall be provided at the time of issuing the offer letter.

During your term of internship, you will have access to company confidential information, and you would be handling sensitive information which will be limited to the product. You acknowledge and recognize that all confidential information is available to you, and you are expected not to divulge or pass over the same to anyone.

During this term If you are found non-performer, prohibited conduct, any Ivy policy violation your services may be terminated without notice. You will be responsible for safekeeping of company property and return in good condition which may be in your use or custody.

During the period of internship, you will be provided suitable training by the Company to equip yourselves to deal with the job for which you have been offered a position. The training and employment terms would also be governed by the following apart from the regular employment terms.

- a) Training would cover:
- Technology training specific to the area you would be working, this would involve internal trainers.
 - Mentorship by Senior Associates of the company investing significant time to ensure that you are trained well to deliver on the Job.
 - Such a training program which extends between 4 to 6 months will involve a significant investment by the Company and we intend to protect the interests of the company by means of the below:

TO WHOM IT MAY CONCERN

This is to certify Mrs.V.PAVITHRA. (REG NO: 2061017) student of 2nd MBA In your college has Completed for her project work in our Organization Under the guideness of Mr.Gunasekaran.s. During the Project period from 04-04-2022 to 09-05-2022 Specialization of Marketing Management. We give opportunity her academic performance. She complete the project with the good manner. We wish all success in her future.

Thanking You.

Dear Sir/Madam,

SUB: Project Work Completion-REG

This is to certify **Ms. Roja Sujatha S B (Reg. No: 2061018)** student of second year MBA degree in **K.S.R COLLEGE OF ENGINEERING (AUTONOMOUS), TIRUCHENGODE**. She has Completed for her project work in our concern from 9th March 2022 to 9th May 2022 **Mr. M. SURENTHAR** from our Assistant HRM guided the student during the entire period of project.

During this period her conduct and character was found to be good. We wish him all success in the future endeavors.

Thanking you

For **SRI JAYA SHREE FOOD PRODUCTS,**

Abstract

The current work aims to advance the mechanical characteristics of concrete by replacing cement with a low volume fraction of nano-alumina particles and fine aggregate with nano-clay. The initial tests had piloted on the conventional concrete using varying fractions of nano-alumina particles in order to determine the optimal nano-alumina proportions for various curing times (1 week, 4 weeks, and 8 weeks). Then, the accompanying experiments using varied volume fractions of nano-clay with the determined optimal proportion of concrete nano-mixture were conducted. The results indicated that the optimal volume percentage in the concrete nano-mixture should be 2.0 percent nano-alumina particles and 3.0 percent nano-clay in order to achieve the greatest splitting tensile strength, and compressive strength. With the assistance of nano-alumina particles and nano-clay, the mechanical characteristics of the concrete were improved by around 30% effectively.

Keywords

Nanoconcrete; Alumina nanoparticles; Nano-clay; Mechanical strength of the nanoconcrete; Concrete nano-mixture

Nanotechnology is an emerging technology for the treatment of waste water. Nanoparticles have its own advantages as the higher surface area to volume ratio compared to the bulk material. In this study, zinc oxide-based nanoparticles were synthesized. Synthesized nanoparticles are characterized by UV-visible spectroscopy, Fourier transform infrared spectroscopy, scanning electron microscopy, and energy dispersive X-ray spectroscopy (EDX). The antibacterial study was carried out using the synthesized nanoparticle. The photocatalytic degradation for methyl blue, methyl red, and Orange G is also done in this study using the synthesized nanoparticles. The shape and size of the nanoparticles obtained are rounding spherical with 80 to 110 nm. The optimum result obtained from the dye degradation study is 94% for methyl blue.

1. Introduction

Nanometric zinc oxide can have many different forms. It can be found in structures that are one dimensional (1D), two dimensional (2D), and three dimensional (3D). Needles, helixes, nanorods, ribbons, belts, wires, and combs are among the most common one-dimensional structures. Nanopellets, nanosheet/nanoplate, and other two-dimensional structures of zinc oxide can be found [1]. Nanotechnology is the manufacture and application of materials on the tiniest scale possible [2].

Nanoscale particles have lately emerged as possible antibacterial agents due to its higher surface area to volume

ratio, which is attracting researchers, due to the development of microbial resistance to metal ions, antibiotics, and the generation of resistant strains.

