Recommendation for further actions based on feedback and attainment calculation

1. As we got very good feedback in topic coverage and relevance of this seminar, further more we can arrange more relevant and current trend topics seminar
2. Since Objective of the seminar is clearly defined and quality of delivered content is very good, we will arrange more seminars with same resource person
3. Seminar material is useful but need more clear and in depth concepts we will make more easy materials for understanding and future reference
4. Due to reach of Expected level in program, we will keep arranging similar programs
5. From the students feedback of welcoming , this programme can be conducted for upcoming batch students.

Prerequisites:

- ❖ Prior knowledge of high school mathematics and electronics is expected. No prior exposure to Lavity is required. Understanding of electronics concepts like design components are a plus.

Infrastructure Requirements:-

- ❖ We request a conference room or a computer lab with a projector. Attendees would need to have access to Optsim activity for attendees is also necessary.

Required for Onramp Sessions:-

- ❖ Good internet connection with Computer

Outcome:-

After attending this workshop, attendees should be able to:

- ❖ Understand Optsim fundamentals for Engineering Applications.
- ❖ Understand at a high-level, the terminology used in Fiber optic communication
- ❖ Learn how to apply fiber optic sources and detectors applications.
- ❖ Be aware of all the tools from the Optsim that help in exploring Optical communication,
