SUMMARY OF THE PROGRAMME

The event was arranged to help the students to expand their knowledge on application of statistical tools in management.

Ms.R.Seetha delivers the content regarding the basic statistical tools in research and data analysis. She explained about how to set hypothesis and correlate the dependent variable and independent variable. She also explained how the statistical methods involved in carrying out a study include planning, designing, collecting data, analyzing, drawing meaningful interpretation and reporting of the research findings.

OBJECTIVES & OUTCOMES

LEARNING OBJECTIVES

This lecture aims at developing an understanding of the application of the statistical tools in management. It aims at providing an in-depth knowledge of the statistical analysis in research. Specifically, the course aims to

1. Motivate the students an essential interest in statistical thinking.
2. Instill the belief that Statistics is important for scientific research.
3. Provide a foundation and motivation for exposure to statistical ideas subsequent to the course.

LEARNING OUTCOMES

Student Learning Outcomes: On the successful completion of this course the student will be able to:

Distinguish between types of data

- Assess which methods for summarizing a data set are most appropriate to highlight interesting features of the data.
- Identify the features that describe a data distribution.
- Use an appropriate software tool for data summary and exploratory data analysis.

GROWTH AND COMPETITIVENESS OF ENTREPRENEURSHIP**

BY

Prof. Dr. MBM. ISMAIL,

Professor In Management

Department of Management

Faculty of Management and Commerce

South Eastern University of Sri Lanka

Oluvil, Sri Lanka

Summary of the Program:

The session commenced about 10.30 AM at Board Room, Prof. Dr. MBM. Ismail was honoured by the Principal and the Director of the Department of Management Studies. The immaculate lecture of Prof. Dr. MBM. Ismail made every student concentrate and grasp the session about entrepreneurship. The session went with a good interaction between the lecturer and the students. He presented his lecture on the importance of entrepreneurship, challenges in entrepreneurship and the growth and competitiveness of entrepreneurship. One of the students of 1st year MBA voiced the feedback and importance about the session. Thanking the Principal and the Director of the Department of Management Studies for organising such an enlightening guest lecture, students returned to their classes by 11.30 AM.

This lecture was arranged by keeping an objective in mind that students should

- Have an awareness about entrepreneurship,
- Know the challenges, risks and benefits in entrepreneurship and
- Understand difference between working as an employee and an entrepreneurship and the advantages and disadvantages.

At the end of the session, the expected outcome of the guest lecture was satisfied. Our guest speaker Prof. Dr. MBM Ismail made our students understand about entrepreneurship and its risks, challenges and benefits and the disadvantages and advantages with examples of successful entrepreneurs around the world.

REPORT

A two days **IMPACT OF OUTCOME BASED EDUCATION FOR ENGINEERING STUDENTS** organized by Internal Quality Assurance Cell & Research and Development Cell. The Programme was inaugurated in the fine morning on 18th January 2019. The Head of the Department, **Dr. B. Padmanaban**, started this course with his welcome address. **Dr. M. Chinnadurai – Controller of Examinations** gave the special address. Our esteemed **Principal Dr.S.Ramabalan** presented the inaugural address and finally our chief Guest **Dr. J. Karthikeyan, Coordinator-ISTE Southern Region** has explicated about **Outcome based education** in his unique way.

- On 18th January 2019, in the forenoon session, **Dr. J.KARTHIKEYAN COORDINATOR – ISTE SOUTHERN REGION** explained about the **Recent scenario of OBE**
- In the afternoon session **Dr. K. Mathiyazhagan, Asso.prof** explains about the **OBE for student behavior** and he highlighted the entire much needs gracefully.
- On 19th January 2019, in the forenoon session, **Dr. S. Albert Alexander, Professor - EEE**, explained about **Course Outcomes and Program Outcomes and mapping techniques**.
- In the afternoon session briefly explained about **Course Outcomes and Program Outcomes**.

Finally, the **IMPACT OF OUTCOME BASED EDUCATION FOR ENGINEERING STUDENTS** programme came to a close, with the summary of the whole programme was given by **Mr.S. Senthilkumar, AP** ECE proposed the **IMPACT OF OUTCOME BASED EDUCATION FOR ENGINEERING STUDENTS** note of thanks in style.

