SUMMARY OF INFOHUSTLE'20

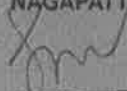

A National level technical Symposium "INFOHUSTLE'20" had been conducted in our E.G.S.Pillay Engineering College(Autonomous), Nagapattinam, Organized by Department of Information Technology on 14 March 2020.The Programme was inaugurated in the fine morning by our honourable principal Dr.S.Ramabalan, graced the morning and welcomed the participants and chief guests. Student President of FAITH Association D.Madumitha welcomes all and gave the presidential address. The Head of the Department of Information Technology ,Prof S.Manikandan ,Welcome the participant and read our Annual Report.

The Symposium consisted four Technical events are Idea Launch, Dexiner, Crack The IT, Mind Spark and six Non technical events are Neenga Nadinga Boss, Surya Deva, Who is the Hulk, Click one, Map Out, Spin Attack. Around external Participants from various engineering college came over ,out of which 22 Participated in Idea Launch while 35 students Participated other events. Few were about participating as listeners and made the session interesting.

Technical Presentation started at 10.30 am, Prof. S. Manikandan ,HOD/IT juries the session's respectively. Participants honoured under diverse labels best Presenter award ,Best paper award & case award for winners .second events Dexiner started 11.30 am. About 3 Participation Selected .third evens Crack The IT started 12.00 pm. About 10 students selected from first round where so many participants contended to debug the given c-program with errors. Three winners selected from the second round .Meanwhile ,the student of Department of Information Technology conducted spot-events under various labels.

Finally, the symposium came to a close with the summary of the whole programme was given by the secretary of FAITH Association M. Yogeshwar and the vice -president Asfar Fathima Proposed the vote of thanks in style. Dr.E.Sivakumar ,Assistant Professor ,Department of Information Technology ,NIT,Trichy was the chief guest of the valedictory session and gave away prizes and certificates to the external as well as internal participants.

Respected sir,

Sub: Requisition to conduct Association Event Symposium 2019-2020:Reg

We are happy to let know this our department information technology has planned to organize a symposium "INFOHUSTLE '20" through our FAITH Association on 14.03.2020 this include Idea Launch, Dexiner, Crack The IT, Mind Spark and some Non technical events. We request you to permit us to organize the events and expect you valuable guidance and presence during the programme.

Thanking you

Yours faithfully,
(S.Manikandan)

PREFACE

This Magazine got its release as a part of inaugural session of a National Level Technical Symposium (YANTRAA-2K22), organized by SPARKS (Spectacular Association of Real KnowledgerS), Department of Electronics and Communication Engineering and hosted by E.C.S Pillay Engineering College (Autonomous), Nagapattinam.

This Magazine has its leafs about technical papers submitted by students of various engineering colleges and universities in Tamilnadu. It comprises around 28 technical papers of various domains of Electronics and Communication Technology. Domains include vast areas recent technologies and possible improvements on existing algorithms, technology on various fields of electronics.

The magazine work of comprising all the technical contents and thoughts submitted by various administrative and academic persons and students of our institutions done by

KARAN. B (IV YEAR)
ABINASH U (IV YEAR)
HARI RAM PRASATH (III YEAR B)
KAMALESH.S (III YEAR A)
KALYANA SUNDARAM.R (II YEAR A)

We should give it to all the students and congratulate on putting some valiant effort to make it possible in quick succession.

We congratulate the students who had helped in this work and the faculty members who guided them for preparing this magazine.

We hope you will enjoy reading this informative manual.

Top 3 Inventions of 2021:

SMARTGRID:

01. Augmented Reality

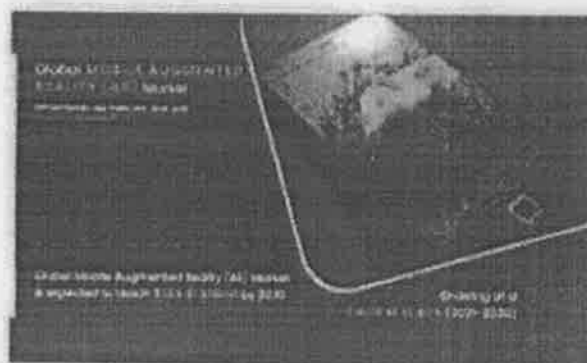

The smart grid is fully packed with smart devices throughout the infrastructure in houses, offices, and industries. The devices used in the smart grid are used to collect the data and analyze the utility and provides cost-effective suggestions. It can detect faults in usage. Smart grid establishes the communication between the power company, distributors, and end-users. This will provide higher efficiency at a lower cost.