The recent expansion in the field of porous and nanometric materials generated through nontraditional techniques has sparked interest in finding new uses for ZnO nanoparticles [3]. Zinc oxide is also a fascinating semiconductor material because of its use in solar cells, gas sensors, ceramics, catalysts, cosmetics, and varistors [4].

Zinc oxide nanoparticles are widely known for their antibacterial properties. Using the disc diffusion approach, Wahab et al. employed this feature to suppress *Bacillus subtilis* and *Escherichia coli* growth. The potential antibacterial

Batteries that have been used and thrown away are potential threats to the environment. The aim of the present study is to explore the bacterial bioremediation of the battery-contaminated soil. The battery contaminated soil sample was collected from the municipal compost yard, Vellalore, Coimbatore, Tamil Nadu, India. The *Bacillus* sp was isolated by the serial dilution method. The *Bacillus* strain was identified based on the colony morphology as well as the 16s ribosomal ribonucleic acid partial gene sequence and was designated the name HVRCB NR. It was deposited in the GenBank under the accession number *Bacillus* sp MZ959824. The bacterial growth was evaluated by measuring the optical density of the media (OD600), while the degradation was determined by FTIR analysis. The phytotoxic analysis was performed using *Trigonella foenum-graecum* to assess the toxicity of the battery waste before and after bacterial treatment. The spectroscopic study showed that the strain HVRCB NR achieved 83.6% degradation. The growth indexes of *Trigonella foenum-graecum* showed that the biodegraded soil was nonphytotoxic in comparison with the control. This study supports the degradability of the strain HVRCB NR, and this could pave a way for sustainable solution to battery contaminated soil treatment.

1. Introduction

Batteries are inevitable in this electronic era. They are employed in variety of applications such as digital clocks, watches, laptops, remote controllers, mobile phones, flash lights, and lot more. Concerns about the production and consumption of energy derived from fossil fuels have grown in recent years, in tandem with the rapid rise of the global population. As a result, there is a greater demand for the development of clean renewable energy sources in order to limit the usage of fossil fuels. In such a demand, batteries are now widely exploited right from military equipment to being

the power source of electronic vehicles [1]. Lithium-ion batteries have dominated the global market due to its superiority. With a short life span of about 2 to 4 years, lithium batteries substantially contribute to the increasing problem of electronic waste. Every year, tons of waste batteries are produced globally [2]. The hazardous components such as cadmium, lead, zinc, chromium, cobalt, and mercury released from the waste batteries serve a potential threat to the environment and pose health risk to the humans. Cobalt, copper, nickel, thallium, and silver have an impact on the environment and also possess toxic effect on human beings [3]. More metals, particularly manganese and zinc may be

Household greywater treatment using phytoremediation technology and CapsNet model

Neetha Delphin Mary Kulandaiswamy ·
Muralimohan Nithyanandam ·
Vijayalakshmi Palanivel

Accepted: 6 June 2022

Abstract

Aims and Background In recent decades, recycling of wastewater has received increasing attention among researchers, because it can satisfy the proliferating demand for groundwater and reduce water shortages in developed and developing countries.

Methods A deep learning technique, CapsNet, was developed to predict the optimal plant for household greywater treatment. Then, a greywater treatment system was developed by utilizing phytoremediation technology with horizontal flow wetland construction to utilize the final treated water for organic gardening.

Results Evaluation parameters like color, odor, temperature, pH, electrical conductivity, free residual chlorine, chloride, sulfate, *Salmonella* spp, Total Dissolved Solids (TDS), Total Suspended Solids (TSS),

oil and grease, sulfide, Chemical Oxygen Demand (COD), *E. coli*, Biochemical Oxygen Demand (BOD), and Nitrate Nitrogen were used to analyze the performance of the greywater treatment system.

Conclusion The experimental outcomes showed that *Typha angustifolia* achieved an effective outcome in greywater treatment compared with other plants, where most of the parameter values of the effluent were low compared with those of the influent. Most of the parameters like pH and TDS were higher than those of the groundwater aquifers, but fell within the world health organization safety limits.

