**MEMORANDUM OF UNDERSTANDING
FOR INSTITUTIONAL COLLABORATION
BETWEEN
TAMIL NADU FISHERIES UNIVERSITY, NAGAPATTINAM
AND
E.G.S.PILLAY ENGINEERING COLLEGE, NAGAPATTINAM**

The Memorandum of Understanding (MoU) between **TAMIL NADU FISHERIES UNIVERSITY (TNFU)**, Nagapattinam, Tamil Nadu, India (herein after referred as the "University") and **E.G.S. Pillay Engineering College, Nagapattinam** (herein after referred to as "College") is intended to facilitate from this day **22nd Aug. 2016**. The linkage hereby formed shall further assisted in achieving mutual relationship between both the parties in terms of developing institutional collaboration in education and research for the benefit of faculties and students in both the organizations.

Preamble

PROFILE OF TAMIL NADU FISHERIES UNIVERSITY

The Tamil Nadu Fisheries University, Nagapattinam (TNFU) is the exclusive professional University in fisheries established in June 2012 by the Government of Tamil Nadu. It offers Undergraduate, Postgraduate and Doctoral degree programmes in Fisheries Science and Undergraduate degree programme in Fisheries Engineering, conducts need based training programmes and undertakes research and extension activities in fisheries.

The specific mandates of TNFU are to conduct undergraduate, master's and doctoral programmes in various disciplines of fisheries science, technology and engineering, to establish Centres of Excellence in emerging areas of fisheries, to conduct refresher training programmes for fisheries developmental and extension personnel, to conduct basic and interdisciplinary research in fisheries, to conduct need-based capsule / vocational training on various technologies related to fisheries and allied disciplines, and to provide institutional support for consultancy and participation in sponsored projects and programmes with other institutions, agencies and industries.

PROFILE OF E.G.S.PILLAY ENGINEERING COLLEGE, NAGAPATTINAM

E.G.S.Pillay Engineering College is one of the pioneering non-grant engineering Colleges in the State. It was established by the G.S.Pillay & Sons Educational & Charitable Trust, Nagapattinam in the year 1995 with the sanction of the Government of Tamilnadu, approval of the All India Council for Technical Education, New Delhi and affiliation to Bharathidasan

University, Tiruchirapalli. Its courses are affiliated to Anna University, Chennai, from 2002 and the degrees are awarded by Anna University, as per the Government Orders. NAAC Accredited with 'A' grade and recognized by UGC under 2(f) and 12(B) status. EEE, ECE, CSE and Mechanical Departments are recognized research centre of Anna University, Chennai for pursuing PhD and M.S. (By Research) programmes and Anna University Nodal Centre for Quality Improvement Cell.

Scope of this Memorandum:

The University & the College have agreed for institutional collaboration in education and research. The primary objective is to promote interaction and collaboration between faculty, staff and students of the two institutions through visits and exchange programmes, carry out joint academic and research programmes, joint supervision of doctoral and masters students, on a reciprocal basis. The relationship also aims at enhancing the technological, social and cultural relations of both the organizations. This document presents a general framework for such a relationship. It also includes some specifically identified areas of cooperation, which, may be updated from time to time.

Coordination

The Dean, College of Fisheries Engineering shall be the Coordinator from the University and Dr. S. Ramabalan, Principal of the College shall be the Coordinator from E.G.S.Pillay Engineering College. The participants and Coordinators may change from time to time as decided by appropriate Authority of the respective institutions. The officially notified incumbents shall represent both the organizations respectively as per the notifications from the respective authorities.

Scope of Cooperation

The following areas of cooperation have been identified under this agreement.

(i) Faculty exchange programme:

The two parties will explore opportunities for interaction among members of faculties as well as creating Visiting Faculty positions. The total duration of visits from each side is expected to be approximately equal. Each such visit shall require approval of the respective institutions.

(ii) Student exchange programme:

The two parties agree to participate in student exchange programme at the respective institutions for appropriate and identified areas of academic and research importance. Visits under such programmes may be for a short duration, such as summer/winter terms or short courses, or for a longer duration not exceeding one semester. A detailed proposal

document of individual student exchange programme of longer duration has to be drawn and approved by the highest academic bodies of the two institutions before implementation.

(iii) Joint research projects:

The two parties will explore opportunities of undertaking joint research projects and may seek research funding from external funding agencies. Each such research proposal shall require approval of the respective institutions. Director of Research, TNFU and Research coordinator or Directors of the College at higher level have to jointly decide the research areas for collaboration.

