Herbal Awareness Program on 06-03-2019

Medicinal plants and their extracts are natural resources of compounds used for ethnomedical and phytotherapy. They are also a source of natural product used in the new related compounds and drugs for conventional medicine. The increasing treatments interest herbal medicines requires a comprehensive assessment of research data in this field to held focus future efforts . Medicinal plants will be useful for Maternal and Child health care, as essential drugs, in food and nutrition, for common illnesses and injury, for endemic infectious diseases, mental health and oral health

Self defence training for NSS Volunteers on 05-03-2019

It is important to provide self-defence training to them in the college to ensure their safety and security. Self-defence training is a life skill that helps girls and also boys to be more aware of their surroundings and be prepared for the unexpected at any time. Through the self defence training, the girls are taught to become psychologically, intellectually and physically strong enough to protect themselves in times of distress. Self defence training techniques instills self confidence amongst girls and helps to promote girls education particularly their transition to school level to college level and to improve the education level. This training is given by trainer Mr. S.Sakthivel. nearly 50 studets of volunteers participated in this training.

Yoga Program on 04-03-2019

Students of all professional courses are under stress amongst which engineering curriculum is rated as one of the highest. Yoga is a perfect complement to student's lives. The physical practice is a great relief to lengthy periods of being stationary when students are studying, and there are also many benefits for the mind and relieve from stress and anxiety. Many studies have indicated that the students experienced a reduction in stress and anxiety levels after inclusion of regular practice of yoga and can have a significant change in the lifestyle of an engineer by allowing them to maintain their health as well as relieving them from their day-to-day stress. Considering the long-term effects of the engineering profession on one's health, it is crucial to know the awareness levels about yoga and its benefits amongst engineering undergraduate and post-graduate students towards ensuring physical, mental and psychological well-being. With this objective, NSS of E.G.S. Pillay Engineering College conducted a Yoga program on 04-03-2019 for second year students (around 50 students). Mr. Pandian, Yoga Master/EGSPEC conducted the class by performing yoga poses in precise alignment, using the correct terminology, and safely guiding students through the flow of the practice. He guided students to "connect to breath" while conducting a series of physical and mental exercises. Students participated in the class reported increased levels of relaxation, greater perspective of their lives, more focus, and feelings of empowerment.

Yoga Program on 04-03-2019

Consumer awareness Program on 09-01-2019

In E.G.S. Pillay Engineering College, the National Consumer Day is celebrated on 09-01-2019 with an aim to spread awareness about consumer rights and the power of a consumer. In India, to keep the integrity of consumers and protect them from malpractices, a set of rights is conferred to every citizen under the Consumer Protection Act. The day provides an opportunity for students to highlight the importance of the patronage movement. This day provides an opportunity for opportunity to make more aware of the importance of consumer rights campaign and their rights and responsibilities to every consumer. As part of this initiative, E.G.S. Pillay Engineering College has created awareness among students and staff about consumer rights and the power. Dr. V. Sivaramakrishnan, Program officer/ NSS delivered lectures on “**Consumer Protection**” for students.

Dr.Abdulkalam Birthday -Tree Plantation Program on 15.10.2018

Trees contribute to their environment over long periods of time by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe. Climate change, global warming, climate protests – these are not just buzz words, these are the words used by the younger generation to raise their concerns about our environment and it is time that everybody started listening to their message. Tree Plantation Program for Dr.Abdulkalam Birthday conducted on 15.10.2018 at EGSPEC. Our college Principal Dr.S.Ramabalan sapling planted at our college. Tree plantation program organized by Dr.V.Sivaramakrishnan, NSS Program officer. Tree plantation program nearly 100 NSS volunteers and NSS program officer participated.