Keywords CapsNet, Greywater · Horizontal flow wetland construction · Phytoremediation · Recycle · Removal efficiency · Water scarcity

Introduction

In the recent decades, water shortage is an emerging problem in arid and semi-arid countries such as India. The freshwater resources are increasingly getting depleted and polluted, on a global scale, which is a constant threat to sustainable development and the health of the ecosystem (Leal et al. 2010). The use of greywater treatment systems and domestic rainwater harvesting effectively reduces the demand for public water supply (Li et al. 2010; Donner et al. 2010). Especially, the greywater treatment systems play a crucial role in tackling the water shortage in India, and it is an important

Abstract

This paper presents an experimental study on the effective use of high calcium fly ash (HCFA) and dolomite powder in geopolymer mortar (GPM) and concrete. Trail HCFA GPM mixes were made with 10%, 20%, 30% and 40% dolomite powder. The alkaline liquids used for polymerization are sodium hydroxide (NaOH) and sodium silicate (Na_2SiO_3). To prepare different mixes, 8 M, 10 M, 12 M and 14 M concentration of NaOH solution, NaOH to sodium silicate ratio 2.5 and liquid to binder ratio 0.5 were selected. Ambient temperature was used to cure the specimens. Test results show that HCFA GPM mix with 20% dolomite powder and 14 M NaOH concentration yielded remarkably higher compressive strength with 41.95 MPa at 28 days than the other mixes. Further, experimental work on HCFA geopolymer concrete (GPC) using 20% dolomite powder demonstrated more excellent strength properties than those demonstrated by control mix cement concrete.

Q Keywords: High calcium fly ash dolomite powder geopolymer sodium hydroxide concentration ambient curing

Abstract: Orthogonal frequency division multiplexing is one of the efficient and flexible modulation techniques, and which is considered as the central part of many wired and wireless standards. Orthogonal frequency division multiplexing (OFDM) and multiple-input multiple-output (MIMO) achieves maximum spectral efficiency and data rates for wireless mobile communication systems. Though it offers better quality of services, high peak-to-average power ratio (PAPR) is the major issue that needs to be resolved in the MIMO-OFDM system. Earlier studies have addressed the high PAPR of OFDM system using clipping, coding, selected mapping, tone injection, peak windowing, etc. Recently, deep learning (DL) models have exhibited improved performance on channel estimation, signal recognition, channel decoding, modulation identification, and end-to-end wireless system. In this view, this paper presents a new Hyperparameter Tuned Deep Learning based Stacked Sparse Autoencoder (HPT-SSAE) for PAPR Reduction Technique in OFDM system. The proposed model aims to substantially reduce the peaks in the OFDM signal. The presented HPT-SSAE model is utilized to adaptively create a peak-canceling signal based on the features of the input signal. In the HPT-SSAE model, the constellation mapping and demapping of symbols take place on every individual subcarrier adaptively using the SSAE model in such a way that bit error rate (BER) and the PAPR of the OFDM systems are cooperatively diminished. Besides, to enhance the performance of the SSAE model, the hyperparameter tuning process takes place using monarch butterfly optimization (MBO) algorithm. A comprehensive set of simulations were performed to highlight the supremacy of the HPT-SSAE model. The obtained experimental values showcased the betterment of the proposed model over the compared methods in terms of bit error rate (BER), complementary cumulative distribution function (CCDF), and execution time.

Sažetak

In recent times, there is a continuous requirement of achieving high data rates owing to an increase in the number of devices and significant demand for various services with maximum reliability and minimum delay. It results in the development of fifth generation (5G) to offer better services with enhanced data rate. Recently, a major alternative to OFDM technology for 5G networks called universal filtered multi-carrier (UFMC) is presented where every individual sub-band is filtered that reduces the OOB radiation and eliminates guard band. But high peak-to-average power ratio (PAPR) is a crucial issue which arises from the utilization of several subcarriers to generate the time domain transmission signal. For resolving this issue, this paper presents a novel selective mapping with oppositional hosted cuckoo optimization (SM-OHOCO) algorithm for PAPR reduction in 5G UPMC systems. In the SM-OHOCO algorithm, rather than the generation of several random phase sequences, SM-OHOCO algorithm is performed iteratively to attain a better solution with few searching rounds, showing the novelty of the work. As the optimization of phase sequence in the SLM technique is considered as an NP hard optimization problem, the OHOCO algorithm is applied, which is derived by incorporating the concepts of the HOCO algorithm with oppositional based learning (OBL) strategy. To validate the effective performance of the proposed SM-OHOCO algorithm, an extensive experimental analysis is performed to highlight the improved performance in 5G networks. The resultant values pointed out the superior outcome of the proposed SM-OHOCO algorithm over the other existing methods in terms of distinct measures.