(iv) Coordinated graduate degree programme:

Joint PhD/Masters programmes may be explored and formulated, possibly in association with other reputed academic, research or industrial organizations. A detailed document related to such programmes will be required and approved by the competent authorities of both the institutions, before implementation.

(v) Joint academic activities and events:

The University & the College may formulate joint academic activities such as short course, seminars, workshops or conferences based on mutual interests and available expertise in both the institutions. They may also share and carry out joint research in technology for distance and computer-based learning.

The areas of cooperation may be revised by mutual consent. However, specific programmes may require separate agreements detailed out and documented as annexure to this MoU.

Intellectual Property

Each institution will adhere to the intellectual property laws. Intellectual property developed during the visit of an exchange student/researcher/faculty/staff will be governed by the rules of the host institute unless otherwise specified. The two institutions shall jointly own results of clearly defined collaborative projects and exchange programmes. This joint ownership also entitles each party to explore commercialization. However, transfer of jointly developed technology and associated sharing of revenue shall be governed by a separate agreement.

Furthermore, if one institution receives any information from the partner under a clearly defined and non-disclosure agreement, necessary and reasonable care shall be taken to protect the intellectual property received.

Financing

The two institutions will consider allocating seed money to initiate this partnership. In addition they will also approach their own government and governing bodies, international funding agencies and industries. Special attention will be given to obtain funded projects from industry as well as from alumni to support such collaborations.

Both institutes will provide tuition fee waivers to the exchange students. The host institute will make arrangements for local living including accommodation, food, local travel, insurance etc. at reasonable costs to exchange students and faculty. Travel costs shall be borne by the home institution of the visitor.

Legal Status

This document is a statement of intent to foster genuine and mutually beneficial cooperation and is not legally binding on both the parties. Any disputes shall be resolved through mutual discussion. No legal status is attached.

Validity

This agreement is valid for an initial period of five years and becomes effective from the date it is signed by the partners. The partnership period may be extended by mutual consent. In case one partner wishes to terminate the MoU, intimation shall be sent at least six months in advance. However, specific commitments made prior to such intimation shall be honoured by both the partners. Deviations of any kind at any point of time falling within the scope of this MoU shall be mutually resolved based on consultation and appropriate meetings at both the organizations.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (herein after referred to as the "MOU") is made at NAGAPATTINAM (Place) on 04th day of February 2016 between Educational Institution located at NAGAPATTINAM represented herein by THE PRINCIPAL (herein after called "Educational Institution") and the Tamil Nadu Pollution Control Board (TNPCB) located at NAGAPATTINAM represented herein by its DEE Mr. A.RAJA (herein after called "TNPCB").

TNPCB is interested in establishing Continuous Ambient Air Quality Monitoring Stations (CAAQMS) in Tamilnadu with the participation of the Educational Institutions at 25 locations identified jointly by the TNPCB and Educational Institutions.

District Environmental Engineer,
Tamil Nadu Pollution Control Board
NAGAPATTINAM.

Dr. S. RAMABALAN, M.E., Ph.D.,
Principal
E.S.S. Pillay Engineering College
Nagapattinam - 611 002.

Role of TNPCB

- i. All the Instruments/Equipments will be purchased by calling Open Tenders by TNPCB.
- ii. They will be established in the identified places/stations by the TNPCB.
- iii. The rent if any fixed for the building identified for CAAQM Station will be paid by TNPCB after making agreement with the owner of the building for a minimum period of 5 years, which will be renewed by another 5 years or more as per the PWD rates at the option of TNPCB.
- iv. The initial three phase power supply provisions and telephone connection with internet facility for CAAQM Stations will be arranged by TNPCB. Internal wiring for the stations will also be arranged by TNPCB as per the requirement given by the O&M contractor.
- v. After complete establishment of the stations by the supplier, the stations will be handed over to the O&M contractor by getting indemnity bond prescribed for this purpose in the tender documents.
- vi. TNPCB will issue Operation and Maintenance Contract (Q&M) to the supplier to maintain the CAAQM Stations initially for 5 years which may be renewed to another 10 years (in 5 years package) or up to the life period of the analyser, whichever is later at the option of TNPCB.
- vii. The O&M payment will be made by TNPCB after getting necessary certificates from the respective Educational Institutions as prescribed in the tender documents and in the O&M conditions along with invoice of the contractor.

