This has helped both the College Administration and the students by providing an online solution to all the technical skills needed for the Industry.

We have received very positive feedback from the students and which is why the college administration has shown faith in our online teaching model.

Under this partnership, we will be offering our foundation **courses worth INR 5000, free-of-cost** to the engineering students of your esteemed organization.

You can choose between any or both of these two courses:

4. The maximum wait time for support on doubt is 2 hours with more than 70% of doubts being resolved in the first 40 mins and more than 30% of doubts being resolved in the first 15 mins of the doubt being raised.

Monitoring Dashboards

We will share dashboards with the college management & faculties to regularly track the progress of students. Faculties can track performance across:

1. Attendance of students.
2. Activity in the batches.
3. The number of problems solved.
4. Percentage of course completed.

5. The number of doubts raised/resolved.

Dear Dr. Chandrasekar

It was a pleasure to have spoken to you. I appreciate Mr. Arifeen's effort and time in getting us introduced.

As a follow up to our discussion over the phone, I hereby like to introduce you Dr. Subbiah who heads Thinklabz . Thinklabz is part our group which was created primarily to provide trained resource in the Data Science Domain for our group companies. In addition, we would be happy to partner with institution to train and or create AI and Data Science curriculum based "Centre of Excellence"

Dear Dr. Subbiah,

I had a good discussion with Dr. Chandrasekar who is the CEO of EGS Pillay Group of Institution which has various colleges from Autonomous Engineering college , Arts & Science and Pharmacy College to just name a few. I believe EGS is looking to strike the right Industry /Institution partnership with organization that would have specific core-competency. Think Labz and Vere Technology are ideally suited to provide the necessary

Partnership for creating AI and Data Science related curriculum that would pave the way for a "Centre of Excellence " in the AI and Data Science space.

Additional long term agenda for the relationship would also include Training, Hiring and Module development for our products.

I suggest that we quickly agree on a quick introductory Google meet so we can put forth each other's proposition at a high level and get it started from there and see what are the next steps to achieve our common agenda.

Can we do this google meet post lunch coming Monday IST around 2 pm or please suggest alternative time but needs to be post lunch IST please.

Dear Sir/Madam

Covid-19 has transformed education, perhaps forever. Teachers and students are faced with the new reality that classroom based teaching might not be available for a long time to come and education will have to shift online.

Teaching online effectively while ensuring that students have great learning outcomes is not easy. This is more challenging than merely having a video conferencing software connecting teachers and students.

Great Learning's Olympus Digital Campus is an end to end solution, which enables educators to effectively move their teaching online. By taking care of responsibilities like planning and publishing course schedules, distributing course content, conducting live classes, monitoring attendance, giving assignments and quizzes, conducting proctored exams and much more, Olympus Digital Campus helps teachers devote their time and effort towards teaching without worrying about how the administrative tasks are done.

We invite you to Join us for an interactive online discussion and demonstration on **Teaching Online Effectively with Olympus Digital Campus**. As part of the session, we will cover:

- How can teachers deliver a high quality learning experience online?
- A live demonstration of the Olympus Digital Campus solution:
 - Witness the experience that students and teachers will have while using Olympus Digital Campus.
 - See first hand how Olympus Digital Campus will help teachers deliver a seamless experience as they move from classroom to online based teaching.
- How to get started with a free trial of Olympus Digital Campus?