TEST QUESTIONS

Each Question carry one mark

1. In an OBE classroom, all activities are designed to _____
 - a. maintain student comfort zones
 - b. produce a busy classroom
 - c. achieve specific goals
 - d. maintain order
2. Number of knowledge levels defined by Bloom's
 - a. 3
 - b. 4
 - c. 5
 - d. 6
3. The first component of writing a student learning outcome is to ...
 - a. all of these answers are correct
 - b. pull out all of your old learning objectives and dust them off
 - c. determine what assessments you will use
 - d. use the standards to identify the skills or products students need to be able to perform or produce
4. Approaches for designing outcome based learning are
 - a. Systematically design and develop outcome based curriculum
 - b. Include references to appropriate learning materials for all defined outcomes. Include case studies, unsolved problems and resources for the respective outcome
 - c. Include adequate number of nontrivial practice problems, assignments etc. matching every course outcome to allow students to test their learning success
 - d. Provide coaching to the learner to get the highest grade/marks in the examination

5. What kind of assessment can be used in OBE?
- Multiple choice Questions
 - Essay type questions
 - Oral presentation
 - Group Discussion
 - All of the above
6. Factual, Conceptual, procedural are comes under _____ type (Knowledge or Co)
7. Outcome Based Education gives more important to _____ (Theory or Practical)
8. Number of program outcomes are 12
9. By considering MCQ, which of the followings are not wrong?
- Easy and quick grade
 - Reduce some of the burden of large classes
 - Familiar to students
 - Difficult and time consuming process
10. To get NBA accreditation for a institution, OBE is compulsory (True / False)

Recommendation for further actions based on feedback and attainment calculation

1. Feedback about topic coverage and relevance of this two days technical seminar is very good, further more we can arrange more seminars like this one.
2. Objective of the seminar is clearly defined and quality of content delivered is very good, so we will arrange more seminars with same resource person.
3. Seminar material is useful for understanding and future reference.
4. Due to reach of Expected level in program, we will keep arranging similar continuously.
5. From the positive feedback of participants, this programme can be conducted for upcoming batch students.

**REPORT FOR ONE DAY WORKSHOP
ON
IOT APPLICATIONS USING ARDUINO**

A One day workshop was organized by the Department of Computer Applications, EGSPEC, on 31st December 2018. The topics of the programme are Internet of Things. The aim of the workshop was to provide the students opportunities to become to develop the IOT projects as well as to know the foundation of IOT and also improve their knowledge in the fields of IOT. One Day National Level workshop on IOT Applications Using Arduino We, at MCA Department, 31st December 2018.

IOT WORKSHOP OBJECTIVES: This program aims at providing an opportunity for participants to enrich their knowledge and skill in developing various solutions for solving engineering problems in the society. This program serves as a platform for research scholars, faculty, engineers and students to interact on cutting edge technologies in IoT. The Internet of Things (IoT) has evolved from the convergence of wireless technologies, microelectromechanical systems (MEMS) and the Internet. By connecting „things“ in the real world such as cars, buildings, and industrial equipment, IoT promises to revolutionize how we live and work.

The IoT market is likely to experience around 28% year-on-year growth, rising to 5.4 billion connections across the globe by 2020, counting cellular, fixed line, satellite and short range wireless connections, up from 1.2 billion devices in the year 2014.

KNOWLEDGE AND UNDERSTANDING AFTER COMPLETION OF THIS PROGRAM:

Knowledge and understanding of fundamental IOT paradigms, architectures, possibilities and challenges, both with respect to software and hardware, A wide competence from different

areas of technology, especially from computer engineering, robotics, electronics, intelligent systems. Learn the basics of Internet of Things and its applications.

What “the Internet of Things” means and how it relates to Cloud computing concepts

- How open platforms allow you to store your sensor data in the Cloud.
- The basic usage of the Arduino environment for creating your own embedded projects at low cost.
- How to connect your Arduino to your Android phone.
- How to send data to the Internet and talk to the Cloud.
- How to update sensor readings on Twitter (Social Networking Sites).
- Control a Relay Switch by texting from your Phone.
- Benefits/Takeaways / Motivation: Hands on experience on IOT using Arduino/Raspberry Pi
- The certificate of Participation in association with Cognizance IIT-Roorkee.
- Top participants will be awarded as winners with the.