2.0 Role of Educational Institutions

- i. Educational Institutions will identify suitable buildings for the proposed CAAQM Stations in coordination with the concerned District Environmental Engineers of TNPCB and fix rent if necessary as per the PWD norms.
- ii. Educational Institutions will identify a qualified staff for daily maintenance of the CAAQM Stations to the satisfaction of O&M Contractor. The identified staff will be responsible to the O&M contractor for the purpose of O&M and the O&M contractor will pay to the Educational Institution the salary and other benefits for the employee. The identified employee shall be entirely deputed to the O&M contractor. The O&M contractor will

provide enough training to the staff for daily maintenance of the stations. After getting trained, the staff should maintain the station in co-ordination with the O&M contractor. They shall be deemed to be the employees of the educational institution and there shall not exist any employer employee relationship between TNPCCB and the workers employed by the Educational Institution.

- iii. Each station will be connected to the respective Educational Institutions by Internet by providing necessary softwares, computers and printers by the O&M contractor so as to monitor the stations whether they are working or not and also get the reports as per the formats prescribed for this purpose. The internet services only will be provided by the Educational Institutions. All 25 Stations will also be connected to the CAC, TNPCCB Chennai, and IIT, Chennai for data analysis.
- iv. The validated data generated by the O&M contractor from the stations will be utilized by Educational Institutions for source apportionment studies and suggest necessary action plans for abatement of pollution in the particular station by using air monitoring models. The TNPCCB and other experts will be associated in the project for this purpose as may be required for the studies.
- v. Educational Institutions must carry out periodic inspections of the CAAQM Stations and report whether O&M contractor maintaining the instruments as per the O&M conditions and validated data are obtained by scheduled/periodic calibration of the analysers. For this purpose, the inspection format prescribed should be maintained and furnished by the educational institutions along with the certified invoice of the O&M contractor for making payment by TNPCCB.
- vi. The suggested action plans if any from the Educational Institution shall be sent periodically to TNPCCB for the real time data obtained.

3.0 Role of Operation and Maintenance (O&M) Contractor

- i. The O&M Contractor will maintain the stations under the direct supervision for respective Educational Institutions and TNPCCB nominees identified for the stations in all aspects like periodic calibration of analyzers, security, housekeeping and insurance.

District Environmental Engineer,
Tamil Nadu Pollution Control Board
NAGAPATTINAM

Dr. S. RAMABALAN, M.E., Ph.D.,
Principal

All the recurring expenditure like AMC for instruments/analysers/A.C./UPS, electricity charges, insurance, security expenditure, manpower, housekeeping, monthly payment of internet and telephone charges etc. will be incurred by the O&M contractor during the O&M period.

4.0 The Educational Institution and O&M contractor shall mutually agree to carry out the above activities of air quality monitoring station identified for at least for 10 years.

5.0 The data generated is the property of the TNPCCB and it could be used by the Educational Institution for research purposes only with the consent of TNPCCB in writing.

6.0 Publication

6.1 TNPCCB recognizes that under its policy, the Educational Institution shall have the right, at its discretion to release information or to public any material resulting from the research provided that such material does not include any TNPCCB's Confidential Information and that such publication would not disclose or otherwise jeopardize any potential patent rights in technology developed hereunder. The data before publication shall be sent to IIT for validation.

6.2 The Educational Institution should ensure the safety of the data.

6.3 The TNPCCB will be given full credit and acknowledgement for any support provided to the Educational Institution in any publication resulting from this Agreement, unless requested otherwise by TNPCCB.

7.0 Intellectual Property Rights.

7.1 TNPCCB shall retain ownership of all Intellectual property developed and/or purchased by TNPCCB or on TNPCCB's behalf prior to this agreement and to all Intellectual property developed and/or purchased by or on TNPCCB's behalf without the activity participation of the Educational Institution.

7.2 Except for the rights expressly granted to the Educational Institution under this agreement, the TNPCCB will retain all rights, title and interest in and to the Intellectual property and proprietary rights.

1. PREAMBLE

E.G.S Pillay Engineering College, Old Nagore Road, Nagapattinam District – 611 002 offers Under Graduate Programmes and Post Graduate Programmes in the Engineering stream. The Institute is promoting research activities apart from imparting quality education to students from across the nation. E.G.S Pillay Engineering College is deeply concerned with the commitment of quality education by creating and promoting interaction with industries and research organizations to provide up to date training and knowledge to the faculty and students.

NI has worked with engineers and scientists to provide answers to the most challenging questions. Through these pursuits, NI customers have brought hundreds of thousands of products to market, overcome innumerable technological roadblocks, and engineered a better life for us all. NI works with the innovators of the world to develop smarter products and technologies. In this example, see how FireFly Equipment used the NI CompactRIO platform to save hundreds of thousands of dollars in development time and simplify the complexity of an extremely advanced smart machine. NI provides its customers with powerful, intuitive technology to create systems that improve the world and address the engineering challenges of today, as well as those yet to come.
