TECHNICAL TRAINING FOR PRE – FINAL STUDENTS ON 01.11.2021

Dr. S. RAMABALAN, M.E., Ph.D.,
PRINCIPAL
E.G.S. PILLAY ENGINEERING COLLEGE
NAGAPATTINAM - 611 002

Event Report

Technical Training for Pre – Final Students

Introduction

Technical Training was organized for the students of various streams B.E CSE, ECE, B.TECH IT & MBA by the Training & Placement Department. The training has been conducted on the C++ Programming language on 01.11.2021. Around 50 students were benefited from this training.

Objective

The objective of this programme is to provide opportunity for students to enrich their knowledge in the area of C++ Programming. It has provided a vibrant opportunity for students in the recruitment phase and to enhance their programming skills.

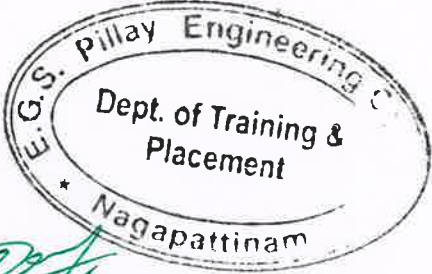

Technologies & Tools

C++ is a cross-platform language that can be used to create high-performance applications..C++ can be found in today's operating systems, Graphical User Interfaces, and embedded systems. This course is based on hands-on exercises and is focused on developing Programming and Logical skills. This training has covered the following topics to the students

- Introduction to C++
- Difference between C & C++
- OOPS
- C++ Classes & Objects
- Class methods

Conclusion

Students got an idea to code and run C++ Programming. All the students really appreciated the contents that were discussed, and they understood the basics of C++ programming in detail. Students understood that C++ is portable and can be used to develop applications that can be adapted to multiple platforms.

Summary on E-BOX Training for Pre Final Years Students on 29th November 2021

The Training & Placement department along with E-Box has conducted the training for the pre final year students. The event was organised by Dr.S.Chandrasekar, CEO, EGSPGOI to provide a vibrant opportunity for students in the recruitment phase and to enhance their programming skills. The training was held on 29.11.21 and 154 students were participated in this training.

The objectives of this training were to expose the participants to evaluate and to enhance the technical skills of the students. This program also helped the students to understand the interview process. It has provided a vibrant opportunity for students in the recruitment phase and to enhance their programming skills.

E-Box training provides practice tests and creates a platform for the students and the college/school authorities to access actionable analytics. It helps the Training & Placement to generate Report Analysis. It also schedule MCQ/ Programming test and monitor student activities. This platform provides hands on experience to students and provide practices in C, C++, JAVA and Python.

This programme has given a detailed knowledge about E-Box and its helping the students to prepare for campus Interview by conducting daily challenge and test for regular practice. Students will get the E- Certificate after the successful completion of the training which could be added in their resume & profiles.

Event Report on Top Fresher's Training

Introduction

Top Freshers Training was organised to evaluate and enhance the advanced programming language of the students. The Training & Placement Department has conducted this training on 24.02.2022 and around 50 students were participated in this training. Mr. Meyyappan Nataraj, Managing Director, Terv Pro - Most progressive Tech & Design institution has shared a knowledge of Java Programming and JavaScripts to the students.

Course Objectives

The objective of this training is to provide opportunity for students to enrich their knowledge in the area of Object Oriented Programming using JAVA Language. This workshop will provide a vibrant opportunity for students in the recruitment phase and to enhance their programming skills.

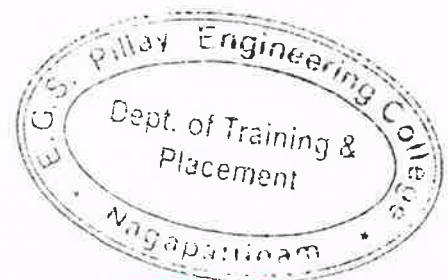

Technologies & Tools

Java is a general-purpose computer programming language that is concurrent, class-based, object-oriented, and specifically designed to have as few implementation dependencies as possible. The topics covered in the two days session are

Introduction to JAVA
OOPs Concept
JDK, JRE, JVM
Classes and Object
Instances (Variables and Methods)
Constructor

Conclusion

In this training, the students were introduced to topics in JAVA Programming. Students got an idea how to write and run JAVA Programming. Students learnt to write, compile and execute Java programs using Java's object-oriented features.