Now days this has become very popular and essential need of the society. So we organized the workshop for our students, they utilized in proper way. The workshop was attended by 68 students. Mrs. A.Hema, Assistant Professor and Mr.P.Arunkumar, Assistant professor in the Department of MCA, are the coordinators of this Workshop.

The resource persons are Mr. R.Ramanan, Technical Assistant, Department Of Computer Science, E.G.S.Pillay Engineering College, Nagapattinam.

DEPARTMENT OF MCA

JAVA PROGRAMMING CONTEST

ON

24.12.2018

SUMMARY REPORT

OBJECTIVE

The programming contest is a great opportunity for our MCA students to demonstrate their skills in problem solving and programming. During this contest, group of students from our mca department to compete against each other and try to solve the maximum number of problems in the shortest period of time. Members of the same group will collaborate to analyze the problems, propose solutions and implement them.

COMPETENCY SPECIFICATION

The contest will run for Half day session where the first day. Students compete with each other. Each students has to solve a set of problems that will be given during the contest and this will be done using one computer per student. Solutions involve writing programs using JAVA. solutions' are run against a sample test data and then the output will be compared to that of a Judges' program output. Students are ranked based on the number of problems they managed to solve, they want to show their output to the judges and the penalties they accumulated. Penalties reflect the time taken to solve a problem and the number of failed attempts.

RULES FOR THE COMPETITION:

- Contestants should not leave the competition during the contest time.
- Students should solve as many problems as possible from the set of problems given during the time.
- Each student will be assigned only one computer
- Student can write programs in JAVA.
- The use of Internet is not allowed.
- Machine-readable versions/devices (computers, pocket calculators, mobile phones, CDs, flash memories, floppy disks ...) are not allowed in the contest hall.
- Students are not allowed to rebooting computers under any circumstances during the contest.
- Any technical problems should be reported to the judging committee.
- Solutions are judged by running them using PC2 . • The contest judges are solely responsible for determining the correctness of the submitted solutions; their decision is final.
- Students are ranked according to the number of problems solved and the duration it took the student to solve them. Students who solve the same number of problems are ranked by least total submission time.
- Printers are provided in the contest room.
- Contestants requiring any kind of help should remain seated while being assisted by a contest staff.
- Any Student attempting to communicate with other student, to tamper with the machines, or disrupt the contest environment in any way will be disqualified.

CONTEST ENVIROMENT

- The contest operating system environment is Microsoft Windows 7.
- The programming languages will be JAVA.
- Contestants who choose to use these IDEs must be aware

ABOUT THE INSTITUTION

E. G. S. Pillay Engineering College (Autonomous) is one of the pioneering non-grant engineering Colleges in the State. It was established by the G. S. Pillay & Sons Educational & Charitable Trust, Nagapattinam in the year 1995 with the sanction of the Government of Tamil Nadu, approval of the All-India Council for Technical Education, New Delhi and affiliated to Anna University, Chennai. The college has accredited by NAAC with 'A' Grade and all the UG programmes are accredited by NBA. The College has earned the reputation of being one of the most preferred colleges by the students and parents all these years. Known for its excellent infrastructure and facilities for learning, the outstanding non-grant engineering college has registered impressive performance consistently. A gate-way to success, the college has now set on long-range planning to enlarge and enrich its programs and activities to empower the youth who aspire to become successful Engineers, Scientists and Managers. A gate-way to success, the college has now set on long-range planning to enlarge and enrich its programs and activities to empower the youth who aspire to become successful Engineers, Scientists and Managers.

Vision

Envisioned to transform our institution into a "Global Centre of Academic Excellence"

Mission

- ✓ *To provide world class education to the students and to bring out their inherent talents*
- ✓ *To establish state-of-the-art facilities and resources required to achieve excellence in teaching - learning and supplementary processes*
- ✓ *To recruit competent faculty and staff and to provide opportunity to upgrade their knowledge and skills*
- ✓ *To have regular interaction with the industries in the area of R&D and offer consultancy, training and testing services*
- ✓ *To establish centre of excellence in the emerging areas of research*
- ✓ *To offer continuing education and non-formal vocational education programmes that are beneficial to the society*

Department Vision

The department is envisioned to produce globally competent electrical and electronics engineering

Department Mission

- ✓ To impart the contemporary knowledge in the field of electrical and electronics engineering with high human values
- ✓ To offer state-of-the-art facilities for conducive learning and conducting research
- ✓ To train the students for professional career and higher education by imparting self-learning and interpersonal skills.