02. Graphene Supercapacitor

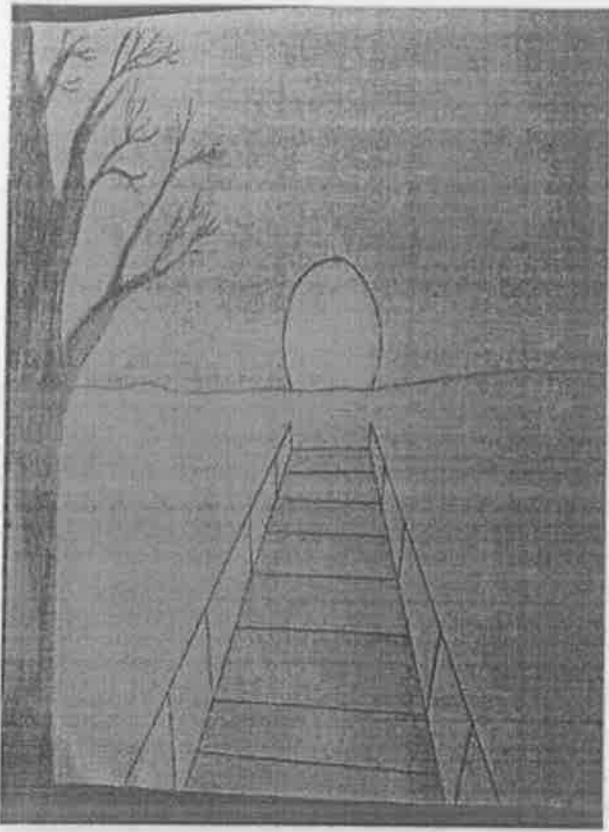

Super Capacitors are used for high capacity voltage storage and can act like rechargeable batteries. Supercapacitors contain large density to store voltage. Graphene is a high conductivity material and it helps the supercapacitors to be used in high-frequency applications. In place of carbon, graphene is used as it has properties such as scaling and data structuring, this made grapheme use in CPUs of a computer. Super capacitors with graphene reduces costs and boost the capacitor performances.

03. Virtual reality

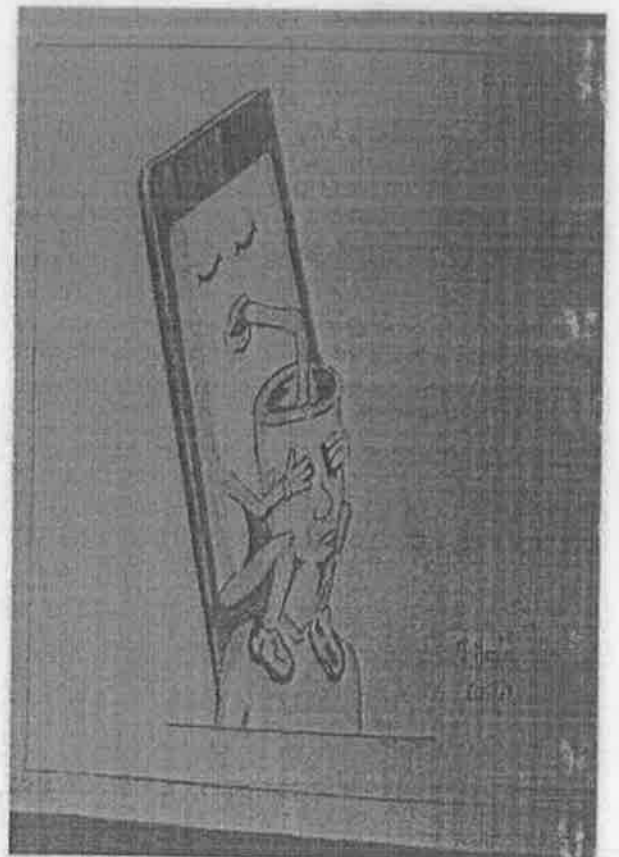

Virtual reality takes us to the designed world which is completely digital. As we all know that virtual reality is helping from the dangerous scenarios by simulating the danger zones. The augmented reality is the super imposition of the designs in the real world. The images and things we designed will be digitally imposed in our world. This is used in the industries to impose real-time data about the industrial systems and their performances. This Augmented reality makes maintenance and repairs easy. It provides a high graphical attraction.
