TO WHOMSOEVER IT MAY CONCERN

Our institution has a practice of disseminating information via circulars for all training and placement-related events. The information shall be disseminated to all levels of the organization so as to enable the respective stakeholders and beneficiaries to effectively, undertake and carry out the allotted tasks. However, during the paradigm this process was slightly altered and we began disseminating event and training information through official Whatsapp groups and emails.

E-brochures were used for online webinars replacing the circulars, during the Covid Pandemic.

Event pictures were captured through print screen and camera as part of the documentation process till the academic year 2021. Geo-tagging images has been included as part of the photo capturing from the academic year 2022–2023 onwards. The attendance for offline activities are collected by signing attendance sheets and for online training and events feedback form were collected through Google form and are used as attendance. Event report is summarized and is presented along with the event artifacts.

Request the NAAC to consider the above artifacts collected through Offline and Online.
