### PLASTIC FREE CAMPUS

Circular dated on 01-10-2022

Plastic pollution is currently one of the biggest environmental concerns. The short-term benefits and convenience of plastic and plastic goods have led to a boom in the production and consumption of plastic. Over the past century, excess-consumption of plastic has surpassed management of plastic waste and led it to become a curse to the planet. Plastic is a danger that impacts not the environment as well as our health and wellbeing. We have all contributed to this problem, knowingly and unknowingly and we must work to reduce and eliminate plastic pollution.

#### Guidelines

This guideline intends to help to achieve plastic free campus. The guidelines encourage to adopt the policies and practices towards cleaner and plastic free campuses.

- To carry out awareness drives and sensitizing workshops on the harmful impacts of single use plastics.
- Ensure plastic-free campuses in the institutions. Students and faculty must work towards this in mission mode. Usage of plastics should be stopped in canteens, Stationary shops in the institution's premises and hostels, etc. Students may not be permitted to bring non-bio-degradable plastic items to the institution.
- Every student will strive to make his/her household plastic free.
- Students to be incentivized to carry out similar campaigns at community level
- Installation of necessary alternative facilities like water units to avoid the purchase and use of plastic water bottles.
- Ensure presence of alternative solutions like cloth bags etc., to plastic bottles, covers and other goods on campuses.
- Conducting events and poster competitions etc. on designing ecological and environment friendly goods to minimize the use of single use plastic.