VALUE ADDED COURSE

On

Industrial and safety management 2018

About the institution :

Our college is offering value added courses for all the students intended to provide additional learner centric graded skill oriented technical training. The courses enhance the ability of students in their respective domains and progress in their respective field of studies.

About the department:

Our department intends to provide additional technical knowledge and ensure the active participation of students to practice in the multidisciplinary tasks and core related areas .

Course period:

18.12.2018 to 22.12.2018

Course instructor:

Mr.K.Manimaran, Trainer
National Institute of occupational safety and fire safety management

Objectives

Objectives of providing value added courses are to

- Gain knowledge from the subject experts
- Meet the expectations of industry
- Improve the employability skills of the students

Courses Structure

- ✓ Industry experts / eminent academicians from other Institutes/ Subject Experts from the respective departments teach the value added course
- ✓ The registration for the courses will be done at the beginning of academic year
- ✓ The duration of each course is 40 hours of Theory / Practical / Both

Expected Outcomes

Students will be able to

- Demonstrate their technical and communication skills
- Apply the novel technologies in their respective fields
- ✓ Face the challenges in the current industry scenario

Evaluation & Result

Evaluation of value added courses shall be carried out annually for 100 marks. Students will be given certificates with the grades based on the marks scored in the Examination.

REPORT

A one week value added course has been organized by the department of electrical and electronics engineering department for the final year students (2016-20) entitled "INDUSTRIAL & SAFETY MANAGEMENT" which was commences on 18.12.2018 and ended 22.12.2018. This value added course was conducted by NIOS Fire&safety management studies director Mr.K.Manimaran, along with his team for the one week of period. The main purpose of conducting this course for the final year student is to ignite student to develop interpersonal skills on industrial management and study the safety measures and codes adopted in the industries. The course comprises theory, demo and field visits in the five day period of training period. This course with the fund spend up of Rs.45,550 was successfully conducted with the financial assistance of the management and the department of Electrical and electronics. Of the total 72 registered third year students 56 students successfully got trained in this one week course and they have been issued with the certificate with special prizes for the active performers in all sessions. The students thoroughly utilize this one week course and acknowledge the outcome of this value added course with their feedback and suggestions. The department faculty Prof.B.A.Naveen Antony coordinate the entire course session with the assistance of the department head Prof Dr.V.Mohan and other teaching and non teaching staff members.

DST – NIMAT PROJECT 2018 – 19

Implemented by:
Entrepreneurship Development Institute of India (EDII), Ahmedabad

Under the aegis of:
The National Science & Technology Entrepreneurship Development Board, DST, Govt. of India

Agreement between EDII and Programme Implementing Agency (PIA)

Entrepreneurship Development Institute of India (henceforth referred to as EDII) having its Head Office at Village & P.O. Bhat 382 428, Dist. Gandhinagar (Gujarat) and
E.G.S. PILLAY ENGINEERING COLLEGE
Old Nagore Road, Thethi, Nagapattinam - 611002, Tamil Nadu

[Name & address of the Programme Implementing Agency (PIA)] hereby enter into the following Agreement on 13.07.2018 (Date) at NAGAPATTINAM (Place).

E.G.S. PILLAY ENGINEERING COLLEGE (Name of the PIA)
has agreed to conduct 02 EAC(s) / EDP(s) / WEDP(s) / TEDP(s) / FDP(s). The programme (s)/ activity are to be conducted as per the terms and conditions enclosed.