Abstract

Biomedical gene sequences are incompletely or erroneously annotated because of a lack of experimental evidence or prior functional knowledge in sequence datasets. Identifying the genomic useful selections instead of relying on correlations across large experimental datasets or sequence similarity remains a problem. This study proposes a fast conventional suffix feature pattern search (FcsFPs) algorithm for searching the gene sequence from expression data using fast feature pattern by measuring the conventionality of search accuracy from gene expression dataset. The aim is to obtain an efficient search algorithm. In this case, features from state matrix and sequence centres are described in the form of a string and the assignment of points to different sequences is done by suffix term search. Overall, the conventional pattern selection reduces computing complexity of fast gene search, improves the accuracy of searching accuracy, and reduces time complexity and the

Presently, there are more new kinds of requirements for the production of advanced ceramic elements in the engineering field. These ceramic elements are to be machined for a better surface roughness value. Surface roughness of the machined elements is one of the main machining characteristics which play a vital role in determining the high quality of advanced ceramic elements in engineering. In this work, some machining tests were done on the advanced aluminum oxide (Al₂O₃) ceramic work material using a silicon carbide (SiC) grinding wheel under different process parameters. A parametric analytical model was developed using the method of regression analysis by taking into account of four process parameters, such as depth of cut, feed, grain size and spindle speed. The effectiveness of the model is evaluated based on the comparison of experimental results with the regression analysis. The predicted values of surface roughness (R_a) and wheel wear (W_w) with minimum average error are in line to the results of the acquired experiment.

ABSTRACT

The present work explains the thermal comfort properties of cotton (100:0), bamboo (0:100), and cotton:bamboo (70:30, 50:50, 30:70) blended yarns/fabrics. The physical characteristics of cotton:bamboo (50:50) blended fabrics show the very closest properties of pure cotton yarn fabrics for the count of 30 tex. The proportion of bamboo fiber in the fabrics influenced the physical properties of the yarn such as areal density, fiber fineness, and other structural parameters. The plain-woven fabric generally aligned as 30 tex in warp direction for pure cotton yarn and 30 tex in weft direction for pure bamboo yarn. Similarly, the experiment is conducted for various proportions and noted that cotton in warp and bamboo in

Enhancing Security of Neurological Health Information Using Cryptography in Wireless Sensor Network

Abstract

Alzheimer's disease affects irreversible brain damage cells that control memory and reasoning. Owing to comparable brain patterns and pixel intensities, diagnosing Alzheimer's disease in elderly persons is challenging and necessitates a highly discriminative feature representation for classification. These representations can be learned from data using deep learning algorithms. To address these issues, previous research looks into the usefulness of rs-fMRI for multi-class classification of Alzheimer's disease and its phases, such as CN, SMC, EMCI, MCI, LMCI, and AD. To improve the image quality, some pre-processing procedures were used, including brain extraction, motion correction, intensity, normalization, spatial smoothing, high pass filtering, spatial normalizing, image registration, and 4D to 2D conversion. And then Alzheimer's disease multi stage classification was done by using Alex net and Resnet convolutional neural network. Existing research, on the other hand, hasn't concentrated on texture feature extraction. ResNet has proven to be successful in a wide range of applications, but one major drawback is that training a deeper network takes several days, making it unsuitable for real-world applications. Medical records, whether housed in health information systems, the cloud, etc. are critical. For such records, privacy and security must be ensured using encryption and authentication techniques that are not currently in use. To prevent these issues, this study used pre-processing techniques as brain extraction, motion correction, intensity, normalization, spatial smoothing, high pass filtering, spatial normalizing, image registration, and 4D to 2D conversion to improve image quality. And then texture feature extraction will be done by utilizing gray level co occurrence matrix (GLCM). Alzheimer's disease multi stage classification will be computed based on Alexnet and Googlenet models for Neuroimaging data is attained from Alzheimer's disease Neuroimaging Initiative (ADNI) dataset. And then all Medical records will be encrypted using Modified Advanced Encryption Standard (MAES) to provide security and then stored in cloud. Experiments show that the suggested model is effective with respect to encryption time, precision, recall, and accuracy.

Introduction

AD is perhaps is most frequent type of dementia and a degenerative brain disease. Dementia symptoms include memory loss and struggle in thinking, problem-solving, and language, all of which have a

significant impact on the patient's everyday life. Mild cognitive impairment is a phase of Alzheimer's disease that is characterized by considerable cognitive impairment without dementia.
