Summary on Company Specific training- “Krytops technologies”

This training was conducted for all the final year eligible students who are appearing for the placement drive. Total of 10 students of various departments were trained in this program by Training & Placement department on 04th July 2018. The objective of the training is to enhance students communication skills and Analytical reasoning. To crack the interview, the students need to perform well during the selection process adopted by the company he/she aspire to join. The training has been conducted for all the eligible department students with 5 hours per day. This training also helped the students to understand the interview process and also elaborated the deep insights of mistakes which candidates make while attending interviews and explained about overcoming those mistakes. These methods include

1. Aptitude & Logical reasoning
2. Resume Building
3. Verbal & Non Verbal communication
4. Corporate Etiquettes
5. Mock interview

It is very important for all the students to stay positive and confident during the interview. After the successful completion of this training, the students are able to enhanced their confident level, learned the various aspects of interview process and questions, how to make a very good impression on the interviewer & deep understanding of technical coding.

Report on “TCS ninja” training

Introduction:

This training was conducted for all the final year eligible students who are appearing for the placement drive. Total of 111 students of various departments were trained in this program by Training & Placement department on 20th August 2018.

Objective:

The main objective of the training is to enhance students communication skills and Analytical reasoning. To crack the interview, the students need to perform well during the selection process adopted by the company he/she aspire to join.

Outcomes:

The training has been conducted for all the eligible department students with 5 hours per day. This training also helped the students to understand the interview process and also elaborated the deep insights of mistakes which candidates make while attending interviews and explained about overcoming those mistakes. These methods include Aptitude & Logical reasoning, Resume Building, Verbal & Non Verbal communication, Corporate Etiquettes & Mock interview.

Conclusion:

It is very important for all the students to stay positive and confident during the interview. After the successful completion of this training, the students are able to enhance their confidence level, learned the various aspects of interview process and questions, how to make a very good impression on the interviewer & deep understanding of technical coding.
