AIDS awareness program on 02-03-2018

This is a chance for people all over the world to come together in the battle against HIV, to support those who are living with HIV, and to remember those who have passed away from an AIDS-related illness. World AIDS Day is significant because it serves as a reminder to the public and the government that HIV is still a serious problem that requires urgent funding, more awareness, the eradication of prejudice, and improved educational opportunities.

Herbal awareness program on 02-03-2018

Medicinal plants and their extracts are natural resources of compounds used for ethnomedical and phytotherapy. They are also a source of natural product used in the new related compounds and drugs for conventional medicine. The increasing treatments interest herbal medicines requires a comprehensive assessment of research data in this field to held focus future efforts . Medicinal plants will be useful for Maternal and Child health care, as essential drugs, in food and nutrition, for common illnesses and injury, for endemic infectious diseases, mental health and oral health

Yoga Program on 26.02.2018

Students of all professional courses are under stress amongst which engineering curriculum is rated as one of the highest. Yoga is a perfect complement to student's lives. The physical practice is a great relief to lengthy periods of being stationary when students are studying, and there are also many benefits for the mind and relieve from stress and anxiety. Many studies have indicated that the students experienced a reduction in stress and anxiety levels after inclusion of regular practice of yoga and can have a significant change in the lifestyle of an engineer by allowing them to maintain their health as well as relieving them from their day-to-day stress. Considering the long-term effects of the engineering profession on one's health, it is crucial to know the awareness levels about yoga and its benefits amongst engineering undergraduate and post-graduate students towards ensuring physical, mental and psychological well-being. With this objective, NSS of E.G.S. Pillay Engineering College conducted a Yoga program on 26.02.2018 for second year students (around 50 students). Mr. Pandian, Yoga Master/EGSPEC conducted the class by performing yoga poses in precise alignment, using the correct terminology, and safely guiding students through the flow of the practice. He guided students to "connect to breath" while conducting a series of physical and mental exercises. Students participated in the class reported increased levels of relaxation, greater perspective of their lives, more focus, and feelings of empowerment.

Yoga program 26.02.2018 at Thethi village.

Founders day -Tree plantation program On 2.1.2018

Trees contribute to their environment over long periods of time by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe. Climate change, global warming, climate protests – these are not just buzz words, these are the words used by the younger generation to raise their concerns about our environment and it is time that everybody started listening to their message. Tree Plantation Program for founders day conducted on 2.1.2018 at Thethi village. sapling planted by Our College Secretary Dr.S.Parameswaran at our college. Tree plantation program organized by Dr.V.Sivaramakrishnan, NSS Program officer. Tree plantation program nearly 100 NSS volunteers , NSS program officer, Physical Director Mr.Velavan .

Founders day Tree plantation by Dr.S.Parameswaran , Secretary, EGSPEC. On 2.1.2018

DR.Abdulkalam birthday on 15.10.2017

World Students' Day is observed annually on October 15. The day commemorates the birthday of former Indian president Dr A P J Abdul Kalam. Born in Rameswaram in Tamil Nadu, Kalam studied science and physics during the early years of his life. Kalam dedicated his life to teaching and inspiring students to become the best version of themselves through his insightful lectures. He was also called the 'Missile Man of India' for spearheading the development of the most significant Indian missiles and the country's civilian space programmes. He occupied some of the very distinguished positions as an administrator with the Defence Research and Development Organisation (DRDO) and the Indian Space Research Organisation (ISRO). So this day celebrated by NSS unit of EGSPEC.

Disaster reduction day on 13.10.2017

The International Day for Disaster Risk Reduction is an opportunity to acknowledge the progress being made toward preventing and reducing disaster risk and losses in lives, livelihoods, economies and basic infrastructure in line with the international agreement for reducing global disaster risk and losses. The International Day for Disaster Risk Reduction was started in 1989, after a call by the United Nations General Assembly for a day to promote a global culture of risk-awareness and disaster reduction. Held every 13 October, the day celebrates how people and communities around the world are reducing their exposure to disasters and raising awareness about the importance of reining in the risks that they face. **Disaster reduction day awareness program conducted on on 13.10.2017**

Organ donation rally On 07-07-2017 at Nagapattinam

"The government is taking forward its organ donation programme in the state. People should also take part in it. It is seen that people sign a pledge of donating their organs but their family members fear donating the organs of their loved ones in case of being declared brain dead. Donating organs gives a new lease of life to those who are in need of kidney, heart, lungs and other vital organ transplants." To create awareness about organ donation, rally conducted by NSS EGS Pillay Engineering College, Nagapattinam on 07-07-2017.