Mobius Training – Programming

Dr. S. RAMABALAN, M.E., Ph.D.,
PRINCIPAL
E.G.S. PILLAY ENGINEERING COLLEGE
NAGAPATTINAM - 611 002.

Summary on MOBIUS TRAINING –Programming 23rd March -24th April 2022

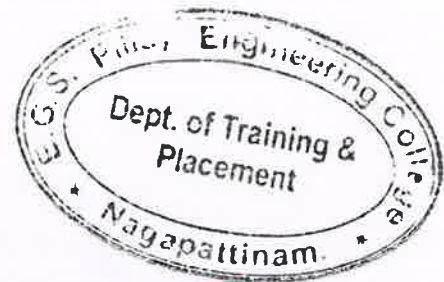

Mobius Company specific training was organized from 23.03.2022 to 24.04.2022 by Mr.Dharmaraja, Technical Trainer, Mobius knowledge services. The training has been conducted for the shortlisted students during the campus drive. Total of 14 students were benefited from this training.

The objectives of this training were to train the employees about their domain and to integrate the new hires into the company culture while providing them with the resources they need to be successful in their roles.

Training also explained about the company's values, mission and goals. There are several training practices that can help make new employee training more effective and beneficial for everyone involved.

- focuses on the tasks and goals related to the position
- day-to-day responsibilities and tasks
- what is expected of them and how their progress will be evaluated.
- how to be successful in their individual role

Students who have received training upon being hired experience many benefits, including increased confidence, familiarity with company policies and procedures and specific insight into their new role. This helps eliminate the uncertainty and low morale that candidates may feel when they're not adequately supported in their first days and weeks on-the-job.

Event Report

Technical Students - Self Learning

Introduction

Technical Training was organized for the students of various streams B.E CSE, ECE, B.TECH IT & MBA by the Training & Placement Department. The training has been conducted on the C++ Programming language on 01.11.2021. Around 50 students were benefited from this training.

Objective

The objective of this programme is to provide opportunity for students to enrich their knowledge in the area of C++ Programming. It has provided a vibrant opportunity for students in the recruitment phase and to enhance their programming skills.

Technologies & Tools

C++ is a cross-platform language that can be used to create high-performance applications. C++ can be found in today's operating systems, Graphical User Interfaces, and embedded systems. This course is based on hands-on exercises and is focused on developing Programming and Logical skills. This training has covered the following topics to the students

- Introduction to C++
- Difference between C & C++
- OOPS
- C++ Classes & Objects
- Class methods

Conclusion

Students got an idea to code and run C++ Programming. All the students really appreciated the contents that were discussed, and they understood the basics of C++ programming in detail. Students understood that C++ is portable and can be used to develop applications that can be adapted to multiple platforms.

Summary on E-BOX In-person Training on 9th May-14th May 2022

The Training & Placement department along with E-Box has conducted the training for the pre final year students. The event was organised by Dr.S.Chandrasekar, CEO, EGSPGOI to provide a vibrant opportunity for students in the recruitment phase and to enhance their programming skills. The training was held on 29.11.21 and 154 students were participated in this training.

The objectives of this training were to expose the participants toto evaluate and to enhance the technical skills of the students.This program also helped the students to understand the interview process.It has provided a vibrant opportunity for students in the recruitment phase and to enhance their programming skills.

E-Box training provides practice tests and creates a platform for the students and the college/school authorities to access actionable analytics. It helps the Training & Placement to generate Report Analysis. It also schedule MCQ/ Programming test and monitor student activities. This platform provides hands on experience to students and provide practices in C, C++, JAVA and Python.

This programme has given a detailed knowledge about E-Box and its helping the students to prepare for campus Interview by conducting daily challenge and test for regular practice.Students will get the E- Certificate after the successful completion of the training which could be added in their resume & profiles.