General Guidelines

1. The grant being released should be exclusively spent on the specified purpose for which it has been sanctioned within stipulated time. Any unspent balance out of the amount sanctioned would be surrendered to EDII, Ahmedabad. Carry forward of unspent funds to the next financial year for utilisation for the same purpose may be considered only with the specific approval of the EDII, Ahmedabad.
2. The Programme Implementing Agency will furnish progress report of the work on the programme from time to time. In addition, appropriate persons may visit the Programme Implementing Agency periodically for ascertaining the progress of work and resolve any difficulties that might be encountered in the course of implementation. During the progress of the project, the PIA will provide all facilities to the Visiting Persons. On completion of the programme, consolidated report of the work done on the subject in a bond form shall be sent to EDII, Ahmedabad.
3. The Programme Implementing Agency shall furnish to EDII, Ahmedabad, Utilisation Certificates (copy enclosed) and an Audited Statement of Accounts pertaining to the grant within three months of completion of the programme / activity sanctioned.
4. The Programme Implementing Agency will maintain separate audited accounts for this project. If it is found expedient to keep a part or whole of the grant in a bank account earning interest, the interest earned should be reported to the EDII, Ahmedabad. The interest thus earned will be treated as a credit to the PIA to be adjusted towards further instalments of the grant, if any.
5. The Programme Implementing Agency will not entrust the implementation of the work for which the grant is being sanctioned in another organization and to divert the grant receipt as assistance to the latter institution. In case the PIA itself is not in a position to execute or complete the project, it would be required to refund the entire amount of grant-in-aid received by it to EDII, Ahmedabad.

As per the Agreement, 80% of the sanctioned amount per programme is to be released before commencement of the programme(s). Accordingly, **Rs. 32000/-** has been credited in your bank account on **04/08/2018**. The detailed brake-up of the total amount is as following:

Sr. No.	Programme / Activity	No. of Programme Sanctioned	1 st Installment per Programme (Rs.)	Total Amount of the Programme (Rs.)
1	EAC	2	16000/-	32000/-
			Total	32000/-

You are requested to please send us the receipt for the same.

Thanking you, with regards

Yours sincerely,

DST – NIMAT PROJECT 2018 – 19

Implemented by:
Entrepreneurship Development Institute of India (EDII), Ahmedabad

Under the aegis of:
The National Science & Technology Entrepreneurship Development Board, DST, Govt. of India

Agreement between EDII and Programme Implementing Agency (PIA)

Entrepreneurship Development Institute of India (henceforth referred to as EDII) having its Head Office at Village & P.O. Bhat 382 428, Dist. Gandhinagar (Gujarat) and

E.G.S. PILLAY ENGINEERING COLLEGE

Old Nagore Road, Thethi, Nagapattinam - 611002, Tamil Nadu

[Name & address of the Programme Implementing Agency (PIA)] hereby enter into the following Agreement on 13.07.2018 (Date) at NAGAPATTINAM (Place).

E.G.S. PILLAY ENGINEERING COLLEGE _____ (Name of the PIA)

has agreed to conduct 02 EAC(s) / ___ EDP(s) / ___ WEDP(s) / ___ TEDP(s) / ___ FDP(s). The programme (s)/ activity are to be conducted as per the terms and conditions enclosed.

General Guidelines

1. The grant being released should be exclusively spent on the specified purpose for which it has been sanctioned within stipulated time. Any unspent balance out of the amount sanctioned would be surrendered to EDII, Ahmedabad. Carry forward of unspent funds to the next financial year for utilisation for the same purpose may be considered only with the specific approval of the EDII, Ahmedabad.
2. The Programme Implementing Agency will furnish progress report of the work on the programme from time to time. In addition, appropriate persons may visit the Programme Implementing Agency periodically for ascertaining the progress of work and resolve any difficulties that might be encountered in the course of implementation. During the progress of the project, the PIA will provide all facilities to the Visiting Persons. On completion of the programme, consolidated report of the work done on the subject in a bond form shall be sent to EDII, Ahmedabad.
3. The Programme Implementing Agency shall furnish to EDII, Ahmedabad, Utilisation Certificates (copy enclosed) and an Audited Statement of Accounts pertaining to the grant within three months of completion of the programme / activity sanctioned.
4. The Programme Implementing Agency will maintain separate audited accounts for this project. If it is found expedient to keep a part or whole of the grant in a bank account earning interest, the interest earned should be reported to the EDII, Ahmedabad. The interest thus earned will be treated as a credit to the PIA to be adjusted towards further instalments of the grant, if any.
5. The Programme Implementing Agency will not entrust the implementation of the work for which the grant is being sanctioned in another organization and to divert the grant receipt as assistance to the latter institution. In case the PIA itself is not in a position to execute or complete the project, it would be required to refund the entire amount of grant-in-aid received by it to EDII, Ahmedabad.
